GENTING BERHAD

NOTES TO THE INTERIM FINANCIAL REPORT - THIRD QUARTER ENDED 30 SEPTEMBER 2021

(I) <u>Compliance with Malaysian Financial Reporting Standard ("MFRS") 134: Interim Financial</u> <u>Reporting</u>

(a) Accounting Policies, Presentation and Methods of Computation

The interim financial report is unaudited and has been prepared in accordance with MFRS 134 "Interim Financial Reporting" and paragraph 9.22 of Bursa Malaysia Securities Berhad ("Bursa Securities") Listing Requirements.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2020. The accounting policies, presentation and methods of computation adopted for the interim financial report are consistent with those adopted for the annual audited financial statements for the financial year ended 31 December 2020 except for the adoption of amendments to published standards for the Group for the financial year beginning 1 January 2021:

- Amendments to MFRS 16 "COVID-19-Related Rent Concessions"
- Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16 "Interest Rate Benchmark Reform-Phase 2"

The adoption of these amendments to published standards did not have any material impact on the interim financial report of the Group.

(b) Seasonal or Cyclical Factors

On an overall basis, the business operations of the Group's Leisure & Hospitality Division and Plantation Division are subject to seasonal fluctuations. The results of the Leisure & Hospitality Division are affected by major festive seasons and holidays. Fresh fruit bunches ("FFB") production is seasonal in nature. Production of FFB normally peaks in the second half of the year but this cropping pattern can be affected by changes in weather conditions. More detailed commentary is set out in Notes 1 and 2 in Part II of this interim financial report.

(c) Unusual Items Affecting Assets, Liabilities, Equity, Net Income or Cash Flow

There were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group for the nine months ended 30 September 2021.

(d) Material Changes in Estimates

There have been no significant changes made in estimates of amounts reported in prior financial years.

(e) Changes in Debt and Equity Securities

- In February 2021, Genting New York LLC and GENNY Capital Inc., indirect wholly owned subsidiaries of GENM, issued USD525.0 million aggregate principal amount of Senior Notes due 2026 ("Senior Notes 2026"). The Senior Notes 2026 bear interest at a rate of 3.3% per annum, payable semi-annually.
- ii) On 6 April 2021, Resorts World Las Vegas LLC ("RWLVLLC") and RWLV Capital Inc., indirect wholly owned subsidiaries of the Company, issued USD350.0 million aggregate principal amount of 4.625% Senior Notes due 2031 ("Senior Notes"). The Senior Notes were listed on Singapore Exchange Securities Trading Limited on 7 April 2021. The Senior Notes have the benefit of various funding agreements provided by Genting Overseas Holdings Limited, a direct wholly owned subsidiary of the Company. The Senior Notes also have the benefit of a keepwell deed provided by the Company.
- iii) In April 2021, GENM Capital Labuan Limited, a direct wholly owned subsidiary of GENM, issued USD1.0 billion aggregate principal amount of 3.882% senior unsecured notes due 2031 ("Senior Notes 2031"). The Senior Notes 2031 are fully and unconditionally guaranteed by GENM. Interest is payable semi-annually.
- iv) On 11 May 2021, GENM Capital Berhad, a direct wholly owned subsidiary of GENM, had early redeemed RM1.25 billion in nominal value of the RM2.60 billion in nominal value of Medium Term Notes ("MTN") issued on 31 March 2017 under the MTN programme.

Other than the above, there were no other material issuance, cancellation, share buy-back, resale and repayment of debt securities or equity securities for the nine months ended 30 September 2021.

(f) Dividends Paid

Dividends paid during the nine months ended 30 September 2021 are as follows:

RM'million

Special single-tier dividend paid on 8 April 2021 for the financial year ended 31 December 2020

- 8.5 sen per ordinary share

327.3

(g) Segment Information

The segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker whereby the Group's business is considered from both geographic and industry perspective. The performance of the operating segments is based on a measure of adjusted earnings/(losses) before interest, tax, depreciation and amortisation ("EBITDA/(LBITDA)"). Items not forming part of the adjusted EBITDA/(LBITDA) include net fair value gain or loss on financial assets, gain or loss on disposal of assets, assets written off, gain or loss on derecognition and change in shareholding of associates and joint ventures, project costs written off, impairment losses, reversal of previously recognised impairment losses, pre-opening and development expenses and share-based payment expenses.

Notes

- Total revenue from the Leisure & Hospitality Division of RM5,420.1 million for the nine months ended 30 September 2021 comprised gaming revenue and non-gaming revenue of RM4,075.1 million and RM1,345.0 million respectively. In respect of the Leisure & Hospitality non-gaming revenue:
 - i) Hotel room revenue is recognised when services are rendered to the customers over their stay at the hotel.
 - ii) Revenue from sales of food and beverage is recognised when the services are rendered to the customers.
 - iii) Attractions revenue is recognised when tickets are used. Revenue from annual passes is amortised over the period of their validity.
- 2. Plantation revenue from sales of palm produce and its derivatives is recognised upon the delivery of goods at the point when control of the goods has been passed to the customers.
- 3. Revenue from sale of oil is recognised at a point in time upon delivery to customer at the delivery point and there is no unfulfilled obligation that could affect the customer's acceptance of the oils. Revenue from sale of electricity is recognised over time upon delivery to customer.
- 4. Revenue from property development projects is recognised upon the finalisation of sale and purchase agreements and is measured as the projects' activities progress over time by reference to the property development costs incurred to date as a percentage of the total estimated development costs of the respective projects. Revenue from sales of completed properties is recognised upon delivery of properties at the point when control of the properties has been passed to the buyers.

(h) **Property, Plant and Equipment**

During the nine months ended 30 September 2021, acquisitions and disposals of property, plant and equipment by the Group were RM5,081.1 million and RM13.5 million respectively.

(i) Material Events Subsequent to the End of the Financial Period

On 12 October 2021, GENM announced that its indirect wholly owned subsidiary, Genting ER II LLC had on 11 October 2021 entered into a Subscription Agreement with Empire Resorts Inc. ("Empire") to subscribe for up to USD150 million (or approximately RM625.3 million) of additional Series L Preferred Stock of Empire ("Series L"). The proceeds from Series L will be utilised by Empire to facilitate its long-term financing plan.

Other than the above, there were no other material events subsequent to the end of the nine months ended 30 September 2021 that have not been reflected in this interim financial report.

(j) Changes in the Composition of the Group

On 24 May 2021, Genting Worldwide (UK) Limited, an indirect wholly owned subsidiary of GENM, entered into a Share Purchase Agreement with BCC Pine Bidco Limited to dispose of its entire equity interest in PLM Properties (UK) Pte. Ltd. ("PLM"), an owner of a hotel and adjoining residential apartments in London, for a total cash consideration of GBP77.0 million (equivalent to approximately RM446.7 million). The Group realised a gain of approximately GBP6.1 million (equivalent to approximately RM64.3 million, including the realisation of reserve on exchange differences) from the disposal. The disposal was completed on 25 June 2021 and PLM ceased to be an indirect wholly owned subsidiary of GENM.

Other than the above, there were no other material changes in the composition of the Group for the nine months ended 30 September 2021.

(k) Changes in Contingent Liabilities or Contingent Assets

There were no material changes in the contingent liabilities or contingent assets since the last financial year ended 31 December 2020.

(n) Fair Value of Financial Instruments

The Group uses the following hierarchy for determining the fair value of all financial instruments carried at fair value:

| Level 1: | Quoted prices (unadjusted) in active markets for identical assets or liabilities. |
|----------|--|
| Level 2: | Inputs other than quoted prices included within Level 1 that are observable for the |
| | asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). |
| Level 3: | Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). |

As at 30 September 2021, the Group's financial instruments measured and recognised at fair value on a recurring basis are as follows:

| RM'million | Level 1 | Level 2 | Level 3 | Total |
|---|---------|---------|---------|---------|
| Financial assets Financial assets at fair value through other | | | | |
| comprehensive income | 1,127.7 | - | 268.3 | 1,396.0 |
| Financial assets at FVTPL | - | 700.1 | 407.9 | 1,108.0 |
| Derivative financial instruments | - | 6.5 | - | 6.5 |
| | 1,127.7 | 706.6 | 676.2 | 2,510.5 |
| Financial liability Derivative financial instruments | | 37.7 | - | 37.7 |

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared with the last financial year ended 31 December 2020.

The following table presents the changes in financial instruments classified within Level 3:

| | RM 'million |
|---|--------------------|
| As at 1 January 2021 | 1,191.1 |
| Transfer out of Level 3 | (968.0) |
| Foreign exchange differences | 47.0 |

| Fair value changes – recognised in income statement | 22.1 |
| Disposal | (27.1) |
| Dividend and interest income | 5.1 |
| As at 30 September 2021 | 676.2 |

During the nine months ended 30 September 2021, the Group transferred various equity investments from level 3 into level 1 following the listing of its shares in the stock exchange.

Quarter ended 30 September 2021 compared with quarter ended 30 September 2020

Revenue of the Group for the current quarter recorded RM3,502.1 million, an increase of 6% compared with the previous year's corresponding quarter's revenue of RM3,298.8 million. However, adjusted earnings before interest, tax, depreciation and amortisation ("EBITDA") of the Group for the current quarter was RM908.2 million compared with RM1,095.3 million in the previous year's corresponding quarter, a decline of 17%, attributed mainly to the Leisure & Hospitality Division.

Revenue and adjusted EBITDA of Resorts World Sentosa ("RWS") declined in the current quarter due to the series of enhanced safe management measures introduced to curb the surge of new community cases. Such measures included reduction in group size for social gathering and prohibition of dining-in at food and beverage establishments. Whilst most of the key offerings at RWS remained operational, these were at considerably lower levels.

At Resorts World Genting ("RWG"), revenue and adjusted EBITDA declined significantly due to the temporary closure of operations since 1 June 2021 in compliance with a government directive of a nationwide total lockdown amid the outbreak of the Coronavirus Disease 2019 ("COVID-19") pandemic. RWG resumed operations since 30 September 2021. Consequently, an adjusted loss before interest, tax, depreciation and amortisation ("LBITDA") was recorded in the current quarter which was partially mitigated by lower operating expenses and a reduction in payroll and related costs as a result of lower headcount.

The higher revenue from the leisure and hospitality businesses in United Kingdom ("UK") and Egypt in the current quarter was largely due to re-opening of GENM Group's land-based casinos in the UK since mid-May 2021 and the progressive easing of COVID-19 restrictions across the region. Crockfords Cairo resumed operations since 18 October 2020. In the previous year's corresponding quarter, certain of GENM Group's UK casinos had only resumed operations with reduced capacity from mid-August 2020 after a lockdown. The higher adjusted EBITDA was primarily attributable to higher revenue and higher debt recovery, partially offset by higher payroll and related costs following the resumption of its operations since mid-May 2021.

The leisure and hospitality businesses in the United States of America ("US") and Bahamas recorded higher revenue in the current quarter compared with the previous year's corresponding quarter mainly due to the strong operating performance from Resorts World Casino New York City ("RWNYC") since the full lifting of COVID-19 restrictions in June 2021 and contribution from Resorts World Las Vegas ("RWLV"). RWNYC achieved revenue surpassing pre-pandemic levels. In the previous year's corresponding quarter, RWNYC was largely closed as it reopened with reduced capacity in compliance with COVID-19 restrictions from 9 September 2020. Adjusted EBITDA of RWNYC improved mainly due to higher revenue partially offset by higher payroll and related costs following the resumption of its operations.

The financial results of RWLV are included in the revenue and adjusted EBITDA of the US and Bahamas segment. RWLV opened its doors to the public on 24 June 2021 and hence, the current quarter's results are the first full set of quarter results since its opening. It achieved revenue of almost USD175.0 million (equivalent to approximately RM722.8 million) and just short of USD27.0 million (equivalent to approximately RM110.0 million) in adjusted EBITDA for the current quarter. Its results in the current quarter were impacted by the State of Nevada's mandate requiring face masks while in public indoor spaces regardless of vaccination status on 30 July 2021. Hotel occupancy rate for the current quarter was 54.9% as several conventions were cancelled as a result of the mandate. The Zouk Nightclub, the Spa, additional retail outlets and restaurants were opened during the current quarter. Additional retail, restaurants and The Theatre at RWLV are expected to open in the fourth quarter. Total development and land costs incurred as of 30 September 2021 were approximately USD4.2 billion.

The Plantation Division's revenue and adjusted EBITDA increased in the current quarter mainly due to the effect of stronger palm product prices. Downstream Manufacturing posted marginally lower revenue in the current quarter on the back of lower sales volume which was mitigated by the effect of higher palm products selling prices. However, adjusted EBITDA improved mainly due to higher margins which were moderated by lower sales volume.

Revenue and adjusted EBITDA from the Power Division increased mainly due to higher net generation from the Indonesian Banten Plant.

The Oil & Gas Division recorded higher revenue and adjusted EBITDA mainly due to higher average oil prices and higher production in the current quarter.

A higher adjusted LBITDA was recorded from "Investments & Others" in the current quarter mainly due to lower investments and other income.

The Group reported a loss before taxation of RM278.3 million for the current quarter compared with a profit before taxation of RM60.1 million in the previous year's corresponding quarter. The loss in the current quarter was mainly due to:

- the Group's lower adjusted EBITDA;
- higher depreciation and net finance costs with the opening of RWLV on 24 June 2021; and
- share of losses in joint ventures and associates, attributed mainly to a share of loss from the Meizhou Wan power plant in China compared with a profit in previous year's corresponding quarter mainly due to higher coal costs. This was partially offset by lower share of losses from GENM Group's associate, Genting Empire Resorts LLC, the holding company of Empire Resorts, Inc. ("Empire") mainly due to continued improvement in Empire's operating performance following the full relaxation of COVID-19 restrictions since June 2021;

partially offset by:

- lower impairment losses;
- lower pre-opening expenses incurred by RWLV in the current quarter compared with the previous year's corresponding quarter; and
- write-back of accounting accruals in the current quarter, now no longer needed by GENS which was made in prior periods relating to the Yokohama Integrated Resort Bid.

Nine months ended 30 September 2021 compared with nine months ended 30 September 2020

Group revenue of RM8,691.9 million for the current nine months was marginally higher compared with RM8,516.0 million in the previous year's nine months. The decline in revenue of the Leisure & Hospitality Division, which was mainly attributable to RWG, was offset by improved performance from the other divisions. However, Group adjusted EBITDA improved by 40% to RM2,407.4 million in the current nine months from RM1,725.3 million in the previous year's nine months mainly due to improved adjusted EBITDA from the Leisure & Hospitality and Plantation divisions.

Revenue and adjusted EBITDA of RWS have improved in the current nine months as most operations at RWS had ceased for almost three months in the same period last year. Most of the key offerings at RWS continued to operate at considerably lower levels compared with pre-COVID-19 pandemic.

Lower revenue was recorded from RWG mainly due to the decline in the overall business volume from gaming and non-gaming segments following the re-imposition of movement control orders and total lockdown by the Malaysian Government. This has resulted in a temporary closure of RWG for approximately five months compared with three months in the previous year's nine months. As a result, RWG recorded an adjusted LBITDA for the current nine months primarily due to lower revenue partially mitigated by lower operating expenses and a reduction in payroll and related costs as a result of lower headcount.

Revenue from the leisure and hospitality businesses in UK and Egypt was higher on resumption of business from mid-May 2021. Consequently, an adjusted EBITDA was recorded compared with an adjusted LBITDA in the previous year's nine months due to higher revenue, lower payroll and related costs as a result of lower headcount and higher debt recovery.

The leisure and hospitality businesses in the US and Bahamas recorded higher revenue primarily due to strong rebound in demand seen at RWNYC as COVID-19 restrictions were gradually eased during the period and contribution from RWLV. Consequently, an adjusted EBITDA was recorded compared with an adjusted LBITDA in the previous year's nine months. Higher revenue recorded by RWNYC was partially offset by higher payroll and related costs following the resumption of its operations.

Since RWLV opened its doors to the public on 24 June 2021, the financial results for the current nine months comprise mainly of the results achieved in the current quarter. The first integrated resort to be built on the Strip in over a decade, RWLV combines 3,506 guest rooms and suites across three hotels including Las Vegas Hilton, Conrad Las Vegas and Crockfords Las Vegas, over 40 food and beverage venues, world-class entertainment and innovative gaming technology, all prominently located on Las Vegas Boulevard. Total revenue of approximately USD189.7 million (equivalent to approximately RM783.9 million) and adjusted EBITDA of approximately USD30.7 million (equivalent to approximately RM125.5 million) were recorded up to 30 September 2021. Average hotel occupancy rate during the current period was approximately 56%.

Higher revenue and adjusted EBITDA from the Plantation Division in the current nine months was mainly due to higher palm products prices. Higher production in Indonesia in line with increased harvesting areas and better yields compensated for lower harvest in the Malaysian estates due to the lagged effects of droughts coupled with progressive replanting activities. However, revenue from Downstream Manufacturing segment declined due to lower sales volume which was mitigated by the effect of higher palm products selling prices. Increase in adjusted EBITDA was mainly due to higher margins which were moderated by lower sales volume.

Revenue from the Power Division for the current nine months which comprised mainly revenue from sale of electricity by the Indonesian Banten Plant improved on higher net generation. However, adjusted EBITDA was lower due to higher operating and maintenance expenses.

The Oil & Gas Division recorded higher revenue and adjusted EBITDA mainly due to higher average oil prices and higher production which mitigated higher platform maintenance and workover expenses.

The Group reported a loss before taxation of RM1,272.3 million for the current nine months compared with a loss of RM1,818.3 million recorded in the previous year's nine months. The lower loss in the current nine months was mainly due to higher adjusted EBITDA and lower impairment losses. However, this was partially offset by higher pre-opening expenses incurred by RWLV and higher net finance costs. The higher share of losses in joint ventures and associates was mainly due to the Meizhou Wan power plant as a result of higher coal costs. This was partly mitigated by the lower share of loss in Empire due to improvement in its operating performance following the easing of COVID-19 restrictions. The share of loss in Empire in the previous year's nine months had also been impacted by costs associated with the refinancing of Empire's loans.

Material changes in loss before taxation for the current quarter compared with the immediate preceding quarter

A lower loss before taxation of RM278.3 million was recorded in the current quarter compared with a loss before taxation of RM507.1 million in the preceding quarter despite a decline in the current quarter's adjusted EBITDA. The preceding quarter's loss had been impacted by higher impairment losses which arose from the Kasuri block operation in Indonesia as well as higher pre-opening expenses incurred by RWLV. In addition, there was a write-back of accounting accruals in the current quarter relating to the Yokohama Integrated Resort Bid.

The lower adjusted EBITDA in the current quarter was mainly due to RWS and RWG.

Adjusted EBITDA of RWS declined in the current quarter mainly due to the series of enhanced safe management measures introduced to curb the surge of new community cases. Most of the key offerings at RWS remained operational but at considerably lower levels.

Higher adjusted LBITDA from RWG was mainly due to its temporary closure since 1 June 2021.

The leisure and hospitality businesses in the UK and Egypt recorded higher adjusted EBITDA as most of GENM Group's land-based casinos in the UK have re-opened since mid-May 2021 after a national lockdown in response to the outbreak of COVID-19 in early January 2021.

Higher adjusted EBITDA from the leisure and hospitality businesses in US and Bahamas was mainly due to a full quarter's contribution from RWLV following the commencement of its operations from 24 June 2021. Since the current quarter's results are the first full set of quarter results for RWLV, the financial results for the current quarter are therefore not comparable with that achieved in the immediate preceding quarter.

Plantation Division's adjusted EBITDA improved during the current quarter mainly due to higher palm products prices.

Oil & Gas division's adjusted EBITDA improved on higher average oil prices.

3. Prospects

Impact arising from COVID-19 on the Group's respective business operations have been set out in detail in the comments on performance for the quarter as well as the nine months ended 30 September 2021 in Notes 1 and 2 above. Liquidity and working capital requirements continue to be closely monitored.

The performance of the Group for the remaining period of the current financial year may be impacted as follows:

The recovery of the global economy is expected to continue, supported by sustained progress in vaccination programmes worldwide and the relaxation of containment measures. However, downside risks to global growth remain, given uncertainties surrounding the evolution of COVID-19, ongoing supply chain disruptions, escalating energy prices and inflationary risk. The recovery momentum of the Malaysian economy is expected to improve in line with the rally of the global economy and continued implementation of domestic economic and fiscal stimulus measures.

The tourism industry is expected to continue recovering with the increase in vaccination rates and easing of border crossing restrictions worldwide. The introduction of the Twelfth Malaysia Plan, with the tourism industry as one of the key focus areas, will augur well for GENM Group as a leading player in the leisure and hospitality sector in Malaysia and the region. As for the regional gaming market, the introduction of vaccinated travel lanes between certain countries will provide a positive catalyst for industry players.

Against this backdrop, GENM Group is cautiously optimistic on the near-term prospects of the leisure and hospitality industry.

In Malaysia, GENM Group is encouraged by the positive reception to the resumption of business at RWG since 30 September 2021. In view of the increasing visitor turnout at RWG since its re-opening, GENM Group will ramp up its operational capacity by leveraging existing assets. Genting SkyWorlds, a first class, world class theme park, is targeted to complete by the end of 2021 and GENM Group is currently preparing for its opening. GENM Group will continue to enforce strict COVID-19 precautionary measures in line with the guidelines from government authorities for the safety of all its stakeholders. Meanwhile, GENM Group will continue to optimise its cost base to drive productivity and efficiency across its operations.

In the UK and Egypt, GENM Group remains steadfast in executing various strategies to strengthen the resilience of its business by streamlining and reorganising its operations to optimise efficiencies. At the same time, GENM Group will place emphasis on driving business volume and revenue at its properties as it continues to capitalise on improving consumer sentiments following the lifting of COVID-19 restrictions.

In the US, GENM Group will continue to strengthen its market leading position by pursuing growth opportunities in New York. This includes the development of Empire's new video gaming machines facility, Resorts World Hudson Valley in Orange County, New York, which is targeted to open in the summer of 2022. More recently, the New York State Gaming Commission had selected nine operators, including Empire to receive mobile sports betting licences to operate in the state. This latest development will enable GENM Group to expand its suite of product offerings to customers in New York. Meanwhile, GENM Group will continue to maximise synergies between RWNYC and Resorts World Catskills to drive business volume and improve the overall profitability of its US operations. In the Bahamas, the launch of the new Resorts World Bimini Cruise Port will be a key growth platform for GENM Group as it continues to leverage partnerships with renowned brands to drive visitation and spend at the resort.

GENS is encouraged by the implementation of vaccinated travel lanes that allows business and leisure travel from designated countries. This is a significant milestone in the opening of its borders. However, in the short term, GENS expects minimal increase in overseas visitors' footfall as the countries designated for this quarantine-free travel are from non-traditional source markets. At the same time, there may be an impact on the integrated resort's ("IR") visitorship from an outflow of the local population to these countries due to the pent-up demand for international travel.

To further its sustainability journey, RWS stepped forward as founding member of the Sentosa Carbon Neutral Network, a collective public-private effort between Sentosa Development Corporation and a network of industry players to transform Sentosa island into a sustainable tourism destination and achieve carbon neutrality by 2030. RWS has also ramped up its sustainability drive with the launch of Eco Meetings, Incentives, Conferences and Exhibitions packages to meet increasing demand for sustainable events. This latest initiative paves the way for the IR to hold sustainable yet state-of-the-art hybrid events to shape the growth of eco-tourism in Singapore.

RWLV combines traditional and modern architecture, weaving a new luxury hotel experience into the fabric of Las Vegas with Asian-inspired touches, progressive technology and world-class guests service. This includes 117,000 square-feet casino, 59-story tower housing three Hilton hotel brands with over 3,506 rooms, 70,000 square-feet retail space, over 40 food and beverage outlets, 5,000 seat theater, and a 100,000 square-feet exterior LED screen on the West hotel tower. Upon opening, RWLV experienced a large number of guests enjoying the property's various offerings. RWLV will keep the momentum going by leveraging the Hilton branding partnership with over 123 million Hilton Honors Members and capitalising on the return of the convention business with its proximity to the Las Vegas Convention Center expansion. The completion of the 5,000-capacity state-of the-art theater headlined by A-list residencies will drive additional foot traffic in the fourth quarter.

GENP Group's prospects for the remaining months of 2021 will track the performance of its mainstay Plantation segment, which is in turn dependent principally on the movements in palm products prices and GENP Group's FFB production.

GENP Group expects palm oil prices for the remaining part of the year to remain resilient supported by a confluence of factors such as sustained demand on the back of global economic recovery, tightness in supply ahead of the upcoming monsoon season as well as historically high prices of other substitute oils and fats.

GENP Group's FFB production growth up to the first half of 2021 was mainly driven by its Indonesian operations as a result of additional harvesting areas and the progression of existing mature areas into higher yielding brackets. However, production growth has moderated since then in line with seasonal cropping patterns coupled with unfavourable weather conditions curtailing operations. Taking into consideration the above as well as ongoing replanting activities in Malaysian estates, GENP Group's FFB production is anticipated to be comparable to the level attained in 2020.

For the Property segment, GENP Group will continue to offer products which cater to a broader market segment given the prevailing market sentiments. Meanwhile, following the recent lifting of travel restrictions, the patronage and sales from the Premium Outlets[®] have shown encouraging recovery and is likely to rebound in fourth quarter of 2021 subject to the COVID-19 situation.

For the Downstream Manufacturing segment, notwithstanding the historical high palm product prices, the demand for refined palm products is expected to stay resilient given its competitive pricing vis-à-vis other substitute soft oils. Meanwhile, the outlook for biodiesel will remain challenging due to the unfavourable palm oil-gas oil ("POGO") spread.

The performance of Banten plant in Indonesia has resumed to normalcy with 100% availability subsequent to the minor outage which was carried out from end December 2020 to early February 2021. The plant load factor remains high since second quarter until October 2021 when it dropped marginally due to some delays in coal supplies arising from local shortage. The supplies of coal have returned to normal since November 2021. The performance of the Jangi wind farm in Gujarat, India has shown improvement with the higher wind season from June to September. Meanwhile, the progress of copper cap installation that will mitigate the probability of lightning strikes is pending one last wind turbine which is to be completed together with the wind turbine gear box repair work during the low wind season by end December.

With the steady production year on year, coupled with global crude oil prices remaining at its current high level beyond USD80/bbl, Chengdaoxi block is expected to perform better than 2020 when global crude oil was in the gloom. Following the approval from the Ministry of Energy and Mineral Resources of Indonesia on the Plan of Development for the Kasuri block, the progress of the front end engineering design has commenced since 2019. However, the completion date has been further postponed pending the finalisation of negotiation with a potential petrochemical plant off taker in West Papua for the supply of natural gas which will be utilising the 1.7 trillion cubic feet of discovered gas-in-place.

4. Variance of Actual Profit from Forecast Profit

The Group did not issue any profit forecast or profit guarantee for the year.
