### A2. Changes in Accounting Policies

The accounting policies and methods of computation applied by the Group in the interim financial statements are consistent with those applied in the latest audited financial statements for the financial year ended 30 April 2014 except for the adoption of the following standards and interpretation effective for the financial year beginning 1 May 2014:

## UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE FOURTH QUARTER ENDED 30 APRIL 2015

## NOTES TO THE INTERIM FINANCIAL STATEMENTS - CONT'D

#### A2. Changes in Accounting Policies - Cont'd

#### Malaysian Financial Reporting Standards - Cont'd

The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141: *Agriculture* ("MFRS 141") and IC Interpretation 15: *Agreements for Construction of Real Estate* ("IC 15"), including its parent, significant investor and venturer (herein called "Transitioning Entities").

Transitioning Entities are allowed to defer the adoption of the new MFRS Framework and may in the alternative, apply Financial Reporting Standards ("FRS") as its financial reporting framework for annual periods beginning on or after 1 January 2014.

The Company and certain subsidiaries in the Group fall within the scope definition of Transitioning Entities and have opted to defer adoption of the new MFRS Framework. Accordingly, the Group will present its first set of MFRS financial statements for annual periods beginning on or after 1 January 2016 as mandated by the MASB.

In presenting its first MFRS financial statements, the Group will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained earnings.

The Group has not completed its assessment of the financial effects of the differences between Financial Reporting Standards and accounting standards under the MFRS Framework. Accordingly, the financial performance and financial position as disclosed in these financial statements could be different if prepared under the MFRS Framework.

#### **B1.** Review of Performance

### (a) Current Quarter vs. Preceding Year's Corresponding Quarter

For the current quarter ended 30 April 2015, the Group's pretax profit of RM12.72 million was 37% lower compared with RM20.31 million in the corresponding quarter of the preceding year mainly due to lower average prices of crude palm oil ("CPO") and palm kernel ("PK") by 17% and 12% respectively.

Comments on the business segments are as follows:

### Plantation

Plantation profit fell by 42% to RM10.20 million from RM17.57 million in the corresponding quarter of the preceding year mainly due to lower average prices of CPO and PK of RM2,240/tonne and RM1,842/tonne compared with preceding year of RM2,693/tonne and RM2,103/tonne respectively. Output of FFB was maintained.

### **Investment holding**

Investment profit of RM2.52 million was 8% lower than RM2.75 million in the corresponding quarter of the preceding year which included a gain on disposal of available-for-sale investments of RM457,000.

### (b) Current Year-to-date vs. Preceding Year-to-date

For the financial year ended ended 30 April 2015, the Group's pretax profit of RM58.44 million was 31% lower compared with RM84.10 million in the preceding year which included a gain of RM5.68 million on disposal of an associate, Niro Ceramic (M) Sdn Bhd. Excluding this gain, the pretax profit for the current financial year was 25% lower than that in the preceding year mainly due to lower average price of CPO by 9% despite higher FFB production by 2%.

Comments on the business segments are as follows:

### Plantation

For the financial year ended 30 April 2015, the Group achieved 2% or 7,497 tonnes higher FFB production. However, due to lower average price of CPO of RM2,265/tonne (compared with RM2,485/tonne in the preceding year) as well as lower oil extraction rate, plantation profit fell to RM50.55 million from RM69.65 million.

#### B1. Review of Performance - Cont'd

(b) Current Year-to-date vs. Preceding Year-to-date - Cont'd

#### **Investment holding**

Investment profit of RM7.89 million in the current financial year was 45% lower compared with RM14.45 million in the preceding year which included a gain of RM5.68 million on disposal of an associate, Niro Ceramic (M) Sdn Bhd. Excluding this gain, the investment profit in the current financial year would be 10% lower mainly due to lower fair value gains on held-for-trading investments of RM377,000 (compared with RM1.50 million in the preceding year) and loss on disposal of available-for-sale investments of RM460,000.

#### B2. Comparison with Preceding Quarter's Results

The Group's pretax profit for the current quarter ended 30 April 2015 of RM12.72 million was 3% lower than RM13.07 million in the preceding quarter mainly due to lower FFB production by 18%.

Comments on the business segments are as follows:

#### Plantation

Plantation profit of RM10.20 million was 10% lower compared with RM11.33 million in the preceding quarter mainly due to lower FFB production by 18% or 15,014 tonnes eventhough the average prices of CPO and PK were higher by 1% and 21% respectively.

#### **Investment holding**

Investment profit of RM2.52 million was 45% higher compared with RM1.74 million in the preceding quarter mainly due to higher fair value gains on held-for-trading investments and financial assets at fair value through profit or loss.

### **B3.** Current Year Prospects

For the financial year ending 30 April 2016, an additional 1,178 hectares of newly matured area will come into harvesting. With the young age profile of the Group's oil palm, 81% of which is below 15 years, FFB output is expected to rise over the years.

Short and medium term outlook for CPO prices is unclear due to several conflicting factors. Management's priority remain focused on improving labour productivity, cost efficiency and estate management.

Barring unforeseen circumstances, the Group expects satisfactory result for the coming financial year.
