1. Basis of Preparation

The interim financial report has been prepared in accordance with requirements of MFRS 134: "Interim Financial Reporting" and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad, and should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2018.

The same accounting policies and methods of computation are followed in the interim financial report as compared with the annual financial statements for the year ended 31 December 2018 except for the adoption of the following MFRS:

Effective for annual periods beginning on or after

MFRS 16 Leases IC Interpretation 23 Uncertainty over Income Tax Treatments Amendments to MFRS 3 Previously Held Interest in a Joint Operation (Annual Improvements to MFRS Standards 2015 - 2017 Cycle)	1 January 2019 1 January 2019 1 January 2019
Amendments to MFRS 9 Prepayment Features with Negative Compensation	1 January 2019
Amendments to MFRS 11 Previously Held Interest in a Joint Operation (Annual Improvements to MFRS Standards 2015 - 2017 Cycle)	1 January 2019
Amendments to MFRS 112 Income Tax Consequences of Payments on Financial Instruments Classified as Equity	1 January 2019

Amendments to MFRS 119 Plan Amendment, Curtailment or Settlement	1 January 2019
Amendments to MFRS 123 Borrowing Costs Eligible for Capitalisation (Annual Improvements to MFRS Standards 2015 - 2017 Cycle)	1 January 2019
Amendments to MFRS 128 Long-term Interests in Associates and Joint Ventures	1 January 2019

The adoption of the above MFRS did not have any significant impacts on the financial statements of the Group except as follows:-

MFRS 16 Leases

MFRS 16, which replaces MFRS 117 Leases and other related interpretations, eliminates the distinction between finance and operating leases for lessees. It introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments.

The Group has adopted MFRS 16 Leases from 1 January 2019 with any cumulative effect of initial application recognised at that date without restating the comparative information presented under MFRS 117 Leases.

22. Financial Instruments

a) Derivatives

There were no outstanding derivatives as at 31 March 2019.

b) Losses arising from Fair Value Changes of Financial Liabilities

The losses arising from fair value changes of financial liabilities were RM 0.035 million for the current year quarter and period ended 31 March 2019 respectively.

c) Fair Value

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:

- i) Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- ii) Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- iii) Level 3 unobservable inputs for the asset or liability.

22. Financial Instruments (cont'd)

c) Fair Value (cont'd)

The fair value measurement of financial instruments at the end of the reporting period are as follows:

i) Other investments

31/03/2019 RM '000

Shares quoted in Malaysia - at fair value Unquoted shares - at cost less impairment losses

______1

The fair values of quoted investments are directly measured using their unadjusted closing prices in active markets (i.e. Level 1).

The fair values of unquoted investments cannot be reliably measured due to the lack of quoted prices in active markets for identical instruments. In addition, the variability in the range of reasonable fair value measurements is expected to be significant and the probabilities of the various estimates within the range cannot be reasonably assessed.

ii) Derivatives

The fair values of forward exchange contracts are quoted by the financial institution, which normally measured the fair values using present value technique by discounting the difference between contractual forward prices and observable current market forward prices using risk-free interest rate (i.e. Level 2).

iii) Other financial assets and financial liabilities

The carrying amounts of receivables, cash and cash equivalents, payables and loans and borrowings which are short-term in nature or repayable on demand are reasonable approximations of fair values. The fair values of long-term loans and borrowings are measured using present value technique by discounting the expected future cash flows using observable current market interest rates for similar liabilities (i.e. Level 2).

There were no transfers between Level 1 and Level 2 during the period ended 31 March 2019.

23. Material Litigation

There was no material litigation against the Group as at 31 March 2019.
