Transfers of Assets from Customers

Adoption of the above standards and interpretations did not have any effect on the financial performance, position or presentation of financials of the Group and of the Company, except as disclosed below:-

2.1 Adoption of Financial Reporting Standards ("FRSs")

FRS 3 Business Combinations (revised)

The group has applied FRS 3, Business Combination (revised) in accounting for business combinations. The change in accounting policy has been applied prospectively in accordance with the transitional provisions provided by the standard and does not have impact on earnings per share.

FRS 7 Improving Disclosures about Financial Instruments (revised)

Prior to 1 January 2011, information about financial instruments was disclosed in accordance with the requirements of FRS 7 Financial Instruments: Disclosures. Amendments to FRS 7 require enhanced disclosures about fair value measurements in which a three-level fair value hierarchy was introduced. Each class of financial instrument is to be classified in accordance to this hierarchy which reflects the inputs used in making the fair value measurement. It also reinforces the existing principles for disclosures on liquidity and credit risks.

The new requirement on the three-level fair value hierarchy has been applied prospectively in accordance with the transitional provisions of the FRS 7 Amendments. The adoption of this amendment did not have any financial impact to the Group and the Company.

FRS 127 Consolidated and Separate Financial Statements (Revised)

The Group applied FRS 127, Consolidated and Separate Financial Statements (revised) since the beginning of the reporting period. In accordance with the transitional provisions provided by the standard and does not have impact on earnings per share. Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the precious subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently it is accounted for as equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

Any loss applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.
