QUARTERLY REPORT FOR THE QUARTER ENDED 31 JULY 2006

Part A Explanatory notes in compliance with reporting requirements of FRS 134 - Interim Financial Reporting

1. Basis of preparation

The Quarterly Report has been prepared in accordance with the reporting requirements outlined in *Financial Reporting Standard (FRS) 134* - "*Interim Financial Reporting*" issued by the Malaysian Accounting Standards Board and Paragraph 9.22 of the Bursa Malaysia Securities Berhad ("Bursa Securities") Listing Requirements and should be read in conjunction with the Group's annual audited financial statements for the year ended 31 January 2006.

Tanjong's interim financial statements have been prepared in accordance with those International Financial Reporting Standards ("IFRS") (including the applicable International Accounting Standards ("IAS") and International Financial Reporting Interpretations Committee ("IFRIC") interpretations) issued and effective or issued and early adopted as at the time of preparing these statements.

The introduction of IFRS has resulted in a redefinition of Numbers Forecast Operations ("NFO") revenue in line with the revised accounting definition for gaming revenue within the UK gaming industry. Gaming transactions are now viewed as financial instruments falling within the ambit of IAS 39 – "Financial Instruments: Recognition and Measurement" ("IAS 39") which requires the resulting revenue to be disclosed at fair value, namely net of prize payouts. Accordingly, NFO revenue previously reported as gross sales proceeds is now reported net of prize payouts.

The accounting policies applied subsequent to the Group's annual audited financial statements for the year ended 31 January 2006 are in relation to the acquisition of two power plants in Egypt on 2 March 2006.

The power purchase agreements ("PPA") governing the Group's Egyptian operations require the power plants to be transferred back to the Egyptian Electricity Holding Company ("EEHC") upon expiry of the PPA under a build, operate and transfer arrangement thereby transferring substantially all the risks and rewards incidental to the ownership of the plant to EEHC. As such, the aforementioned arrangement, which is deemed to contain a lease element, is required to be accounted for in accordance with *IFRS adopted IAS 17* – "Leases" as a finance lease, as the arrangement meets the required criteria of a finance lease in the Standard.

Accordingly, the present value of the lease payments, which is the contracted capacity payment due from EEHC, is classified as finance lease receivables in the Balance Sheet at an amount equal to the net investment in the lease.

Finance lease income is recognised over the term of the lease using the net investment method which reflects a constant periodic rate of return on the outstanding finance lease receivable.

Energy payments from EEHC are recognised as revenue as and when the contracted power is delivered.

QUARTERLY REPORT FOR THE QUARTER ENDED 31 JULY 2006

Part B Explanatory notes in compliance with Bursa Securities Listing Requirements (Part A of Appendix 9B)

14. Review of performance

14.1 Material factors affecting current quarter's results

Group revenue for the current quarter increased by RM91 million to RM597 million over the corresponding quarter in the previous year ("corresponding quarter") mainly due to the maiden contribution from the Egyptian power plants following the completion of their acquisition on 2 March 2006.

The current quarter's profit before tax of RM106 million was lower by RM53 million as compared to the profit before tax for the corresponding quarter mainly due to a significant increase in the NFO prize payout from 62% to 74% in the Gaming segment in the current quarter.

14.2 Material factors affecting financial year to date results

Group revenue has increased by RM127 million from RM1,023 million in the corresponding period in the previous year ("corresponding period") to RM1,150 million in the current six month period ("current period"). Group operating profit is higher by RM37 million at RM358 million.

Power Generation's revenue increased by 48% from RM550 million to RM811 million in the current period mainly due to the maiden contribution from the Egyptian power plants following the completion of the acquisition of these plants on 2 March 2006. The higher revenue has in turn contributed primarily to the increase of the segment's operating profit by RM128 million or 62% to RM333 million in the current period.

As explained in Notes 1 & 8, revenue from the NFO business is now disclosed after deduction of prize payouts. Gross sales proceeds from the NFO business increased by 6% to RM1,043 million from RM989 million due to improved demand. The NFO prize payout ratio for the period however increased from 63% to 74%. Accordingly, Gaming segment revenues are stated at RM274 million for the period under review, compared to RM376 million as restated for the previous period. Consequent upon the significant increase in prize payout, the operating profit for the gaming segment has likewise reduced from RM120 million to RM38 million.

As a result of the reduced number of visitors to Tropical Islands, revenue from the Leisure segment decreased to RM35 million from RM54 million in the previous period. This was however mitigated by increases in average spend per visitor and lower operating expenses thereby resulting in a lower operating loss being recorded at RM29 million as compared to RM32 million in the previous period.

Part B Explanatory notes in compliance with Bursa Securities Listing Requirements (Part A of Appendix 9B)

14. Review of performance

14.2 Material factors affecting financial year to date results (continued)

Net investment income has increased due to the inclusion of the gain on the disposal of LPG plants totalling RM19 million during the year.

Net finance costs increased from RM41 million to RM106 million as a result of the consolidation of interest expense arising from the inclusion of the results of the Egyptian power plants and finance costs incurred on the additional borrowings to finance the acquisition of these plants.

The results from joint ventures and associate for the period includes losses totalling RM11.5 million relating to the lottery operations in Moscow.

For the period under review, Group profit attributable to shareholders increased by RM4 million from RM202 million to RM206 million. Net earnings per share increased by 1.0 sen from 50.0 sen to 51.0 sen.

15. Variation of current quarter's profit before tax to preceding quarter

The current quarter's profit before taxation of RM106 million is lower than the preceding quarter's profit before taxation of RM156 million mainly due to the lower contribution from Gaming, increase in operating loss from Tropical Islands due to lower attendance and the absence of the gain from the disposal of the Liquefied Petroleum Gas business in China which was recognised in the preceding quarter.

16. Prospects for the remaining period to the end of the financial year

The Directors expect that the following factors will impact the Group's prospects for the remaining period to the end of the financial year:-

- (i) incremental contribution arising from the Egyptian power plants;
- (ii) improving demand for the Group's gaming products in line with initiatives to increase its market presence and product competitiveness;
- (iii) a return to a normalized prize payout trend in the NFO segment;
- (iv) continuing losses in Tropical Islands which could increase as a result of closure of the dome for planned capital improvements; and
- (v) exposure to interest fluctuations on unhedged floating rate borrowings amounting to RM1,184 million (see Note 22).

Barring unforeseen circumstances, the Board anticipates a satisfactory performance by the Group for the remaining period to the end of the financial year.

The effective tax rates of 24.2% and 20.4% for the current quarter and year to date respectively are lower than the statutory tax rate of 28% due mainly to the net income from the Egyptian plants and the capital gain from the sale of the LPG business which are not subject to income tax.

19. Sale of unquoted investments and/or properties

There were no disposals of unquoted investments or properties during the period under review.
