### **QUARTERLY REPORT FOR THE QUARTER ENDED 31 JULY 2009**

# Part A Explanatory notes in compliance with reporting requirements of FRS 134 – Interim Financial Reporting

### **1. Basis of preparation**

The Quarterly Report has been prepared in accordance with the reporting requirements outlined in *Financial Reporting Standard (FRS)* 134 - "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board and Paragraph 9.22 of the Bursa Malaysia Securities Berhad ("Bursa Securities") Listing Requirements. The accounting policies used in the preparation of the Quarterly Report comply with the principles of the International Financial Reporting Standards ("IFRSs") adopted by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC") of the IASB.

The Quarterly Report has been prepared based on the accounting policies consistent with those adopted in the preparation of the audited statutory financial statements for the financial year ended 31 January 2009. The following new standards that came into effect on 1 January 2009 have no impact on the accounting treatment or the reporting of the Group's results or financial position.

a) International Accounting Standard 1 ("IAS 1") – "Presentation of Financial Statements"

IAS 1, which was updated in September 2007, now requires the reporting of transactions not specific to changes in equity of Tanjong's equity holders ("owners") in a separate Statement of Comprehensive Income (see page 2).

b) International Financial Reporting Standard 8 ("IFRS 8") – "Operating Segments"

IFRS 8 replaces IAS 14 – "Segment Reporting". It sets out requirements for the disclosure of information about an entity's operating segments and also about the entity's products and services and the geographical areas in which it operates. As the Group has determined that the business segments identified previously are the same as that under IFRS 8, there has been no change to the presentation of the Group's quarterly segmental information, as disclosed in Note 8 in this Quarterly Report.

The Quarterly Report has not been audited or reviewed. It has been prepared in accordance with the Disclosure and Transparency Rules issued by the Financial Services Authority (United Kingdom) which require the following additional disclosures in respect of half yearly financial reports:

- (a) a description of the principal risks and uncertainties for the remaining six months of the financial year (See Note 16); and
- (b) Statement of Directors' Responsibilities (See Note 29)

### 14. **Review of performance**

### 14.1 Material factors affecting current quarter's results

Group revenue for the current quarter increased by RM157 million over the corresponding quarter in the previous year ("corresponding quarter"), to RM998 million due to improved topline performances in all business segments. The increase in revenue for Power Generation arose from higher energy billings from the Malaysian power plants. Gaming revenue recorded gains on the back of additional draws and a reduction in prize payout ratio from 66% to 61%. Revenues attributed to the Leisure segment benefited from the maiden contribution of TGV Cinemas Sdn Bhd ("TGV") which became a wholly owned subsidiary on 31 July 2008.

Group profit before taxation for the current quarter increased from RM190 million to RM263 million in line with the aforementioned revenue increase and lower plant maintenance expenses for the Panglima power plant which underwent scheduled maintenance in the corresponding quarter.

### 14.2 Material factors affecting financial year to date results

Group revenue increased by RM326 million from RM1,650 million in the corresponding sixmonth period in the previous year ("corresponding period") to RM1,976 million in the current period ("current period"). Group operating profit is, at RM669 million, higher by RM145 million.

Power Generation revenue increased by 16% from RM1,204 million to RM1,399 million in the current quarter mainly due to improved contribution from the Malaysian and Egyptian power plants. The operating profit of the Power Generation segment increased by RM117 million or 29% to RM525 million in the current period in line with the increase in revenue and lower plant maintenance expenses (referred to in Note 14.1 above) and lower corporate and business development costs.

Gross sales proceeds from the NFO business increased to RM1,044 million from RM991 million due to seven additional draws conducted in the current period. The Gaming segment recorded a 9% increase in operating profit from RM115 million to RM125 million. The increased operating profit was due to a reduction in the NFO prize payout ratio from 65% to 62% and was moderated by losses recorded by the Racing Totalisator business arising from an escalation in totalisator expenses.

In the Leisure segment, improved attendances and spending in Tropical Islands together with the maiden contribution from TGV (Note 14.1 above), resulted in a RM87 million increase in revenue from RM64 million to RM151 million. These developments enabled the Leisure segment to report an operating profit of RM2 million for the current period as compared to a RM15 million operating loss in the corresponding period.

### Part B Explanatory notes in compliance with Bursa Securities Listing Requirements (Part A of Appendix 9B)

### 14. **Review of performance (continued)**

### 14.2 Material factors affecting financial year to date results (continued)

Net investment income is lower mainly due to the recognition, in the corresponding period, of investment gains from the disposal of the Group's interest in Arqiva amounting to RM62 million.

For the period under review, Group profit attributable to shareholders was higher by RM35 million from RM338 million to RM373 million. Accordingly, net earnings per share was higher at 92.5 sen from 83.7 sen in the corresponding period.

### 15. Variation of current quarter's profit before tax to preceding quarter

The current quarter's profit before taxation is at RM263 million, slightly lower than the preceding quarter's profit before taxation of RM269 million.

### 16. **Prospects**

Group revenues and earnings will continue to benefit from the investments made to expand the Group's Power Generating activity. All other businesses of the Group should generally perform in line with expectations, subject to the outcome of the following factors and other unforeseen circumstances:

- i) the Malaysian Government's efforts to restructure the Power sector and its impact on Powertek Group's existing contractual arrangements with the relevant counterparties;
- ii) the planned maintenance of the Group's Malaysian power plants in the remaining period to the end of the financial year;
- iii) the impact of prevailing conditions affecting discretionary spending on the Group's Gaming products and services and its Leisure activities; and
- iv) measures that have to be taken by the relevant parties to reduce totalisator expenses in the Racing Totalisator business.

In relation to the Group's investment in Tropical Islands ("TI"); TI had in April 2009 successfully entered into agreements with third parties who will independently finance the construction and development of vacation homes as well as market the rental of these homes throughout Europe to cover its growing market for short term family vacations. These agreements are conditional upon the relevant parties procuring the appropriate financing to complete the project. However, if financing cannot be obtained and/or if construction is significantly delayed, the Group will need to re-assess the appropriateness of the carrying value of its investment in TI.

The principal risks and uncertainties for the remaining period to the end of the financial year are unchanged from those stated on Page 27 of the Tanjong 2009 Annual Report.
