Assessment of damages for plant and machinery, for example, is still in progress at the time of this report and subject to availability and lead time for obtaining replacement parts/components and repairs. The full extent of the property damage will only be known after restoration/repair works has been completed.

After discussion with stakeholders, we have recognised preliminarily RM18.0 million as interim insurance claim receivable for finished goods, raw material and packaging materials. Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements

1. Operations review

Current quarter ended 31 December 2021 vs corresponding quarter ended 31 December 2020

The Group managed to deliver an increase in revenue of 2.2% for Q1 FY2022 to RM1,106.6 million (Q1 FY2021: RM1,083.1 million), amidst recovery of economic activities in our core markets, although the positive momentum was disrupted when the recent floods inundated our manufacturing facilities in Shah Alam.

Despite higher sales, the Group's profit before tax declined by 32.0%, at RM108.1 million (Q1 FY2021: RM158.9 million), moderated by commodity price pressures, impact from the flood and forex translation loss from a weaker Thai Baht. Excluding the impact from the flood, group profit before tax declined by 17.2% to RM131.7 million. (Please refer to Schedule F, Note 13).

- F&B Malaysia

F&B Malaysia revenue for the quarter grew by 1.3% to RM575.6 million (Q1 FY2021: RM568.2 million), with revenue from food pillar cushioning the impact due to floods and shipping disruption to both domestic and export business.

In Malaysia, positive momentum was building up to Chinese New Year ("CNY") for festive sell-in. Out-of-home consumption improved with the gradual easing/ lifting of movement control restrictions in states during the quarter nationwide. However, from the 4th week of December, domestic sales were impacted by the floods in Selangor and other states and transportation disruption. Exports from Malaysia continued to grow in the weeks before flash floods inundated Port Klang, resulting in postponement of some shipments to next quarter.

The operations at Shah Alam plant were affected by the recent flash floods from 18 to 19 December 2021. The crisis management team has ensured the continued safety of employees, a quick recovery turnaround and minimised operational disruption to business, with the Shah Alam plant resuming operations in stages by mid-January. The Group has in place property damage and business interruption insurance cover in respect of the operations affected by flood.

Given that it has built up inventories to prepare for the upcoming festive season, impact to business has been partly mitigated. Nonetheless, the flood has resulted in delays to the listing of CNY stocks in the modern trade, especially 100PLUS CNY Gold Cans, and shortages of products due to damaged stocks meant for East Malaysia.

Operating profit excluding flood impact grew by 2.8% during the quarter due to contribution from food pillar and higher revenue from exports, offset by unfavourable impact from higher input costs. With the flood related damages of RM41.5 million and interim insurance claim receivable of RM18.0 million taken into consideration, operating profit declined by 49.6% to RM22.6 million (Q1 FY2021: RM44.9 million).

Please refer to Schedule F, Note 6 and 13, and Schedule G, Note 11 for disclosures on flood impact.

Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements

1. Operations review (cont'd)

Current quarter ended 31 December 2021 vs corresponding quarter ended 31 December 2020 (cont'd)

- F&B Thailand

F&B Thailand revenue for the quarter grew 10.3% (in Thai Baht terms) from higher domestic sales and exports. However, unfavourable RM/THB translation led to the lower percentage growth for revenue in RM terms, an increase of 3.0% to RM529.8 million (Q1 FY2021: RM514.4 million).

Domestic revenue improved with easing of lockdown restrictions and re-opened borders via 'test and go travel' schemes and 'Sandbox concept' (welcoming travellers who are fully vaccinated to enter Thailand without quarantine). However, the quarantine-free travel scheme was suspended from 22 December 2021 due to threat of Omicron variant. F&B Thailand continued to drive promotions, expand distribution coverage for its products, and recruit new users with Hawker decorations and loyalty campaigns. It also launched F&N Full Cream Evaporated Milk, first full cream evaporated milk (made from fresh milk) in Thailand. Nevertheless, HORECA outlets are still impacted to a certain extent with lower tourists.

Exports have grown by double digit for Indochina and other exports markets, spurred by a weaker Thai Baht, competitor's out-of-stock situation in Indochina as well as new products for OEM export customer and new export customer.

Operating profit declined by 26.6% (21.4% in Thai Baht terms) to RM80.4 million (Q1 FY2021: RM109.5 million) mainly due to higher input costs and phasing of advertising and promotion activities.

2. Comment on material change in Group profit before tax for the quarter ended 31 December 2021 vs preceding 4th quarter ("Q4") ended 30 September 2021

For the current quarter, Group revenue grew by 23.5% to RM1,106.6 million (Q4 FY2021: RM896.3 million) due to higher sales contribution from F&B Thailand and F&B Malaysia from higher export revenue and sell-in activities for the festive season ahead in comparison to an off peak Q4.

Group profit before tax improved by 74.6% to RM108.1 million (Q4 FY2021: RM61.9 million) mainly due to improvement in margins from price adjustments to moderate the impact of higher raw and packaging material costs and partially offset by flood related damages.

Schedule G : Additional Disclosures in Compliance with Main Market Listing Requirements (cont'd)

3. Prospects

Following the recent floods in December 2021, our manufacturing facilities in Shah Alam resumed operations in stages by mid-January. There are certain out-of-stock ("OOS") situations for some products which had to be sacrificed to give priority to CNY products such as 100PLUS. The OOS situation continues to be experienced in January and could only be resolved fully by end of Q2 FY2022. Meanwhile, we will continue to engage our insurers to ascertain the quantum of reimbursement for property damage and loss of income under our business interruption policy.

We expect that the environment will remain challenging moving forward due to continuing high prices of key raw and packaging materials and uncertainties arising from the Omicron variant of Covid-19. As a very last resort, we may adjust product pricing gradually to ease margin pressures due to further increase in commodity prices and other input materials.

Despite the headwinds, with the encouraging momentum of recovery of economic activities in both Malaysia and Thailand, we will continue to drive sales for the coming festive seasons and for the rest of the year, particularly for beverages and ready-to-drink dairy business, and out-of-home channels. Exports and the halal packaged food pillar will remain a key focus for the Group.

Forging ahead on our PASSION 2025 road map, we look forward to implementing our Reimagine 2.0 Initiatives centering on *Building* new capabilities, *Strengthening* our leadership in core markets, and *Unlocking* our potential to enhance shareholder value. We will continue to focus on process improvements and digitalisation, and pursue opportunities as we evolve and build a stronger, more sustainable organisation.
