A4 (ii) Balance Sheet

During the financial year under review, the Group increased its equity interest in Absolute Prestige Sdn Bhd from 20% to 51% by acquiring an additional 31% equity interest for a cash consideration of RM9.30 million.

The Group has provisionally estimated the goodwill arising from the above business combination to be approximately RM10.6 million, pending the finalisation of the determination of the cost of business combination. The purchase price allocation exercise for the above business combination which principally comprise the determination of fair value of certain hotel properties, are currently in progress.

(b) There were no material changes in estimates of amounts reported in the current quarter and financial year ended 30 April 2009 other than those changes that resulted from the adoption of new FRSs as mentioned in Note A1 and the prior year adjustments explained below:

In the previous financial year ended 30 April 2008, the Group increased its equity interest in BToto and regarded the consolidation of BToto as a business combination in line with FRS 3: Business Combinations. The Group had then undertaken a purchase price allocation exercise that resulted in the identification and measurement of gaming rights which was then provisionally estimated to be RM4.816 billion included in the intangible assets in the balance sheets. In reassessing the provisional estimate of the gaming rights as permitted by FRS 3: Business Combinations, a component of the gaming rights which relates to the operations in the Philippines has been revised downward from RM416 million to RM259 million due to a revision to the underlying assumptions relating to the revenue stream of this operations. As a result of this, the overall fair value of the gaming rights has been revised downward from RM4.816 billion to RM4.659 billion.

UNAUDITED INTERIM FINANCIAL REPORT FOR THE PERIOD ENDED 30 APRIL 2009 ADDITIONAL INFORMATION REQUIRED BY THE BURSA SECURITIES LR

B1 For the quarter

The Group registered a revenue of RM1.51 billion and pre-tax loss of RM37.52 million in the current quarter ended 30 April 2009 as compared to a revenue of RM1.42 billion and pre-tax profit of RM495.17 million reported in the previous year corresponding quarter.

The increase in revenue of 6% was mainly due to higher revenue contribution from consumer marketing business.

The pre-tax loss in the current quarter under review was mainly due to:

- (i) impairment in value of certain investments in associated companies and other quoted shares as a result of the global stock market downturn as detailed in note A4(a)(i). These impairment losses are necessary so as to reflect the fair value of the investments at balance sheet date and they do not involve any cash outflow. Should the global stock market recover in future, there is a possibility of writing back these impairment losses; and
- (ii) higher share of losses of jointly controlled entities that the Group had equity accounted for, as well as impairment in value of investment in jointly controlled entities.

In the previous year corresponding quarter, the Group recorded a total net exceptional gain of RM424.3 million mainly arising from the placement of 150 million of 5% Berjaya Land Berhad ICULS 1999/2000 ("BLB ICULS") amounting to approximately RM598.9 million.

For the financial year

As for the financial year ended 30 April 2009, the Group's revenue and pre-tax profit were RM6.34 billion and RM295.2 million respectively as compared to a revenue and pre-tax profit of RM3.47 billion and RM1.19 billion respectively reported in the previous year.

The increase in revenue was mainly attributed to:

- (i) the full year consolidation effect of Berjaya Sports Toto Berhad ("BToto") and Berjaya Media Berhad ("BMedia") as subsidiary companies of the Group; and
- (ii) higher sales contribution from consumer marketing business as well as general insurance business.

The lower pre-tax profit was mainly attributed to the negative factors mentioned above, but it was partly mitigated by the higher pre-tax profit contribution from the gaming and consumer marketing businesses. In the previous year, the Group recorded higher pre-tax profit mainly from exceptional gain of approximately of RM952.6 million, consisting substantially of gains on placement of 320 million units of BLB ICULS and the disposal of various assets.

B2 This quarter vs last quarter

For the quarter under review, the Group reported approximately 13% decrease in revenue as compared to the preceding quarter. The decrease in revenue was mainly due to lower revenue contribution from the Numbers Forecast Operators ("NFO") business operated under BToto as there were fewer draws in the current quarter when compared to the preceding quarter, and also the traditionally high sales from the Chinese New Year festival fell in January 2009, which was included in the preceding quarter.

The pre-tax loss was mainly attributed to the factors mentioned in Note B1 above.

B3 Future prospects

The Directors took cognizance of the prevailing global economic conditions and its unavoidable impact on the Malaysian economy that may further affect the operating performance of the Group in the next financial year ending 30 April 2010. In addition, the hotels and resorts business may suffer further setback from the current global outbreak of Influenza A(H1N1). However, the Directors expect the NFO business under BToto as well as the direct selling business under Cosway (M) Sdn Bhd to remain resilient and hence, they envisaged that the Group's operating performance for the next financial year will be satisfactory.
