#### **A** NOTES TO THE QUARTERLY RESULTS

#### A1. Basis of Preparation

The audited interim financial report has been prepared in accordance with FRS 134: Interim Financial Reporting and Chapter 9 Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad.

The audited interim financial report should be read in conjunction with the audited financial statements for the year ended 31 March 2015 which are available at http://www.ijm.com. The explanatory notes attached to the audited interim financial report provide an explanation of events and transactions that are significant for an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 March 2015.

#### A2. Changes in Accounting Policies

On 19 November 2011, the Malaysian Accounting Standards Board ("MASB") issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards ("MFRS Framework"). The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 "Agriculture" and/or IC Interpretation 15 "Agreements for Construction of Real Estate", including their parent, significant investor and venturer (herein called "Transitioning Entities").

Based on the Malaysian Accounting Standards Board ("MASB") announcement on 2 September 2014, the adoption of the amendments to MFRS 116 and MFRS 141 "Agriculture: Bearer Plants" was to be mandatory for annual periods beginning on or after 1 January 2016, whereas the adoption of MFRS 15 "Revenue from Contracts with Customers" was to be mandatory for annual periods beginning on or after 1 January 2017. However on 8 September 2015, MASB confirmed that the effective date of MFRS 15 "Revenue from Contracts with Customers" will be deferred to annual periods beginning on or after 1 January 2018. As a result, IJM Plantations Berhad and IJM Land Berhad, which are within the scope of MFRS 141 "Agriculture" and IC Interpretation 15 "Agreements for Construction of Real Estate", and the Company as their holding company hereinafter defined as Transitioning Entities are permitted to defer the adoption of the new MFRS Framework to annual periods beginning after 1 January 2018.

The significant accounting policies applied are consistent with those adopted for the audited financial statements for the year ended 31 March 2015 except for the adoption of the following amendments to published standards issued by MASB that are effective for the Group's financial year beginning on or after 1 April 2015 and applicable to the Group as follows:

- Annual improvements to FRSs 2010 2012 Cycle, which include Amendments to FRS 2 "Sharebased Payment", FRS 3 "Business Combinations", FRS 8 "Operating Segments", FRS 13 "Fair Value Measurement", FRS 116 "Property, Plant and Equipment", FRS 1 24 "Related Party Disclosures" and FRS 138 "Intangible Assets".
- Annual improvements to FRSs 2 011 2013 Cycle, which include Amendments to FRS 3 "Business Combinations", FRS 1 3 "Fair Val ue Measurement" and FRS 140 "Investment Property".
- Amendments to FRS 119 "Defined Benefit Plans: Employee Contributions".

The amendments to published standards do not result in any significant change to the accounting policies and do not have a material impact on the interim financial information of the Group.

#### **B1.** Detailed Analysis of Performance of all Operating Segments

In the current quarter, the Group posted an operating revenue of RM1,167.1 million, a decrease of 19.1% over the corresponding quarter of the preceding year, mainly due to lower revenues contributed by the Group's Property Development, Manufacturing & Quarrying, Plantation and Infrastructure divisions. The Group's pre-tax profit for the current quarter stood at RM134.8 million, a decrease of 44.9% compared to the corresponding quarter of the preceding year, mainly due to lower contributions from the Group's Construction, Property Development and Manufacturing & Quarrying divisions and further dampened by net unrealised foreign exchange losses totalling RM65.4 million in the current quarter compared to a net unrealised foreign exchange gain of RM1.1 million in the previous year's corresponding quarter.

Over the current year to-date, the Group achieved an operating revenue of RM 5,128.2 million, a decrease of 5.9% over the preceding year to-date, mainly following decreases in revenue from the Group's Property Development and Plantation divisions. The Group's pre-tax profit for the current year to-date totalled RM1,155.8 million, an increase of 13.4% over the preceding year to-date, mainly due to the one-off gains from the disposal of equity interests in subsidiaries and fair value gain on remeasurements of the remaining equity interests in Jaipur Ma hua Tollway Private Limited totalling RM301.9 million in the current year.

Operating Segment	Commentary
Construction	Current quarter and year to-date revenue increased by 42.5% and 48.9% respectively over the previous year's corresponding periods following increased contribution from projects that were secured in the previous year. However, the current quarter and year to-date pre-tax profit fell by 24.8% and 7.7% respectively over the previous year's corresponding periods, mainly due to net unrealised foreign exchange losses of RM28.9 million for the current quarter and RM4.7 million for the year to-date compared to net unrealised foreign exchange gains of RM12.9 million and RM15.1 million in the respective corresponding periods of the preceding year.
Property development	Revenue and pre-tax profit for the current quarter dropped by 50.4% and 96.5% respectively whilst the current year to -date revenue and pre-tax profit dropped by 44.0% and 67.8% respectively compared to the previous year's corresponding periods. The decrease in revenue and pre-tax profit was mainly due to lower sales recorded, lower gross profit margin, as well as the completion of certain projects in the preceding year. The decrease in pre-tax profit was further caused by the recognition of unrealised foreign exchange loss of RM30.9 million in the current quarter compared to a gain of RM3.2 million in the preceding year's corresponding quarter. Furthermore, there was a one-off gain on remeasurement of existing equity interests in Larut Leisure Enterprise (Hong Kong) Limited and Valencia Terrace Sdn Bhd amounting to RM22.7 million in the preceding year.
Manufacturing and quarrying	Current quarter revenue and pre-tax profit fell by 5.7% and 21.6% respectively compared to the previous year's corresponding quarter mainly due to decreases in the delivered tonnage of piles (by 2.4%) as well as the lower sales volumes and margins in the quarrying and ready mixed concrete sectors. However, the year to-date revenue managed to climb 6.2% as a result of a 13.7% increase in the delivered tonnage of piles compared to the previous year. The year to-date pre-tax profit was marginally lower compared to the previous year mainly attributable to lower margins in the quarrying and ready mixed concrete sectors.

Further analysis of the divisional performances is given below.

# IJM CORPORATION BERHAD (104131-A) B1. Detailed Analysis of Performance of all Operating Segments (continued)

Operating	Commentary
Segment	
Plantation	Revenue for the current quarter and year to-date declined by 13.3% and 16.5% respectively compared to the previous year's corresponding periods mainly due to lower commodity prices and lower sales volume. The sales volume of crude palm oil (CPO) fell by 11.3% and 10.7% for the current quarter and year to-date respectively while the average CPO prices for the Indonesian operations dropped by 7.2% and 11.3% for the current quarter and year to-date respectively. The average CPO prices for the Sabah operations rebounded slightly in the current quarter by 3.5% but still recorded a fall of 6.4% for the current year to-date compared to the preceding year's corresponding periods. In addition to lower sales volume and lower commodity prices, the Division's financial performance for the current quarter and year to-date were adversely impacted by the lower FFB production particularly in Sabah due to the prolonged dry weather. The production of FFB in the Sabah operations fell by 36.6% and 18.5% for the current quarter and year to-date respectively. In addition, due to the recent upward movement in the commodity market, fair value losses of RM6.2 million and RM15.3 million on the crude palm oil pricing swaps were accounted for in the current quarter and year to-date respectively. However, the adverse impact on pre-tax profit was mitigated by the net foreign exchange gain of RM15.5 million resulting from the weakening of the US Dollar against the Indonesian Rupiah in the current quarter as opposed to net foreign exchange loss of RM23.0 million in the previous quarter.
Infrastructure	Revenue for the current quarter dropped by 20.0% compared to the previous year's corresponding quarter following the disposals of a 70% equity interest in Swarna Tollway Private Limited ("STPL") and a 74% equity interest in Jaipur Mahua Tollway Private Limited ("JMTPL") that contributed combined revenue of RM42.9 million in the previous year's corresponding quarter. The Group's port con cession had recorded higher cargo revenue in the first three quarters of this year compared to the whole of last year also encountered a slowdown in the current quarter. However the Division's revenue for the year to-date climbed 25.3% compared to the previous year following continued traffic growth in the Group's Malaysian toll road concessions as well as higher cargo revenue being recorded by the Group's port concession. The Division's pre-tax profit for the year to-date was boosted by the one-off gains derived from the disposals and fair value gains on the remeasurements of the remaining equity interests in STPL and JMTPL totalling RM301.9 million. These gains together with the increased profits in the Group's corresponding period. The Division's results was also affected by fluctuation in foreign exchange rates resulting in an unrealised foreign exchange gain of RM50.2 million for the year to-date (previous year's foreign exchange losses amounted to RM40.2 million for the quarter and RM95.2 million loss for the year to-date), arising mainly from the USD denominated borrowings used to finance the Group's investments in India. However, the unrealised foreign exchange gain of RM56.5 million in the revious year's foreign exchange loss incurred by the Infrastructure division.

# **B2.** Material Changes in the Quarterly Profit Before Taxation Compared to the Immediate Preceding Quarter

The Group's pre-tax profit decreased by RM237.7 million (or 63.8%) compared to that of the immediate preceding quarter mainly due to:

- the one-off gain derived from the disposal of a 70% equity interest in Swarna Tollway Private Limited totalling RM133.3 million being included in the immediate preceding quarter; and,
- the recognition of the net unrealised foreign exchange loss of RM65.4 million in the current quarter as opposed to the net unrealised foreign exchange gain of RM37.2 million in the immediate preceding quarter.

#### **B3.** Prospects for the Coming Financial Year

The Group's Construction division expects to perform satisfactorily on its strong order book position, underpinned by a relatively strong private sector demand in the domestic market, substantial ongoing development activities from the Group's in house property projects as well as the Malaysian Government's continued emphasis on infrastructure spending.

The property market is expected to remain challenging as weak consumer sentiment persists due to weaker economic prospects, volatility of the Malaysian Ringgit, continued stringent mortgage approval policy and incoming supply of completed properties. Nonetheless, with unbilled sales of about RM1.7 billion, the Group's Property division is expected to sustain its performance in the coming financial year.

The Group's Industry division is expected to benefit from the sizeable construction order book and also the expected increase in infrastructure spending under the Malaysian Economic Transformation Programme initiatives.

Notwithstanding the higher crop production from the increasing young mature areas in Indonesia, the effect of the El Nino weather pattern has adversely impacted the overall crop production of the Group's Plantation division. Although commodity prices have moved upward as a result of the anticipated tight supply, the Indonesian palm oil export levy and tax of USD53 per metric tonne continues to lower the revenue and profitability in that territory. As a result of the above factors and given the volatility of the foreign exchange rates, the Group's Plantation division expects a challenging financial year.

The Group's toll and p ort operations are expected to provide recurrent revenue streams that further enhance the bottom line of the Group's Infrastructure division.

Increasing volatility in the global capital markets and the resultant uncertain ties due to foreign exchange fluctuations may continue to impact the Group's results. However, barring any unforeseen circumstances, the Group expects to achieve a satisfactory performance for the coming financial year.
