UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE FOURTH QUARTER ENDED 30 APRIL 2016

NOTES TO THE INTERIM FINANCIAL STATEMENTS

A. EXPLANATORY NOTES PURSUANT TO FINANCIAL REPORTING STANDARD ("FRS") 134: INTERIM FINANCIAL REPORTING AND BURSA LISTING REQUIREMENTS

A1. Basis of Preparation

The interim financial statements are unaudited and have been prepared in compliance with the requirements of FRS 134: Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the annual audited financial statements of the Group for the year ended 30 April 2015. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 30 April 2015.

A2. Changes in Accounting Policies

The accounting policies and methods of computation applied by the Group in the interim financial statements are consistent with those applied in the latest audited financial statements for the financial year ended 30 April 2015 except for the adoption of the following standards effective for the financial year beginning 1 May 2015:

Effective for annual periods beginning on or after 1 July 2014

Amendments to FRS 119 Defined Benefit Plans: Employee Contributions
Annual Improvements to FRSs 2010–2012 Cycle
Annual Improvements to FRSs 2011–2013 Cycle

The adoption of the above standards do not have any material impact on the financial statements of the Group.

Malaysian Financial Reporting Standards

On 19 November 2011, the Malaysian Accounting Standards Board ("MASB") issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRS Framework").

The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141: *Agriculture* ("MFRS 141") and IC Interpretation 15: *Agreements for Construction of Real Estate* ("IC 15"), including its parent, significant investor and venturer (herein called "Transitioning Entities").

A2. Changes in Accounting Policies - Cont'd

Malaysian Financial Reporting Standards - Cont'd

Transitioning Entities are allowed to defer the adoption of the new MFRS Framework and may in the alternative, apply Financial Reporting Standards ("FRS") as its financial reporting framework for annual periods beginning on or after 1 January 2014.

The Company and certain subsidiaries in the Group fall within the scope definition of Transitioning Entities and have opted to defer adoption of the new MFRS Framework. Accordingly, the Group will present its first set of MFRS financial statements for annual periods beginning on or after 1 January 2018 as mandated by the MASB.

In presenting its first MFRS financial statements, the Group will be required to restate the comparative financial statements to amounts reflecting the application of MFRS Framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained earnings.

The Group has not completed its assessment of the financial effects of the differences between Financial Reporting Standards and accounting standards under the MFRS Framework. Accordingly, the financial performance and financial position as disclosed in these financial statements could be different if prepared under the MFRS Framework.

A3. Seasonal or Cyclical of Operations

The production of oil palm fresh fruits bunches ("FFB") is influenced by weather conditions.

Based on past trends, FFB production of Malaysia operations tends to pick up from May onwards and will peak around September/October. From December onwards, it will be the seasonal downtrend in FFB production.

The effect of the haze and dry weather caused by El Nino (which was the most severe for the past 30 years) is now being felt with a drastic drop in FFB production in the second half of the financial year. As a result, the FFB production of Malaysia operations for the financial year ended 30 April 2016 was 9% lower compared with that of the preceding year.

A4. Unusual Items Affecting Assets, Liabilities, Equity, Net Income or Cash Flows

There were no unusual items affecting assets, liabilities, equity, net income or cash flows during the financial year ended 30 April 2016.

B. EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. Review of Performance

(a) Current Quarter vs. Preceding Year's Corresponding Quarter

For the current quarter ended 30 April 2016, the Group's pretax profit of RM23.57 million was 85% higher compared with RM12.72 million in the corresponding quarter of the preceding year. This was mainly due to net foreign exchange gain of RM10.66 million (of which RM4.02 million has been realised) on the USD loan taken to finance the acquisition of INR and LAK. Excluding this item, the Group's pretax profit would be marginally higher compared with that in the corresponding quarter of the preceding year.

Comments on the business segments are as follows:

Plantation

Malaysia operations

Plantation profit of RM11.90 million was 17% higher compared with RM10.20 million in the corresponding quarter of the preceding year. This was mainly due to higher average prices of crude palm oil ("CPO") (RM2,462/tonne compared with RM2,240/tonne) and palm kernel ("PK") (RM2,198/tonne compared with RM1,842/tonne) which were more than offset the impact from lower FFB production by 23% or 15,787 tonnes.

Indonesia operations

In the current quarter, plantation profit of RM1.20 million was contributed by the newly acquired Indonesia subsidiary, LAK.

Investment holding

Investment profit of RM10.47 million was 316% higher than RM2.52 million in the corresponding quarter of the preceding year. This was mainly due to foreign exchange gain of RM10.66 million (of which RM4.02 million has been realised) on the USD loan. Excluding this item, the investment loss of RM188,000 would be incurred mainly due to interest expense of RM1.09 million.

B1. Review of Performance - Cont'd

(b) Current Year-to-date vs. Preceding Year-to-date

For the financial year ended 30 April 2016, the Group's pretax profit of RM70.23 million was 20% higher compared with RM58.44 million in the preceding year. This was mainly due to foreign exchange gain of RM17.88 million (of which RM4.02 million has been realised) on the USD loan. Excluding this item, the Group's pretax profit would be 10% lower compared with that in the preceding year mainly due to lower FFB production which was affected by the prolonged dry spell due to the El Nino phenomena, lower average price of CPO as well as lower investment income.

Comments on the business segments are as follows:

Plantation

Malaysia operations

Plantation profit of RM47.24 million was 7% lower compared with RM50.55 million in the preceding year mainly due to lower FFB production by 9% or 30,637 tonnes as well as lower average price of CPO (RM2,207/tonne compared with RM2,265/tonne).

Indonesia operations

Plantation profit of RM1.20 million was contributed by the newly acquired Indonesia subsidiary, LAK.

Investment holding

Investment profit of RM21.79 million was 176% higher compared with RM7.90 million in the preceding year. This was mainly due to foreign exchange gain of RM17.88 million (of which RM4.02 million has been realised) on the USD loan. Excluding this item, the investment profit would be 50% lower compared with that in the preceding year mainly due to lower dividend income, fair value losses on held-for-trading investments of RM1.41 million as well as interest expense of RM1.23 million.

B2. Comparison with Preceding Quarter's Results

The Group's pretax profit for the current quarter ended 30 April 2016 of RM23.57 million (included foreign exchange gain of RM10.66 million, of which RM4.02 million has been realised on the USD loan) was 46% higher compared with RM16.17 million (included unrealised foreign exchange gain of RM7.23 million on the USD loan) in the preceding quarter. Excluding the foreign exchange gain, the Group's pretax profit would be 44% higher compared with that in the preceding quarter mainly due to higher average prices of CPO and PK by 14% and 23% respectively as well as lower FFB production cost eventhough FFB production was lower by 20%.

B2. Comparison with Preceding Quarter's Results - Cont'd

Comments on the business segments are as follows:

Plantation

Malaysia operations

Plantation profit of RM11.90 million was 56% higher compared with RM7.61 million in the preceding quarter mainly due to higher average prices of CPO (RM2,462/tonne compared with RM2,156/tonne) and PK (RM2,198/tonne compared with RM1,783/tonne) as well as lower FFB production cost eventhough FFB production was lower by 20% or 13,578 tonnes.

Indonesia operations

In the current quarter, plantation profit of RM1.20 million was contributed by the newly acquired Indonesia subsidiary, LAK.

Investment holding

Investment profit of RM10.47 million (included foreign exchange gain of RM10.66 million, of which RM4.02 million has been realised on the USD loan) was 22% higher than RM8.56 million (included unrealised foreign exchange gain of RM7.23 million on the USD loan) in the preceding quarter. Excluding the foreign exchange gain, investment loss of RM188,000 would be incurred mainly due to higher interest expense of RM1.09 million as against RM136,000 in the preceding quarter.

B3. Current Year Prospects

The extreme dry weather due to El Nino which affected the yield for the financial year 2015/16 will continue into the first half of this financial year. However, the Group expects a better FFB output for the financial year ending 30 April 2017, with the additional 833 hectares coming into maturity in Malaysia and contribution from the newly acquired Indonesia plantations.

Management's priority remain focused on improving labour productivity, cost efficiency and better estate management practices.

Barring unforeseen circumstances, the Group expects satisfactory result for the coming financial year.
