PART A: EXPLANATORY NOTES PURSUANT TO FRS 134 – PARAGRAPH 16

Notes to the Interim Financial Report

The interim financial statements are unaudited and have been prepared in accordance with the requirements of Financial Reporting Standard ("FRS") 134, Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB") and paragraph 9.22 and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial statements should be read in conjunction with the audited financial statements of the Group for the year ended 31 March 2018.

A1. Basis of Preparation under MFRS Framework

The financial statements of the Group for the nine months period ended 31 December 2018 are the first set of interim financial statements prepared in accordance with the MFRS Framework, hence MFRS1 – First-time Adoption of Malaysian Financial Reporting Standards has been applied. The MFRS Framework is effective for the Group from 1 April 2018 and the date of transition to the MFRS Framework for the purpose of preparation of the MFRS compliant interim financial report is 1 April 2017.

A2. Changes in accounting policies arising from adoption of new standards, amendments and interpretations

The significant accounting policies, methods of computation and basis of consolidation applied in these interim financial statements are consistent with those of the audited financial statements for the financial year ended 31 March 2018, except for the adoption of MFRS framework effective for the financial period beginning on 1 April 2018, including MFRS1 – First-time Adoption of Malaysian Financial Reporting Standards, MFRS 141 – Agriculture, MFRS 15 – Revenue from contract with Customers and MFRS 9 – Financial Instruments and the early adoption of MFRS16: Leases.

The effects on the adoption of the abovementioned are described below.

(i) Transition from Financial Reporting Standards (FRSs) to MFRS

Since the previous annual audited financial statements as at 31 March 2018 were issued, the Group has adopted the Malaysian Financial Reporting Standards ("MFRS") framework issued by the Malaysian Accounting Standard Board ("MASB"). This MFRS framework was introduced by the MASB in order to fully converge Malaysia's existing Financial Reporting Standard ("FRS") framework with the International Financial Reporting Standard ("IFRS") framework issued by the International Accounting Standards Board.

In presenting its first MFRS financial statements for the year ending 31 March 2019, the Group is required to restate the comparative financial statements to amounts reflecting the application of MFRS framework. The majority of the adjustments required on transition will be made, retrospectively, against opening retained profits. The consolidated financial years ended March 2017 and 2018 are different under the MFRS framework.

These consolidated condensed interim financial statements are part of the period covered by the Group's first MFRS annual financial statements for the year ending 31 March 2019 and hence MFRS 1: First-Time Adoption of Malaysian Financial Reporting Standards ("MFRS 1") has been applied. Comparative figures, where applicable, have been restated as result of transition to MFRS framework.

A2. Changes in accounting policies arising from adoption of new standards, amendments and interpretations (cont'd.)

As provided in MFRS1, first- time adopter of MFRS can elect optional exemptions from full retrospective applications of MFRSs.

The Group has elected the following exemptions: -

a. <u>Exemption from MFRS 3 – Business Combination and MFRS10 Consolidated Financial</u> <u>Statements</u>

The Group have elected not to apply MFRS 3 – Business Combination and MFRS10 Consolidated Financial Statements retrospectively, that is not to restate any of its business combinations that occurred before the date of transition to MFRSs.

 <u>Exemption for cumulative translation differences</u> The Group have elected to reset the exchange reserve to zero. The exchange reserve of RM8,859,000 as at 1 April 2017 was reclassified to retained earnings.

(ii) Amendment to MFRS116 and MFRS141 Agriculture: Bearer Plants

Prior to the adoption of MFRS141 and Amendments to MFRS 116 and MFRS141 Agriculture: Bearer Plants, produce growing on bearer plants were not recognised and livestock were stated at costs. Following the adoption, these biological assets are measured at fair value less cost to sell. Changes in fair value less costs to sell are recognised in profit and loss.

The Group has assessed the impact of the adoption of the above and concluded that the adoption does not have any significant impact to the financial performance or position of the Group.

(iii) MFRS 9: Financial Instruments ("MFRS 9")

MFRS 9 introduce amongst others, a single forward looking "expected loss" impairment model which require entities to recognise loss allowance in anticipation of future losses rather than based on incurred basis.

The Group has assessed the impact of the adoption of MFRS 9 and concluded that the adoption does not have any significant impact to the financial performance or position of the Group.

(iii) MFRS 15: Revenue from Contracts with Customers ("MFRS 15")

MFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. MFRS 15 supersede the revenue recognition guidance including MFRS 118: Revenue, MFRS 111: Construction Contracts and the related interpretations when it becomes effective.

The core principle of MFRS 15 is that an entity should recognise revenue which depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Under MFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

Revenue from property development is recognised as and when the control of the asset is transferred to the customer and it is probable that the Group will collect the consideration to which it will be entitled in exchange for the asset that will be transferred to the customer. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may transfer over time or at a point in time. Control of the asset is transferred over time if the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

A2. Changes in accounting policies arising from adoption of new standards, amendments and interpretations (cont'd.)

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer in substance obtains control of the asset. The Group recognises revenue over time using the input method, which is based on the level of completion in proportion of cost incurred to date against the expected total construction costs.

The Group adopts the new standards on the required effective date using the full retrospective method. The affected areas upon the application of the new standards are as follows:

a. Multiple promises from the sale of development properties

Contracts with customers may include multiple promises to customers and therefore accounted for as separate performance obligations. Under the previous FRS, the Group accounted for the bundled sales as one deliverable and recognises revenue over time. Under the current MFRS 15, revenue from contracts with customers is recognised by reference to each distinct performance obligation in the contract with customer. The sale of development properties and the multiple promises are separate deliverables of bundled sales. The transaction price will be allocated to each performance obligation based on the standalone selling prices. If these are not directly observable, they are estimated based on expected cost plus margin.

Depending on the substance of the contract, revenue is recognised when the performance obligation is satisfied, which may be at a point in time or over time.

b. Cost incurred in fulfilling a contract

Under the previous FRS, the Group expensed off sales commissions and free legal fees as these costs do not qualify for recognition as an asset under any of the other accounting standards. However, the sales commissions and free legal fees relate directly to contracts and are expected to be recovered through future fees for the services to be provided. Accordingly, under the current MFRS 15, these costs are eligible for capitalisation and recognised as property development costs and contract assets respectively.

The Group has substantially completed its assessment on the adoption of MFRS 15, except for impact of provision for foreseeable losses for low cost housing pursuant to the clarification issued by MIA on 7 March 2018. The Group expects to fully comply with the requirements of the MFRS framework for the financial year ending 31 March 2019.

(v) Early adoption of MFRS 16: Leases ("MFRS 16")

A lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. MFRS 16 requires lessees to account for all leases under a single on-balance sheet model (subject to certain exemptions) in a similar way to finance leases under MFRS 117. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to pay rental (i.e., the lease liability) with a corresponding asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset).

With the adoption of MFRS 16, the Group will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset for those lease contracts where they are lessees. The Group have elected to apply the standard using a modified retrospective transition approach from 1 April 2018.

The impact from the adoption of MFRS1 and MFRS15 on the condensed consolidated statement of financial position as at 1 April 2017 (date of transition) and 31 March 2018 are disclosed in Appendix I to Appendix III.

A3. Audit Qualification

The audit report of the Group's audited financial statements for the financial year ended 31 March 2018 was not subjected to any qualification.

A4. Seasonality and Cyclicality Factors

The business operations of the Group were not materially affected by any seasonal and cyclical factors during the financial period under review.

A5. Nature and Amounts of Unusual Items Affecting Assets, Liabilities, Equity, Net Income or Cash Flow

There were no unusual items affecting assets, liabilities, equity, net income or cash flow during the financial period under review.

A6. Changes in Estimates of Amounts Reported in Prior Interim Periods of the Current Financial Period or Prior Financial Periods

There were no changes in estimates of amounts reported in prior financial years that have any material effects in the current quarter/financial period.

A7. Issuance and Repayment of Debt and Equity Securities

There were no issuances, cancellations, repurchases, resales and repayments of debt and equity securities during the current financial period and financial period-to-date except for the following:-

For the quarter under review, the Group recorded a revenue of RM38.68million (3Q2018(restated): RM24.35 million) and a pre-tax profit of RM15.17million (3Q2018(restated): RM4.28million) compared to the corresponding quarter of the preceding year. The improved performance for the quarter were mainly due to improved performance from property division coupled with the fair value gain on investments and the share of profit from its associate company, Country Garden Properties (Malaysia) Sdn Bhd ("CGPM").

Property division

The property division registered a revenue of RM32.97million (3Q2018(restated):RM18.51million) and a pre-tax profit of RM9.89million (3Q2018(restated): RM6.17million) compared to the corresponding quarter of the preceding year. The division's improved quarterly performance was due to sales and construction progress for its Astoria, Sena Parc and Seresta projects.

Education division

The education division recorded a revenue of RM3.88million (3Q2018(restated): RM3.53million) and a pre-tax profit of RM1.40million (3Q2018(restated): RM1.07million) compared to the corresponding quarter of the preceding year following additional students enrolment for its international school.

Other division

Other division recorded a revenue of RM1.82million (3Q2018(restated): RM2.31million) and an operating loss of RM0.88million (3Q2018(restated): RM0.86million) compared to the corresponding quarter of the preceding year due to low revenue and increasing overhead costs.

Also affecting the quarter's performance are the following:-

- (i) Gain from the fair value changes of its quoted investment in Vietnam Industrial Investments Limited ("VII") of RM3.05million arising from the increase in its quoted price
- (ii) Share of profit from its associate company, CGPM of RM3.10million following the recognition of profit arising from the completion of two phases of residential lots for delivery of vacant possession.

(b) For the 9 months period ended 31 December 2018

The Group recorded a revenue of RM86.90million (3Q2018(restated): RM69.03million) and a pre-tax profit of RM18.32 million (3Q2018(restated): RM67.58million) for the 9 months period under review as compared to the corresponding period of the preceding year.

The revenue and pre-tax profit of the corresponding period of the preceding year included the one-off revenue from MRT land disposal of RM33.71 million and the writeback of project related costs of RM35.52million, both totaling to RM69.23million.

Property division

The property division registered a revenue of RM68.53million (3Q2018(restated): RM50.62million) and a pre-tax profit of RM15.00million (3Q2018(restated): RM69.93million) compared to the corresponding period of the preceding year. The revenue and pre-tax profit of the corresponding period of the preceding year included the one-off revenue totaling to RM69.23million as mentioned above.

The division's improved performance for the 9 months period were due to the launches of Sena Parc and Seresta projects with continuing progress billing from Astoria project.

Education division

The education division recorded a revenue of RM10.95million (3Q2018(restated): RM10.41million) and a pre-tax profit of RM3.53million (3Q2018(restated): RM3.82million) compared to the corresponding period of the preceding year. The increase in revenue was due to the additional students' enrolment for its international school. Pre-tax profit however, was lower due to high overheads as the international school was only opened in September 2017 and hence has not attained its targeted student enrolment for cost efficiency.

Other division

Other division recorded a revenue of RM7.42million (3Q2018(restated): RM8.01million) and an operating profit of RM1.85million (3Q2018(restated): an operating loss of RM3.56million) compared to the corresponding period of the preceding year mainly due to MFRS9 interest recognition on its amount due from its associate company, CGPM of RM4.10 million.

Also affecting the period's performance are the following:-

- (i) Loss from the fair value changes of its quoted investment in VII of RM0.50million (3Q2018(restated): gain on fair value changes of RM0.41million) arising from reduction in quoted price for the period and the weakening of the ringgit.
- (ii) Share of profit from its associate company, CGPM of RM2.03million due to reasons mentioned earlier in B1.

B2. Material Changes in the Quarterly Results Compared to the Results of the Preceding Quarter

The Group's revenue and pre-tax profit stood at RM38.68million (2Q2019: RM26.15million) and RM15.17million (2Q2019: RM0.18million) mainly due to improved results from property division and share of profit from its associate company, CGPM coupled with the gain from fair value changes on its investment

B3. Prospects

The Group will strive to improve its property division performance for the remaining quarter with more impactful measures to counter the weakness in the prevailing property market. As for its education division, continuing efforts are being taken to increase its student intake in view of the completion of its international school building for the coming 2019 academic year.

B4. Variance of actual results from forecast profits and shortfall in Profit Guarantee

Not applicable.

The domestic income tax is calculated at the Malaysian statutory tax rate of 24% of the estimated chargeable income for the year, while taxation for a foreign jurisdiction is calculated at the rate prevailing in that jurisdiction.

The effective tax rate (excluding share of gain/loss from jointly controlled entity) of the Group is lower than the statutory tax rate in the current financial period due to certain income being non-taxable for tax purposes.

B6. Corporate Development / Post Balance Sheet Events

On 30 April 2018, the Company exercised its Option pursuant to the Soho Prestige Sdn Bhd Options ("SPSB Option") as mentioned in previous financial year. Upon exercising the Option, the Company had on the even date entered into SPSB Share Sale Agreement ("SSA") with Mayland and had subsequently paid a deposit of RM3.725 million, being 10% of the purchase consideration.

On 16 November 2018, the acquisition of SPSB was completed.

B7. Utilisation of proceeds from funds arising from the Proposed Rights Issues

As at 20 February 2019, the total proceeds of RM377,759,526.48 arising from the above Proposed Rights Issues were utilised as follows:-
