# Part A - Notes In Compliance with FRS 134

# A1. Basis of Preparation and Accounting Policies

The quarterly consolidated financial statements should be read in conjunction with the Group's audited financial statements for the financial year ended 31 March 2017. The explanatory notes attached to the quarterly consolidated financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 March 2017.

The quarterly consolidated financial statements have been prepared by applying accounting policies and methods of computation consistent with those used in the preparation of the most recent audited financial statements of the Group and are in accordance with FRS 134, Interim Financial Reporting and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

Note:

\*Entities that meet the specific criteria in FRS 4, paragraph 20B, may choose to defer the application of FRS 9 until that earlier of the application of the forthcoming insurance contracts standard or annual periods beginning before 1 January 2021

The Group and the Company intend to adopt the above FRSs when they become effective.

The initial application of the abovementioned FRSs is not expected to have any significant impact on the financial statements of the Group and of the Company except as mentioned below:

FRS 9 Financial Instruments (IFRS 9 issued by IASB in July 2014)

FRS 9 (IFRS 9 issued by IASB in July 2014) replaces earlier versions of FRS 9 and introduces a package of improvements which includes a classification and measurement model, a single forward looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. FRS 9 when effective will replace FRS 139 Financial Instruments: Recognition and Measurement.

FRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income and fair value through profit or loss. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial assets. Investment in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in other comprehensive income not recycling. There is now a new expected credit losses model that replaces the incurred loss impairment model used in FRS 139. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. FRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under FRS 139.

The adoption of FRS 9 will result in a change in accounting policy. The Group and the Company are currently examining the financial impact of adopting FRS 9.

# New Malaysian Financial Reporting Standards ("MFRS Framework") issued but not yet effective

On 19 November 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRS Framework"). The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual years beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture and IC Interpretation 15 Agreements for Construction of Real Estate, including its parent, significant investor and venturer (hereinafter called "Transitioning Entities").

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework and continue to use the existing FRS Framework. The adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual years beginning on or after 1 January 2018.

The Group and the Company fall within the scope definition of Transitioning Entities and accordingly, will be required to prepare financial statements using the MFRS Framework in their first MFRS financial statements for the financial year ending 31 March 2019. In presenting their first MFRS financial statements, the Group and the Company will be required to restate the comparative financial statements to amounts reflecting the application of the MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained earnings.

The Group is currently in the process of determining the financial impact arising from the adoption of the MFRS Framework.
