#### 2. Significant Accounting Policies (cont'd)

#### **Malaysian Financial Reporting Standards (MFRS Framework)**

On 19 November 2011, the Malaysian Accounting Standards Board (MASB) issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards (MFRS Framework).

The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture (MFRS 141) and IC Interpretation 15 Agreements for Construction of Real Estate (IC 15), including its parent, significant investor and venturer (herein called 'Transitioning Entities').

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework and may in the alternative, apply Financial Reporting Standards ("FRS") as its financial reporting framework until the MFRS is mandatory for annual periods beginning on or after 1 January

The Economic Entity falls within the scope definition of Transitioning Entities and accordingly, will be required to prepare financial statements using the MFRS Framework in its first MFRS financial statements for the year ending 30 June 2019. In presenting its first MFRS financial statements, the Economic Entity will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively against opening retained earnings.

# 3. Auditors' Report on Preceding Annual Financial Statements

#### 16. Performance Review

The Economic Entity's revenue of RM4.02 million for the current quarter and RM5.87 million for the current financial year were lower than last year's corresponding quarter's RM4.39 million and financial year of RM6.91 million. These were mainly due to lower dividend and interest income. The dividend income of RM748,000 from investment in British and Malayan Trustees Limited ("BMT") was received during last financial year but we have sold the investment in November 2016. Rental income remained the same in SGD currency.

The Economic Entity posted an after-tax profit of RM43.56 million for the current quarter as compared to the after-tax loss of RM30.97 million reported during the corresponding quarter of a year ago, mainly due to:-

- The revaluation of its long-term investment in securities was a fair value gain of RM32.37 million for the current quarter while it suffered a loss of RM17.32 million during last year's corresponding quarter.
- 2) The gain of RM2.40 million arising from the revaluation of its investment properties for the current quarter was higher than the gain of RM522,000 reported during last year's corresponding quarter.
- 3) The loss of RM431,000 on disposal of investment properties reported during the immediate preceding quarter was reversed during the current quarter. The compensation of RM201,000 for the wayleave arrangement for the electricity supply line on 1.149 acres of the Semenyih's land is now recorded as sundry income for the current quarter.
- 4) The share of the associate's financial results was a profit of RM4.63 million for the current quarter while it was a loss of RM2.80 million reported during last year's corresponding quarter.

The Economic Entity ended the current financial year with an after-tax profit of RM44.88 million as compared to the after tax loss of RM44.98 million reported during the last financial year. This was mainly due to:-

- The revaluation of its long-term investment in securities was a fair value gain of RM39.64 million for the current financial year while it was a loss of RM28.49 million reported during the last financial year.
- 2) The gain of RM2.40 million arising from the revaluation of its investment properties for the current financial year was higher than the gain of RM522,000 reported a year ago.
- 3) The share of the associate's financial results was a profit of RM8.84 million for the current financial year while it was a loss of RM6.92 million reported a year ago.
- 4) The impairment loss of RM15.08 million on goodwill was reported a year ago while there was none for the current financial year.

The Economic Entity, however, suffered a loss of RM10.18 million from disposal of its long-term investment in securities.

- 2) The fair value gain of RM32.37 million arising from the revaluation of its long term investment in securities for the current quarter was higher than the gain of RM9.84 million reported during the immediate preceding quarter.
- 3) The fair value gain of RM2.40 million on its investment properties was reported during the current quarter while there was none for the immediate preceding quarter.
- 4) The foreign exchange loss of RM66,000 was lower than the immediate preceding quarter's RM126,000.

## 18. Commentary on Prospects

The Economic Entity's results for the financial year ending 30 June 2018 will be dependent on dividend income receivable from investments, the effect of exchange rate fluctuations and market valuation of its investments.

The results of the associated company may be affected by the plantation contribution and market valuation of its investments. The plantation is expected to achieve satisfactory levels of productivity.
