10. Changes in the composition of the Group

There were no changes in the composition of the Group during the quarter under review, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructurings and discontinuing operations other than as mentioned below:

11. Review of Performance

For the quarter under review, the Group recorded a revenue of RM562.2 million and profit before taxation ("PBT") of RM62.9 million as compared with a revenue and PBT of RM553.4 million and RM66.0 million respectively for the corresponding quarter of the preceding year ended 30 June 2013 ("FY 2013"). The decrease in PBT was mainly due to lower profit contribution from an associated company.

For the financial year-to-date, the Group recorded a revenue of RM1,680.2 million and PBT of RM179.9 million as compared with a revenue and PBT of RM1,661.4 million and RM159.5 million respectively for the corresponding period of FY 2013. The improvement in PBT for the financial year-to-date as compared with the corresponding period of FY2013 was mainly contributed by better margin due to higher average selling price and lower production costs for our consumer products segment, partly offset by lower profit contribution from an associated company.

12. Material changes in profit before taxation against the immediate preceding quarter

For the quarter under review, the Group recorded a higher PBT of RM62.9 million as compared with a PBT of RM58.9 million recorded in the preceding quarter. The PBT for the current quarter was inclusive of a gain of RM6.8 million arising from the disposal of a piece of property, partly offset by lower profit contribution from an associated company.

Barring any unforeseen circumstances, the Board expects the Group's performance for both the consumer products segment and industrial products segment to be satisfactory for the financial year ending 30 June 2014.
