On 19 November 2011, the Malaysian Accounting Standards Board (MASB) issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards (MFRS Framework).

The MFRS Framework is to applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture (MFRS 141) and IC Interpretation 15 Agreements for Construction of Real Estate (IC 15), including its parent, significant investor and venturer (herein called 'Transitioning Entities').

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework for an additional two years. Consequently, adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2014.

The Group falls within the scope definition of Transitioning Entities and accordingly, will be required to prepare financial statements using the MFRS Framework in its first MFRS financial statements for the year ending 30 June 2015. In presenting its first MFRS financial statements, the Group will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively. against opening retained earnings.

16. Performance Review

The Group's revenue for the current quarter of RM2.66 million was lower than the corresponding quarter ended 30 September 2011 by RM751,000 despite higher dividend and interest income. This shortfall was due to lower crop sales arising from lower FFB prices and lower fresh fruit bunches production.

For the current quarter, the Group reported an after-tax profit of RM4.75 million which was a positive turnaround from the after-tax loss of RM1.06 million suffered a year ago. This was mainly due to the unrealised exchange gain of RM2.36 million as compared to the corresponding quarter's unrealised exchange loss of RM3.82 million. Share of associates' profit of RM1.58 million for the current quarter was higher than the corresponding quarter by RM432,000.

17. Comment on Material Change in Profit Before Taxation for the Current Quarter as Compared with the Immediate Preceding Quarter

For the quarter under review, the Group's revenue of RM2.66 million was lower than the immediate preceding quarter of RM3.24 million despite higher crop sales. This was mainly due to dividend income of RM431,000 was received as compared to the receipt of RM1.41 million during the immediate preceding quarter ended 30 June 2012.

The Group reported a pre-tax profit of RM4.92 million for the current quarter which was significantly higher than the immediate preceding quarter's RM1.91 million despite the recognition of the fair value gain of RM2.40 million arising from the revaluation of its investment property in the immediate preceding quarter while there was none for the current quarter. This was due to:-

- 1) The exchange difference was a gain of RM2.36 million for the current quarter while the immediate preceding quarter was a loss of RM185,000.
- 2) Share of associates' result was a profit of RM1.58 million for the current quarter while it was a loss of RM1.63 million for the immediate preceding quarter.

18. Commentary on Prospects

With the recruitment of additional employees, the labour shortage problem has been resolved. However, the performance for the rest of the financial year is expected not to be better than last year due to the following reasons:-

- 1) The labour cost is expected to increase as the Government is implementing the minimum wage policy with effect from January 2013.
- 2) Currently, there is an over supply of CPO and this may result in lowering the FFB prices.

The results of the associated companies may be further affected by the market valuation of their investments and currency fluctuations.
