# Part B Explanatory notes in compliance with Bursa Securities Listing Requirements (Part A of Appendix 9B)

#### 14. Review of performance

#### 14.1 Material factors affecting current quarter's results

Group revenue for the current quarter increased by RM294 million to RM987 million over the corresponding quarter in the previous year ("corresponding quarter") mainly due to additional contributions totalling RM176 million from the Globeleq power plants which were acquired in November 2007 ("Globeleq plants") and increases in energy billings for the quarter.

Group profit before taxation for the current quarter however decreased from RM239 million to RM139 million due mainly to a RM55 million charge relating to the windfall levy on the Malaysian power plants; and a reduced contribution from the Gaming segment arising from fewer draws and an increase in the NFO prize payout ratio from 62% to 66%.

#### 14.2 Material factors affecting financial year to date results

Group revenue has increased by RM701 million from RM1,935 million in the corresponding nine-month period in the previous year ("corresponding period") to RM2,636 million in the current period ("current period"). Group operating profit, at RM750 million, is higher by RM46 million.

Power Generation revenue increased by 51% from RM1,293 million to RM1,943 million in the current period mainly due to the contribution of RM520 million from the Globeleq plants. The operating profit of the Power Generation segment however increased by only RM28 million to RM587 million for the current period due to a RM62 million charge relating to the windfall levy on Malaysian power plants, and business and corporate development costs totalling RM42 million.

Gross sales proceeds from the NFO business decreased by 4% to RM1,459 million from RM1,515 million due to lesser draws being conducted in the current period. The Gaming segment's operating profit marginally reduced by RM3 million from RM162 million to RM159 million due mainly to the aforementioned decrease, offset by a slight improvement in the NFO prize payout ratio in the current period.

In the Leisure segment, improved attendances in Tropical Islands resulted in a RM37 million or 52% revenue increase from RM71 million to RM108 million during the period. The improved performance resulted in a reduction in Tropical Islands' losses from RM38 million to RM13 million in the current period. The Leisure segment also recorded a RM29 million revenue contribution from TGV Cinemas Sdn Bhd which became a wholly-owned subsidiary on 31 July 2008.

Net investment income is higher than that recorded in the corresponding period mainly due to the recognition of net investment gains totalling RM62 million from the disposal of the Group's interest in broadcasting assets in the United Kingdom ("Arqiva") on 26 March 2008.

# Part B Explanatory notes in compliance with Bursa Securities Listing Requirements (Part A of Appendix 9B)

#### 14. Review of performance (continued)

#### 14.2 Material factors affecting financial year to date results (continued)

Net finance costs increased from RM173 million to RM248 million as a result of a full period's interest expense relating to the acquisition of the Globeleq plants.

For the period under review, Group profit attributable to shareholders increased by RM28 million from RM407 million to RM435 million. Net earnings per share increased by 7.0 sen from 100.8 sen to 107.8 sen.

#### 15. Variation of current quarter's profit before tax to preceding quarter

The current quarter's profit before taxation of RM139 million is lower than the preceding quarter's profit before taxation of RM190 million due mainly to the RM55 million charge relating to the windfall levy on Malaysian power plants (RM7 million in the preceding quarter).

#### 16. Prospects

Group revenues and earnings will continue to benefit from the investments made to expand the Group's Power Generating activity. All other businesses of the Group should generally perform in line with expectations, subject to the outcome of the following factors and other unforeseen circumstances:

- (i) the consequential impact of prevailing conditions affecting discretionary spending on the Group's products and services; and
- (ii) the outcome of the Malaysian Government's efforts to restructure the Power sector and its consequential impact on Powertek Group's existing contractual arrangements with the relevant counterparties.

## 17. Board of Directors' opinion on revenue or profit estimate, forecast, projection or internal targets

The Group did not previously announce or disclose any revenue or profit estimate, forecast, projection or internal targets in a public document.
