## PART B. NOTES PER BURSA MALAYSIA SECURITIES BERHAD LISTING REQUIREMENTS

#### 1. Performance review

#### **Continuing Opertions**

#### **Contract Manufacturing segment**

#### Current quarter

The contract manufacturing segment posted a 18.91% increase in revenue from RM6.06 million for the preceding year's corresponding quarter to RM7.21 million for the current quarter mainly due to increase in orders from overseas customers. Profit before tax also increased from RM427,000 for the preceding year quarter to RM566,000 in the current quarter mainly due to the increase in sales.

#### Year to date

The contract manufacturing segment posted a 18.52% increase in revenue from RM19.98 million for the 9 months ended 31<sup>st</sup> March 2017 to RM23.68 million for the 9 months ended 31<sup>st</sup> March 2018, mainly due to increase in orders from a overseas customer. However the segment reported a decline in profit before tax from RM1.42 million for the preceding year to date to RM1.23 million for the current year to date, partly due to the increase in cost of renewal of working permit for foreign workers in the previous quarter and also due to certain expenses e.g. staff bonus paid out this quarter.

#### Power & Telecommunication Cables Manufacturing segment (associate company)

#### Current quarter

Our associate company, Fujikura Federal Cables Sdn Bhd, contributed a share of loss in the current quarter of RM3.616 million as compared with a share of loss of RM788,000 in the corresponding quarter of the preceding year. The losses were mainly due to a substantial decrease in higher margin export sales and also staff separation scheme cost incurred in this quarter.

#### Year to date

The share of results from our associate company for year to date has worsened from a loss after tax of RM719,000 to a loss after tax of RM4.82 million, mainly due to the substantial decrease in higher margin export sales.

#### Property development and property rental segment (joint venture company)

#### Current quarter

Our joint venture company, 368 Segambut Sdn. Bhd., contributed a share of loss and write back of deferred income realised previously in the current quarter of RM1.39 million as compared with a share of profit of RM261,000 in the same quarter of last year. The loss was mainly due to higher operating expenses, e.g. sales commission, incurred this quarter and due to some write back of deferred income realised in the previous quarter.

#### 1. Performance review (con'd)

#### Year to date

Our joint venture company's higher loss before tax for the current year to date of RM584,000 compared to preceding year loss of RM154,000 was mainly due to higher operating expenses, e.g. sales commission, incurred this quarter and due to some write back of deferred income realisation in the previous quarter.

#### **Others**

#### Current quarter

Profit before tax has increased from RM563,000 in the corresponding quarter of the preceding year to RM719,000 in the current quarter mainly attributed to interest charged for the advances made to our joint venture company.

#### Year to date

Profit before tax has declined from RM2.85 million for the preceding year to RM2.49 million for the current year mainly due to the lower interest income earned after the dividend paid out in October 2016.

#### 2. Comparison with preceding quarter's result

The Group registered a loss before tax of RM3.73 million in the current quarter as compared with profit before tax of RM2.15 million in the immediate preceding quarter.

The loss in the current quarter was mainly attributed by share of losses in our associate company and our joint venture company, due to reasons explained above.

#### 3. Commentary of Prospects

Management expects the revenue and profitability of the contract manufacturing segment to improve especially for the export market for the remainder of the financial year.

As for the associate company, which is in the cables industry, the Management expects the business to remain challenging in view of the keen competition in both the local and export markets and sluggish global economy may dampen demand for metal cable products.

Going forward, the Group expects positive contribution from its joint venture property development project in future quarters with the launch of its first phase project and the commencement of recognition of revenue in the current quarter.

#### 4. Variance on profit forecast

Not applicable

Income Tax: - Prior year Continuing Operation -Current year	(726)	1,261
Continuing Operation	455	(726)
	(271)	535

Current income tax is calculated at the Malaysian statutory tax rate of 24% of the estimated assessable profit for the quarter.

Potential tax benefits to be derived from unused tax losses and unabsorbed capital allowances were recognized as there is strong evidence indicating that it is probable that future taxable profit can be available for utilisation against those unused tax losses and unabsorbed capital allowances.
