#### **Malaysian Financial Reporting Standards (MFRS Framework)**

On 19 November 2011, the Malaysian Accounting Standards Board (MASB) issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards (MFRS Framework).

The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture (MFRS 141) and IC Interpretation 15 Agreements for Construction of Real Estate (IC 15), including its parent, significant investor and venturer (herein called 'Transitioning Entities').

Transitioning Entities will be allowed to defer adoption of the new MFRS Framework and may in the alternative, apply Financial Reporting Standards ("FRS") as its financial reporting framework until the MFRS is mandatory for annual periods beginning on or after 1 January 2018.

The Group falls within the scope definition of Transitioning Entities and accordingly, will be required to prepare financial statements using the MFRS Framework in its first MFRS financial statements for the year ending 30 June 2019. In presenting its first MFRS financial statements, the Group will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively against opening retained earnings.

#### 16. Performance Review

The Group recorded revenue of RM2.58 million for the 1st quarter of financial year ending 30 June 2017. This was better than last year's corresponding quarter of RM2.40 million by about 7.5% despite lower tonnage of fresh fruit bunches ("FFB") harvested, lower dividend income and interest income. The higher revenue was mainly due to the increase in FFB prices by about 44% and the investment property in London was tenanted in September 2016.

For the current quarter, the Group reported an after-tax loss of RM1.32 million which was significantly lower than the after-tax loss of RM6.89 million recorded during last year's corresponding quarter. This was due to:-

- 1) Revenue achieved for the current quarter was higher than a year ago.
- 2) Lower operating expenses incurred for the current quarter.
- 3) The unrealised foreign exchange loss of RM1.06 million for the current quarter was significantly lower than last year's corresponding quarter's loss of RM5.70 million. This was due to the weakening of Singapore Dollar against United States Dollar was 1.08% for the current quarter while it was 5.6% a year ago.
- 4) Share of loss of associates for the current quarter was RM978,000. This was lower than last year's corresponding quarter's RM1.65 million.

# 17. Comment on Material Change in Profit Before Taxation for the Current Quarter as Compared with the Immediate Preceding Quarter

For the quarter under review, the Group's revenue of RM2.58 million was lower than the immediate preceding quarter (4Q2016) of RM4.50 million despite higher crop sales and rental income from the tenancy of its investment property in London. This was mainly due to lower dividend and interest income.

The Group reported a pre-tax loss of RM1.15 million for the current quarter. This was lower than the immediate preceding quarter's loss of RM4.67 million despite lower revenue and share of the financial results of the associates was a loss of RM978,000 while it was a profit of RM151,000 in the immediate preceding quarter. This was mainly due to:-

- 1) Lower operating expenses incurred for the current quarter.
- 2) The unrealised foreign exchange loss of RM1.06 million for the current quarter was lower than the immediate preceding quarter's RM5.70 million.

## Part B - Explanatory Notes Pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad

## 17. Comment on Material Change in Profit Before Taxation for the Current Quarter as Compared with the Immediate Preceding Quarter (Cont'd)

3) The immediate preceding quarter reported a fair value loss of RM944,000 arising from the revaluation of its investment property while there was none for the current quarter.

### 18. Commentary on Prospects

For the rest of the financial year ending 30 June 2017, the Group expects its Plantation operations to generate a higher crop tonnage as more replanted areas will be producing FFB during the current financial year. However, this may be affected by the following challenges -.

- 1) Increased costs in the labour market
- 2) Increasingly unpredictable weather conditions such as heavy rainfalls may hamper the harvesting of FFB.
- 3) Increased cost of production

In spite of the above challenges, the Group continues to remain postitive on the long term fundamentals of the oil palm industry.

The Group's results are also dependent on dividend income receivable from its investments, market valuation of its publicly listed investments and the effect of currency fluctuations.

The results of the associated companies may be further affected by the market valuation of their investments and currency fluctuations.
