

**Notes To The Interim Financial Statements
For the Second Quarter ended 31st December 2011**

A1. BASIS OF PREPARATION

The interim financial statements have not been audited and have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad and should be read in conjunction with the Group's Audited Financial Report for the period ended 30th June 2011. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the period ended 30th June 2011.

A2. CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted are consistent with those as applied in the preparation of the audited financial statements for the period ended 30th June 2011 and principally remain unchanged. The Group has adopted the new/revised FRS as disclosed below:

(i) FRS 8 Operating Segments

FRS 8 requires segment information to be presented on a similar basis to that used for internal reporting purposes. As a result, the Group's external segmental reporting had been presented based on the internal reporting to the management, who makes decisions on the allocation of resources and assesses the performance of the reportable segments. As this is a disclosure standard, there will be no impact on the financial positions or results of the Group.

(ii) FRS 7 Financial Instruments: Disclosure

FRS 7 requires disclosure of the following:

- (a) the significance of financial instruments for the Group's financial position and performance; and
- (b) quantitative and qualitative information about exposure to risks arising from financial instruments including specific minimum disclosures about credit risk, liquidity risk and market risk.

(iii) FRS 139 Financial instruments

FRS 139 establishes the principles for the recognition and measurement of financial assets and financial liabilities, including hedge accounting.

(iv) FRS 101(revised) Presentation of financial statements

This revised standard introduce the titles of "statement of financial position" and "statements of cash flows" to replace the current titles "balance sheet" and "cash flow statements" respectively. A new statement known as the "statement of comprehensive income" is also introduced in this standard whereby all non-owner change in equity are required to be presented in either one statement of comprehensive income or in two statement (i.e. a separate income statements and a statements of comprehensive income).

(v) IC Interpretation 10 Interim Financial Reporting and Impairment

IC Interpretation 10 prohibits impairment losses recognised in an interim period on goodwill and investment in equity instruments and financial assets carried at cost to be reversed at a subsequent reporting date.

(vi) IC Interpretation 15 Agreements for the Construction of Real Estate

IC Interpretation 15 establishes the developer will have to evaluate whether control, and significant risks and rewards of the ownership of work in progress, can be transferred to the buyer as construction progresses before revenue can be recognised as a percentage of completion method.

(vii) FRS3 (revised) and FRS 127 (revised)

The FRS 3 (revised) and FRS 127 (revised) require all acquisition related costs to be recognised as an expense and the purchase and sale of non-controlling shareholdings when control is retained to be accounted as an equity transaction. In addition, the revised FRS3 and FRS 127 require losses to be allocated to Non controlling interest (“NCI”) even if it results in a deficit position.

The adoption of the above FRSS and IC Interpretations do not have any significant impact on the interim financial report of the Group.
