GENTING BERHAD

NOTES TO THE INTERIM FINANCIAL REPORT – 3rd QUARTER ENDED 30 SEPTEMBER 2011

(I) <u>Compliance with Financial Reporting Standard ("FRS") 134: Interim Financial Reporting</u>

(a) Accounting Policies and Methods of Computation

The interim financial report is unaudited and has been prepared in accordance with Financial Reporting Standard ("FRS") 134: "Interim Financial Reporting" and paragraph 9.22 of Bursa Malaysia Securities Berhad ("Bursa Securities") Listing Requirements. The financial information for the nine months ended 30 September 2011 have been reviewed by the Company's auditor in accordance with the International Standards on Review Engagements ("ISRE") 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2010. The accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted for the annual audited financial statements for the financial year ended 31 December 2010 except for the adoption of new FRSs, amendments and IC Interpretations that are mandatory for the Group for the financial year beginning 1 January 2011.

The adoption of these new FRSs, amendments and IC interpretations do not have a material impact on the interim financial information of the Group except for the adoption of the FRSs as set out below:

Revised FRS 3 "Business Combinations"

The revised standard continues to apply the acquisition method to business combinations but with some significant changes compared with FRS 3. For example, all payments to purchase a business are recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently remeasured through the profit or loss. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs are expensed. The Group has adopted this revised standard prospectively to all business combinations from 1 January 2011.

Revised FRS 127 "Consolidated and separate financial statements"

The revised standard requires the effects of all transactions with non-controlling interest to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. All earnings and losses of the subsidiary are attributed to the parent and the non-controlling interests, even if the attribution of losses to the non-controlling interests results in a debit balance in the shareholders' equity. Profit or loss attributable to non-controlling interests for prior years is not restated. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is remeasured to fair value, and a gain or loss is recognised in profit or loss. The Group has adopted this revised standard prospectively to transactions with non-controlling interests from 1 January 2011.

Amendments to FRS 7 "Financial Instruments: Disclosures"

The amendment promotes enhanced disclosures on fair value measurement of financial instruments via the introduction of the concept of the fair value hierarchy. There is no financial impact on the results of the Group as these changes only affect disclosures.

IC Interpretation 4 "Determining whether an arrangement contains a lease"

The interpretation requires the Group to identify any arrangement that does not take the legal form of a lease, but conveys a right to use an asset in return for a payment or series of payments. This interpretation provides guidance for determining whether such arrangements are, or contain, leases. The assessment is based on the substance of the arrangement and requires assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset. If the arrangement contains a lease, the requirements of FRS 117 "Leases" should be applied to the lease element of the arrangement. The adoption of this interpretation does not have any impact to the Group.

IC Interpretation 12 "Service concession arrangements"

The interpretation applies to contractual arrangements whereby a private sector operator participates in the development, financing, operation and maintenance of infrastructure for public sector services. Depending on the contractual terms, this interpretation requires the operator to recognise a financial asset if it has an unconditional contractual right to receive cash or an intangible asset if it receives a right (licence) to charge users of the public service. Some contractual terms may give rise to both a financial asset and an intangible asset.

Genting Power China Limited ("GPCL"), an indirect wholly owned subsidiary of the Company, has applied the provision of this interpretation on its power plant located in Meizhou Wan, in the Fujian Province of China. Consequently, GPCL has now recognised its right on the power plant as an intangible asset as compared to its previous recognition of the power plant as property, plant and equipment and leasehold land use rights. The intangible asset is amortised over its period of the concession of 21.5 years. The application of this interpretation has been accounted for retrospectively in accordance with FRS 108 "Accounting Policies, Changes in Accounting Estimates and Errors" and certain comparative balances have been restated.

The table below shows the effects of the adoption of IC Interpretation 12 to the Group:

	As previously reported	Effects of Adopting IC Interpretation 12	After effects of adopting IC Interpretation 12
	RM'000	RM'000	RM'000
Statement of Financial Position as at 31 December 2010			
<u>Non-current assets</u> Property, plant and equipment Leasehold land use rights Intangible assets	19,932,467 133,852 3,779,197	(1,248,024) (4,038) 1,252,062	18,684,443 129,814 5,031,259

The adoption of this interpretation does not have any impact to the earnings per share of the Group in the current and corresponding prior periods.

(b) Seasonal or Cyclical Factors

On an overall basis, the business operations of the Group's Leisure & Hospitality Division and Plantation Division are subject to seasonal fluctuations. The results of the Leisure & Hospitality Division are affected by major festive seasons and holidays. Fresh fruit bunches ("FFB") production is seasonal in nature. Production of FFB normally peaks in the second half of the year but this cropping pattern can be affected by changes in weather conditions. More detailed commentary is set out in Notes 1 and 2 in Part II of this interim financial report.

(c) Unusual items Affecting Assets, Liabilities, Equity, Net Income or Cash Flow

The net impairment loss charged in the current financial period arose mainly from the Group's investments in certain jointly controlled entities and associate.

Other than the above, there were no other unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group for the current financial period ended 30 September 2011.

(d) Material Changes in Estimates

There have been no significant changes made in estimates of amounts reported in prior financial years.

(e) Changes in Debt and Equity Securities

- The Company issued 1,351,000 new ordinary shares of 10 sen each, for cash, arising from the exercise of options granted under the Genting Executive Share Option Scheme ("ESOS") at an exercise price of RM2.616 and RM2.868 per ordinary share for the current financial period ended 30 September 2011.
- ii) During the current financial period ended 30 September 2011, the Company had repurchased a total of 16,000,100 ordinary shares of 10 sen each of its issued share capital from the open market for a total consideration of RM166.4 million. The repurchased transactions were financed by internally generated funds. The repurchased shares are held as treasury shares in accordance with the requirements of Section 67A (as amended) of the Companies Act, 1965.

Other than the above, there were no other issuance, cancellation, repurchase, resale and repayment of debt securities of the Group and equity securities of the Company for the current financial period ended 30 September 2011.

(f) Dividends Paid

Dividends paid during the current financial period ended 30 September 2011 is as follows:

	RM'000
Final dividend paid on 27 July 2011 for the financial year ended 31 December 2010	
 4.5 sen less 25% tax per ordinary share of 10 sen each 	125,058

(g) Segment Information

The segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker whereby the Group's business is considered from both a geographic and industry perspective. The performance of the operating segments is based on a measure of adjusted earnings before interest, tax, depreciation and amortisation ("EBITDA"). This measurement basis also excludes the effects of non-recurring items from the operating segments, such as net fair value gains and losses, gain or loss on disposal of financial assets, impairment losses, pre-opening, development expenses, property related termination costs, assets written off, gain or loss on disposal of assets and share-based payment expenses.

Genting Malaysia Berhad ("GENM") Group, which is 49.4% owned by the Company, had accounted for the construction and development of the facility at the Aqueduct Racetrack in the City of New York ("Resorts World Casino New York City"), United States of America ("US") in accordance with FRS 111 "Construction Contracts", whereby the construction profit is recognised based on the percentage of completion method. Construction revenue and costs of approximately RM1,194.6 million and RM1,140.3 million respectively have been disclosed under the US segment in the consolidated Income Statement for the nine months ended 30 September 2011, thereby generating a construction profit of RM54.3 million.

(h) Valuation of Property, Plant and Equipment

Property, plant and equipment, which are stated at revalued amounts, have been brought forward without amendment from the previous annual financial statements.

(i) Material Events Subsequent to the end of the financial period

i) Disposal/Acquisition of E-Genting Holdings Sdn Bhd ("E-Genting")

On 24 October 2011, Genting Singapore PLC ("GENS"), a 52.0% subsidiary of the Company, announced that its wholly owned subsidiaries, Sedby Limited ("Sedby") and Geremi Limited ("Geremi"), have entered into a share sale agreement with GENM for the sale of their respective equity interests in E-Genting for a total cash consideration of RM48.0 million.

Likewise, GENM made a similar announcement on 24 October 2011 about its acquisition of E-Genting from GENS.

The above disposal and acquisition by GENS and GENM respectively were completed on 31 October 2011.

ii) Disposal/Acquisition of Ascend International Holdings Limited ("Ascend International")

On 24 October 2011, GENS announced that Sedby had entered into a share sale agreement with GENM for the sale of its entire equity interest in Ascend International, its wholly owned subsidiary, for a total cash consideration of RM2.0 million.

Likewise, GENM made a similar announcement on 24 October 2011 about its acquisition of Ascend International from GENS.

The above disposal and acquisition by GENS and GENM respectively were completed on 31 October 2011.

iii) Disposal of Genting Alderney Limited ("Genting Alderney")

On 24 October 2011, GENS announced that it had entered into a share sale agreement with RWI International Investments Limited ("RWIIIL"), a wholly owned subsidiary of Resorts World Inc Pte Ltd ("RWI"), which in turn is an associated company of the Company, for the sale of GENS's entire equity interest in Genting Alderney, a wholly owned subsidiary of GENS, for a total cash consideration of GBP3.0 million.

Completion of the sale of Genting Alderney is conditional upon, amongst other things, the Alderney Gambling Control Commission confirming that the full eGambling licence (as referred to in Part 1 of the Alderney eGambling Regulations 2006) held by Genting Alderney will continue to have effect following the change of corporate control of Genting Alderney as a result of the purchase of Genting Alderney by RWIIL, and Genting Hong Kong Limited (a 20% shareholder of RWI) obtaining the necessary approvals to hold interest in Genting Alderney.

iv) Disposal of WorldCard International Limited ("WorldCard")

On 24 October 2011, GENS announced that its wholly owned subsidiary, Calidone Limited ("Calidone"), and Star Cruise (C) Limited have entered into a share sale agreement with RWI for the sale of their entire equity interest in WorldCard to RWI for a total cash consideration of USD1.

Subsequently, on 4 November 2011, GENS announced the completion of the disposal.

Other than the above, there were no other material events subsequent to the end of the current financial period ended 30 September 2011 that have not been reflected in this interim financial report.

(j) Changes in the Composition of the Group

- On 20 April 2011, Mastika Lagenda Sdn Bhd ("MLSB"), an indirect 97.7% owned subsidiary of the Company, acquired an additional 15% equity interest in Genting Sanyen Power Sdn Bhd ("GSP") from BG Overseas Holdings Limited for a cash consideration of RM183.75 million. Consequently, MLSB's shareholding in GSP increased from 60% as at 1 January 2011 to 75% as at 20 April 2011.
- ii) During the current financial period ended 30 September 2011, Genting Overseas Holdings Limited, a wholly owned subsidiary of the Company, acquired an additional 45.0 million shares in GENS. Consequently, the Company's shareholding in GENS increased from 51.7% as at 1 January 2011 to 52.0% as at 30 September 2011.

Other than the above, there were no other material changes in the composition of the Group for the current financial period ended 30 September 2011.

(k) Changes in Contingent Liabilities or Contingent Assets

Other than the disclosure of the material litigation made in Note 12 in Part II of this interim financial report, there were no other significant changes in the contingent liabilities or contingent assets since the last financial year ended 31 December 2010.

(I) Capital Commitments

Quarter ended 30 September 2011 compared with quarter ended 30 September 2010

The Group registered total revenue of RM5,143.9 million in the current quarter compared with RM3,909.2 million in the previous year's corresponding quarter. The profit before tax was RM1,431.8 million, which represented an increase of 1% compared with RM1,418.3 million in the previous year's corresponding quarter.

The increase in the revenue of the Leisure & Hospitality Division was contributed by all of the Group's leisure and hospitality businesses in Singapore, Malaysia, the United Kingdom ("UK") and the United States of America ("US").

Revenue from the Singapore Integrated Resort ("Singapore IR") increased from both the gaming and nongaming segments. Consequently, the adjusted earnings before interest, tax, depreciation and amortisation ("EBITDA") also increased compared with the previous year.

The increase in revenue from the leisure and hospitality business in Malaysia was mainly due to overall higher volume of business and higher hold percentage in the premium players business. Consequently, this contributed to a higher adjusted EBITDA in the current quarter.

Revenue of RM566.9 million from the US segment in the current quarter was construction revenue generated from the progressive development of the facility at the Aqueduct Racetrack in the City of New York, US ("Resorts World Casino New York City"). Consequently, an adjusted EBITDA of RM25.9 million attributable to Resorts World Casino New York City was recorded.

The Power Division's revenue increased mainly due to better dispatch and a higher 2011 tariff rate in the Meizhou Wan power plant and higher energy charge in the Kuala Langat power plant. However, the adjusted EBITDA of this division is lower than that of the previous year due to the higher coal prices.

The increase in the Plantation Division's revenue and adjusted EBITDA in the current quarter was principally due to higher palm products prices and higher FFB production.

The share of results in jointly controlled entities and associates increased in the current quarter mainly due to the higher profits generated by the Indian power plants.

The profit before tax for the current quarter included:

- gain on disposal of available-for-sale financial assets of RM77.6 million;
- net impairment loss of RM25.1 million mainly from the Group's investments in certain jointly controlled entities and associate; and
- net fair value loss of RM16.4 million on financial assets at fair value through profit or loss.

The previous year's corresponding quarter's profit before tax had included the following one-off items:

- net gain of RM413.6 million arising from the entitlement to the deferred consideration in relation to the sale of the whole of the issued share capital of Cairns Limited by Laila Limited, an indirect 95% owned subsidiary of the Company, to BP Global Investments Ltd; and
- net impairment loss of RM250.6 million.

Current financial period ended 30 September 2011 compared with previous financial period ended 30 September 2010

Total revenue increased by 30% during the current financial period, from RM11,108.0 million in 2010 to RM14,495.9 million in 2011. The Group's profit before tax increased to RM4,870.9 million, an increase of 52% compared with RM3,211.5 million in 2010. The increase in revenue and adjusted EBITDA came mainly from the Leisure & Hospitality, Power and Plantation divisions.

Revenue from the Singapore IR increased compared with revenue in the corresponding period of 2010 due to its first full nine months of operations. The higher revenue contributed to the higher adjusted EBITDA in the current financial period. The revenue and adjusted EBITDA of the leisure and hospitality business in Malaysia increased in the current financial period due to higher hold percentage in the premium players business. The revenue and adjusted EBITDA of the leisure and hospitality business in US is mainly attributable to the construction revenue of RM1,194.6 million and the construction profit of RM54.3 million generated from the progressive development of the facility at Resorts World Casino New York City.

The increase in revenue of the Power Division arose mainly from the Meizhou Wan power plant as a result of higher dispatch in the current financial period. The current financial period's revenue had also included a compensation from the Fujian provincial government in respect of an increase in tariff rate. Higher revenue contributed to the increase in the adjusted EBITDA in the current financial period.

The Plantation Division's revenue and adjusted EBITDA in the current financial period increased due mainly to higher palm products prices and higher FFB production.

There was no revenue from the Oil & Gas Division following the disposal of Genting Oil & Gas (China) Limited ("GOGCL") on 10 December 2010. GOGCL was involved in oil & gas development and production. The loss incurred during the current financial period arose mainly from general and administrative expenses.

The Group's profit before tax for the current financial period included:

- gain on disposal of available-for-sale financial assets of RM221.6 million;
- property related termination costs of RM39.4 million; and
- net impairment loss of RM29.0 million mainly from the Group's investments in certain jointly controlled entities and associate.

The profit before tax for the corresponding period of the previous year had included the following one-off items:

- net impairment loss of RM1,554.4 million;
- net gain on dilution of RM436.3 million from the dilution of the Company's shareholding in GENS when convertible bonds were fully converted into new ordinary shares of GENS during the previous year's half year; and
- net gain of RM413.6 million arising from the entitlement to the deferred consideration.

2. Material Changes in Profit Before Taxation for the Current Quarter as compared with the immediate Preceding Quarter

The Group registered a profit before tax of RM1,431.8 million in the current quarter compared with RM1,548.5 million in the preceding quarter, a decrease of 8%. Other than the Plantation and Oil & Gas divisions, the adjusted EBITDA of the other divisions was higher in the current quarter.

The higher adjusted EBITDA from the Singapore IR for the current quarter was attributable to the favourable win percentage in the premium players business offset by higher impairment loss on trade receivables.

The adjusted EBITDA from US increased due to the higher construction profit by RM10.9 million from the progressive development of the facility at Resorts World Casino New York City.

The higher adjusted EBITDA from the Power Division was due to the higher dispatch in the current quarter by the Meizhou Wan power plant.

The Plantation Division's adjusted EBITDA was lower than the preceding quarter mainly due to a softening of palm products prices during the period as market sentiment was affected by global economic uncertainties and concerns over the Eurozone debt crisis.

Despite the higher adjusted EBITDA of the Group, the current quarter's profit before tax was lower than the preceding quarter due mainly to lower gain on disposal of available-for-sale financial assets.

3. Prospects

The performance of the Group for the remaining period of the current financial year may be impacted as follows:

- (a) The GENM Group remains cautious on the outlook of the leisure and hospitality industry. Slower global growth prospects are anticipated mainly due to weakening economic fundamentals. Growth in regional tourism should continue to augur well for the leisure and hospitality business. The premium players business in the region has also seen significant growth as evidenced by recent reports in Singapore and Macau. In Malaysia, despite regional competition, the GENM Group is heartened by its recent performance. The GENM Group remains cautiously optimistic that its yield management efforts will continue to contribute positively for the remaining period of the year. The GENM Group will also continue to tap on the regional growth in the premium players business;
- (b) The development and construction at the West zone of Resorts World Sentosa ("RWS"), which consists of the Maritime Experiential Museum and Aquarium, one of the world's largest Marine Life Park, destination Spa, Water Park, the Equarius Hotel and Beach Villas have been progressing feverishly. The Museum was opened to public on 15 October 2011. This will be followed by the opening of Equarius Hotel at the end of the year, with Beach Villas soon thereafter. The rest of this development, being the last phase of the Integrated Resort will be completed by the middle of 2012. This massive and probably singularly most complex resort development in the world, will be the most attractive and destination resort for all affluent travelers from Asia to the Middle East. The extra room inventory, including the ultra luxurious villas will complement RWS's efforts in the gaming VIP business.

The GENS Group will continue building its brand and product which, over the past year, have gained a fair amount of recognition and accolades.

The economic uncertainties in Europe and the United States have presented challenges to the Asian economies. Amidst such volatile financial environment, the GENS Group has exercised caution in its dealings and prudence in its approach. It is in these climates that there can be investment opportunities that present value. GENS Group continues to explore projects that will add value to their Group;

- (c) In the UK, despite the lacklustre economic environment, the GENM Group remains focused on its efforts to harness its established business links with Asia and to re-invigorate its casinos. The GENM Group is encouraged by the progress of these efforts to date;
- (d) In the US, Resorts World Casino New York City marked its debut on 28 October 2011 as the first casino in New York City, with encouraging results. Additional floors of gaming facilities, event space and new upscale dining offerings are slated to be made available to the public by the end of 2011, effectively doubling the resort's gaming capacity. This resort will provide an additional leisure attraction to New York City, given its close proximity to the city centre and relative ease of accessibility;

- (e) The performance of the Power Division is expected to remain stable as increases in tariff rate and generation hours are helping to counter increases in coal prices; and
- (f) The GENP Group's performance for the remaining period of the year will be primarily driven by the direction of palm products prices. Since reaching a 3-year high of about RM4,000 per tonne in February this year, CPO prices have softened amid an industry-wide supply upswing along with the adverse effects of the global economic uncertainties on general market sentiment. Notwithstanding this, prices have so far remained relatively resilient at around the RM3,000 per tonne level. Moving forward, FFB production is expected to enter into a more moderate phase, consistent with the seasonal patterns. Likewise, production cost is not expected to see material movements, but remain within manageable levels.

In Indonesia, more planted areas are set to enter into maturity by year-end, which bodes positively for production growth and returns in the longer-term.

4. Variance of Actual Profit from Forecast Profit

The Group did not issue any profit forecast or profit guarantee for the year.

5. Taxation

The breakdown of tax charges for the current financial period ended 30 September 2011 are set out below:

	Current quarter RM'000	Current financial year-to-date RM'000
Current taxation		
Malaysian income tax charge	224,364	668,476
Foreign income tax (credit)/charge	(6,582)	70,332
	217,782	738,808
Deferred tax charge	128,171	374,360
	345,953	1,113,168
Prior period/year taxation		
Income tax (over)/under provided	(1,325)	564
Deferred tax under provided	670	26,996
	345,298	1,140,728

The effective tax rate of the Group before adjustments in respect of prior period taxation for the current quarter and current financial period ended 30 September 2011 is lower than the statutory income tax rate mainly due to income subjected to different tax jurisdictions and income not subjected to tax, partially offset by expenses not deductible for tax purposes.

6. **Profit on Sale of Unquoted Investments and/or Properties**

The results for the current quarter do not include any profit or loss on sale of unquoted investments and properties which are not in the ordinary course of business of the Group.

On 25 July 2011, the Group has entered into a Cross Currency Swap contract to pay INR in exchange of USD for a period of 10 years for both principal and interest payments with a notional principal amount of USD101.7 million to hedge against the exposure of its borrowings to interest rate risk and foreign exchange risk.

On the same date, the Group has also entered into the Interest Rate Swaps contracts to fix its USD and SGD interest rates with notional principal amounts of USD40.0 million and SGD500.0 million respectively, to hedge against the exposure of its borrowings to interest rate risk.

During the current financial period ended 30 September 2011, GENP Group has entered into two new Interest Rate Capped Libor-in-Arrears Swap ("IRCLIA") contracts with a total notional principal amount of USD20.0 million, in addition to two existing IRCLIA contracts to limit its exposure to fluctuation in interest rate movements if the interest rate moves beyond the cap at LIBOR 2.35% per annum.

The Group has entered into forward foreign exchange contracts to manage the exposure to foreign exchange risk when subsidiaries enter into transactions that are not denominated in their functional currencies.

Other than the above, there is no significant change for the financial derivatives in respect of the following since the last financial year ended 31 December 2010:

- (a) the credit risk, market risk and liquidity risk associated with these financial derivatives;
- (b) the cash requirements of the financial derivatives; and
- (c) the policy in place for mitigating or controlling the risks associated with these financial derivatives.
