Notes on the quarterly report – 30 JUNE 2013

#### A. EXPLANATORY NOTES AS PER FRS 134 - INTERIM FINANCIAL REPORTING

#### A1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with the requirements of MFRS 134: Interim Financial Reporting and Chapter 9.22 of the Listing Requirements of the Bursa Malaysia Securities Berhad ("BMSB").

The interim financial report should be read in conjunction with the audited financial statements of the Company for the year ended 31 December 2012. These explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Company since the financial year ended 31 December 2012.

The significant accounting policies and methods of computation applied in the unaudited interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 December 2012, except for the adoption of the following Malaysian Financial Reporting Standards ("MFRSs"), Issues Committee ("IC") Interpretations and amendments to MFRS with effect from 1 January 2013.

The Directors of the Company anticipate that the application of the following new Malaysian Financial Reporting Standards ("MFRSs"), revised FRSs, Issues Committee ("IC") Interpretations, amendments to FRSs and IC Interpretations which are mandatory and will be effective for financial periods as stated below will have no material impact on the financial statements of the Group:

Notes on the quarterly report – 30 JUNE 2013

# B. ADDITIONAL INFORMATION REQUIRED BY BURSA MALAYSIA LISTING REQUIREMENTS

#### **B1.** Review of Performance

The consolidated revenue of the Group for the current quarter under review has reduced by approximately 11% from RM340.2 million in the preceding year corresponding quarter to RM302.1 million. The drop in revenue was principally attributed to lower average selling price of metallurgical coke as well as lower sales volume registered during the current quarter under review. The average selling price of the metallurgical coke suffered a 21% drop from RMB1,738 to RMB1,373 whilst the sales volume went down by slightly more than 1% compared to those of the preceding year corresponding quarter. However, the overall contribution from the by-products was higher by 44% due mainly to the higher prices of coal gas, crude benzene and tar oil which saw an improvement of approximately 145%, 14% and 4% respectively. The average prices of ammonia sulphate and middlings however, were down by approximately 38% and 2% respectively compared to the same quarter last year.

In tandem with the drop in sales revenue, the cost of sales was also lower at approximately RM310.1 million in the current quarter under review compared to RM363.0 million in the preceding year corresponding quarter, representing a reduction of approximately 15%. This was mainly due to a drop in the average coking coal price by approximately 19% to RMB1,049 in the current quarter from RMB1,303 in the same quarter last year.

By virtue of the fact that the consolidated revenue fell by a lower extent compared to the total cost of sales, coupled with the overall higher contribution seen from the by-products, the Group managed to record a smaller gross loss of approximately RM8.0 million during the quarter under review compared to approximately RM22.8 million in the preceding year corresponding quarter.

Correspondingly, the Group has turned in a relatively smaller loss before tax of approximately RM11.1 million this quarter under review compared to approximately RM24.5 million recorded in the preceding year corresponding quarter.

# B2. Variation of results against preceding quarter

The Group's consolidated revenue of approximately RM302.1 million registered during the current quarter under review represents a reduction of approximately 10% from RM334.2 million recorded in the preceding quarter ended 31 March 2013. The drop in revenue was primarily attributed to an approximate 18% drop in the average price of metallurgical coke during the current quarter under review compared to that of the immediate preceding quarter. In addition, the sales volume was also lower by approximately 6% in the current quarter compared to that of the preceding quarter.

In tandem with the lower sales volume and average coking coal price, the cost of sales in the current quarter under review was also lower by approximately 5% to RM310.1 million compared to the preceding quarter ended 31 March 2013 of RM324.7 million. The average coking coal price was lower by approximately 13% in the current quarter compared to those recorded in the preceding quarter ended 31 March 2013.

(Company No.: 732227-T)
Incorporated in Malaysia

Notes on the quarterly report – 30 JUNE 2013

Owing to the fact that the average price of metallurgical coke fell at a relatively higher margin compared to that of coking coal, the Group succumbed to registering a loss of approximately RM11.0 million in this quarter compared to the previous quarter profit of approximately RM3.3 million.

# **B3.** Current year prospects

The euphoria felt as a result of a perceived recovery of the steel industry as well as that of metallurgical coke in the first quarter of 2013 appeared to be short-lived. The revival of the said industries was unfortunately weighed-down by an evident slowdown of the China economy, reflecting poor exports and sluggish business performance and increasing signs that credit-driven growth has run its course. The continued lackluster growth in the global economy stemming primarily from the prolonged hesitation in the recovery of the US economy and that Eurozone still mired in recession, further aggravated the situation. The country's second quarter GDP growth slowed to 7.5%, down from 7.7% in the first quarter of the year. The official target for 2013 has been downscaled and set at 7.5%, which would be the slowest rate since 1990.

Notwithstanding the above, the new leadership in China has flagged its commitment to shift its focus towards a more sustainable growth path moving forward, emphasizing quality growth not reliant on extravagant investment funded by low cost debt and supported rather by rising consumption. These economic reforms and structural shifts in socio-economic policies initiated to re-balance the Chinese domestic economy, is seen as a strategy deemed necessary by the new leadership to build a more sustainable and robust economy for the future. Admittedly, the abovementioned initiatives will have a period of gestation before being able to yield the desired results. Premised on that, the Group does not expect any huge upsurge in the industry but rather a more moderate growth path in the remaining months of 2013.

The Group adopts a long term business horizon and is continuously optimistic that the industry will indeed gravitate towards a sustained recovery, in a not too distant future. Barring any unforeseen circumstances and/or major turn of events, the Group is hopeful that such recovery will bring about positive impact to the financial performance of the Group in the coming financial years.

#### B4. Variation on Forecast Profit / Profit Guarantee

Profit Forecast : N/A
Profit Guarantee : N/A

The Group did not issue any profit forecast nor profit guarantee during the current financial period to date.

#### **B5.** Taxation

No taxation was provided during the quarter under review.

#### **B6.** Corporate proposals

There were no corporate proposals during the quarter under review.
