(Reg. No. 198001009242 (63026-U))

A: EXPLANATORY NOTES PURSUANT TO MALAYSIAN FINANCIAL REPORTING STANDARD 134

A1. Basis of preparation

The interim financial statements have been prepared under historical cost convention.

The interim financial statements are unaudited and have been prepared in accordance with the requirements of MFRS 134: Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of the Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2019.

As at 31 March 2020, the Group has net assets of RM402,433,000 and net current assets of RM19,126,000. However, the Group incurred a loss after tax of RM2,491,000 for the financial period ended 31 March 2020. The operations, results and financial position of the Group are also expected to be adversely impacted by the effects of the Covid-19 pandemic subsequent to the end of the financial year, as disclosed in Note B3.

The Group has a secured term loan of RM120 million which is included in non-current liabilities and is due for full repayment in August 2021. The management is currently in the discussions with the financial institution involved on the further extension of the repayment period for the term loan.

The Group has certain unencumbered assets, including certain land held for property development and inventories of the Group, which will be disposed of as part of the management's plans to gradually reduce the level of the borrowings of the Group. However, due to the uncertain outlook for the property market, the Group may not be able to liquidate these assets to realise their full values within a short period should the need arise.

These conditions indicate the existence of material uncertainties that may cast significant doubt on the ability of the Group to continue as a going concern.

Nevertheless, the financial statements of the Group have been prepared on a going concern basis. The ability of the Group to continue as a going concern is dependent on, amongst others, the favorable outcome of the ongoing discussions with the financial institution involved on the extension of the repayment period for the term loan and the successful implementation of the management's plans as described in the preceding paragraphs.

After considering all pertinent information, including the forecasted cash flow requirements of the Group for the foreseeable future, the probability of the extension of the repayment periods for the term loan being obtained from the financial institution, and the availability and value of the assets of the Group which may be liquidated or used as additional collateral if required, the Directors have concluded that the going concern assumption remains appropriate for the Group.

These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of Olympia Industries Berhad ("OIB" or "Company") and its subsidiaries (hereinafter referred to as the "Group") since the financial year ended 31 December 2019.

A2. Changes in accounting policies

The accounting policies and methods of computation for the interim financial statements are consistent with those adopted for the annual audited financial statements ended 31 December 2019 except as follows:-

The carrying amounts of these financial assets and liabilities are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the reporting date.

The investment securities are classified as Level 1 within the fair value hierarchy. Fair value is determined directly by reference to their published market bid price at the reporting date.

Table 1: Financial review for current quarter & financial year-to-date

Current Quarter vs Previous Corresponding Quarter Last Year

The Group reported a consolidated revenue of RM27.7 million for the current quarter under review as compared to RM32.6 million in the previous corresponding quarter of last year, a decline of 15.1% or RM4.9 million in the Group's revenue. The gaming division remains the main contributor of the Group, contributing 85.0% or RM23.5 million of the total revenue of the Group for the current quarter.

The Group reported a loss before tax of RM2.1 million for the current quarter compared to a RM1.1 million profit before tax in the previous corresponding quarter last year.

The variance in comparing both financial quarters is mainly due to:

- i) Gaming division—lower profit due to higher payout ratio of 60.2%, up from 55.9% in the corresponding quarter last year, lower average sales value per draw and the temporary closure of gaming operations during the entire period of the movement control order (MCO) imposed by the government of Malaysia.
- ii) Leasing segment-lower profits during the current quarter is mainly due to the lower occupancy and average rental rates, and impact from the MCO.

B2. Comparison with immediate preceding quarter's results

	Current quarter	Immediate preceding quarter		
RM'000	31.3.2020	31.12.2019	+/-	
Revenue	27,689	33,804	(6,115)	-18%
(Loss)/profit before tax	(2,119)	(19,106)	16,987	89%
Loss after tax	(2,491)	(22,096)	19,605	89%

Table 2: Financial review for current quarter compared with immediate preceding quarter

The Group reported a loss before tax of RM2.1 million for the current quarter compared to RM19.1 million loss before tax in the immediate preceding quarter. This is mainly due to:

- i) Property Development segment–lower profits due to fair value adjustments on investment properties in the immediate preceding quarter.
- ii) Gaming division—lower profits resulted from the suspension of operation with the implementation of the MCO from 18 March 2020. However, lower payout ratio at 60.2%, down from 69.3% in the immediate preceding quarter has mitigated the effects of the lower profit reported.
- iii) Investment Holding segment-lower profits due to a fair value losses on valuation of Menara Olympia in the immediate preceding quarter.

B3. Commentary of prospects

Given the current negative sentiments, the Group's property division's joint venture is unlikely to unveil new products until the economy and the external environment becomes more conducive. The leasing division is expected to remain steady and maintain its present level of performance for the rest of the financial year.

The revenues and results of the Group subsequent to the end of the quarter are also expected to be impacted by the temporary cessation of its gaming operations (which had only recommenced operations on 26 June 2020), as further elaborated below.

B3. Commentary of prospects (cont'd.)

On 11 March 2020, the World Health Organisation (WHO) declared Covid-19 a worldwide pandemic. With widespread concerns about the ongoing Covid-19 pandemic, the government of Malaysia had declared a MCO from 18 March 2020. The MCO encompasses restriction of movement and assembly nationwide, and closure of all government and private premises except those involved in essential services. Subsequently, the Group resumed its operations in May 2020, with the exception of the gaming segment, in line with the announcement by the government that most businesses were allowed to resume operations, following the implementation of the recent phase of the conditional MCO ("CMCO"), which remained in place up to 9 June 2020. Subsequently from 10 June 2020 onwards, the country entered into the recovery phase of the MCO ("RMCO") in which more sectors of the economy were allowed to recommence business operations.

Pursuant to Bursa Malaysia's Disclosure Guidance on Covid-19 Related Impacts and Investments (ICN 1/2020) issued on 10 June 2020, the Board and management has deemed the following additional disclosures to be specific and relevant to the sector and industry in which the Group operates:

(1) Impact on the Group's business operations

Leasing division:

- a) Rental rebates and deferments have been given to certain office and retail units tenants on a case-by-case basis to assist and retain tenants during this difficult time. Some tenants have voluntarily continue to remain closed and have initiated work-from-home arrangements. Overall, despite the office premises closure during MCO and CMCO, the office leasing operations at Menara Olympia had remained largely unaffected, with only the Covid-19 standard operating procedures ("SOPs") becoming the "new normal" for both tenants and visitors alike.
- b) There were no changes to the division's workforce structure. The division had applied to the Social Security Organisation ("PERKESO") for the wages compensation scheme for applicable staff. There is no effect on supply chain, distribution networks or logistics.
- c) There were no variations to any material contracts.

Gaming division:

- a) With the implementation of the Recovery Movement Control Order ("RMCO") starting from 10 June 2020, our gaming division which operates the Sabah 88 lotteries has recommenced its operations on 26 June 2020.
 - The results and financial position of the Group for the current quarter and for the financial year ending 31 December 2020 are expected to be impacted by the temporary closure of the gaming operations during the entire period of the MCO and CMCO and as at the date of this report, in which a total of 44 lottery draws have been cancelled.
- b) There were no changes to its workforce structure. The division had applied to PERKESO for the wages compensation scheme for applicable staff. Its network of agents have and will continue to remain inactive so long as the gaming outlets remain closed.
- c) There were no variations to any material contracts.

(2) Impact on the Group's cash flows, liquidity, financial position and financial performance

Leasing division:

- a) The leasing division has sufficient working capital and will continue to be able to fulfil its financial obligations, meet its operating expenditure and sustain its business operations in the forseeable future. The Group has also sought interest moratorium from its principal lender during the affected period.
- b) Key drivers to commercial property values typically reflect a medium to long term outlook. The impact of the pandemic to the real estate market itself is likely to be transitory. As such, the leasing division is not expected to have any material impairment to its assets, inventories or receivables as the Group believes that most of the effects of the pandemic will be temporary.
- c) The majority of the existing tenants portfolio remained steady throughout the affected period. The tenants of Menara Olympia are from varied sectors and industries which had been progressively granted re-opening permissions with SOPs by the government throughout the various MCO phases. There were no material changes to planned capital expenditure. The Company does not expect any material impact on the leasing division's financial performance.

B3. Commentary of prospects (cont'd.)

(2) Impact on the Group's cash flows, liquidity, financial position and financial performance (cont'd.)

Gaming division:

- a) The gaming division has sufficient working capital to to fulfil its financial obligations, to meet its operating expenditure, and to sustain its business operations. It will also be able to draw upon its cash reserves should the need arise. The division does not have any large external debt obligations.
- b) The Company does not expect any material impairment to its assets, inventories or receivables for gaming division based on the information as at the date of this report.
- c) With the implementation of the Recovery Movement Control Order ("RMCO") starting from 10 June 2020, our gaming division which operates the Sabah 88 lotteries has recommenced its operations on 26 June 2020.

The results and financial position of the Group for the current quarter and for the financial year ending 31 December 2020 are expected to be impacted by the temporary closure of the gaming operations during the entire period of the MCO and CMCO and as at the date of this report, in which a total of 44 lottery draws have been cancelled.

(3) Impact on business and earnings prospects

The business and earnings prospects of the Group are expected to be impacted by the Covid-19 pandemic as elaborated in the preceding paragraphs.

(4) Strategy and steps taken to address the impact of Covid-19

To recap the Company's announcement made on 27 May 2020, the Company has taken, amongst others, the following mitigation steps which are currently still ongoing:

- Tenant rentention support via rental rebates and deferment for certain affected tenants;
- Freezing of planned capital expenditures;
- Cost-cutting measures on non-essential items;
- Sought interest moratorium and tenure extensions from its principal lenders, while being continuously watchful of its loan covenants compliance;
- Applied for wage subsidy programme from PERKESO; to mitigate payroll costs; and
- Continuously evaluating various plans and options in order to pare down its borrowings.
- Subsequent to the end of the quarter, the Group has obtained a further 2-year extension for the repayment of a secured term loan of RM30 million, which was initially due in April 2021.

The Group did not and does not intend to venture into any new investments nor business collaborations related to Covid-19.

In the event of any shortfall, the Group is required to provide additional collateral acceptable to the financial institution within 30 days of such demand by the financial institution. No such demand has been made as at the current date and the management of the Group is currently in discussions with the financial institution on the relaxation of the security margin requirement.

The IRS for the term loan was entered into for 5 years with a fixed swap rate of 3.75% per annum.

Since its inception, there has been no change to the type of derivative financial contracts entered into, the risks associated with the derivative, the cash requirements of the derivative, the risk management objectives and policies to mitigate these risks, and the related accounting policies.
