The Group reported revenue of RM78.87 million and profit before taxation of RM4.51 million respectively for the first quarter ended 31 December 2022 ("Q1FY2023") as compared to the revenue of RM105.73 million and profit before taxation of RM12.60 million in the previous year's corresponding quarter ended 31 December 2021 ("Q1FY2022").

Q1FY2023 revenue was lower by RM26.86 million as compared to Q1FY2022, primarily due to deferment of projects' launches in Sunsuria City township as consumer sentiment remained weak with buyers adopting wait-and-see approach even though the country had transitioned into endemic phase. Furthermore, the Group's completed projects are almost fully sold, resulting in lower revenue from completed projects in the current quarter.

The Group's profit before taxation in Q1FY2023 was also lower than Q1FY2022 by RM8.09 million, mainly due to lower revenue, higher sales and marketing expenses, and Group-wide salary adjustment for our human capital, to cope with the rising cost of living and inflation.

The decrease in revenue and gross profit were primarily due to lower sales and construction work progress from Tangerine Suites at Sunsuria City and Forum 2 at Setia Alam.

B3. Prospects

Amid the backdrop of normalising economic activities and the formation of a new Malaysian Unity Government which provides stability and certainty to general economic conditions, headwinds such as inflationary pressures and interest rate hikes have impacted consumers' purchasing power and softened the recovery of the property development industry. In the first three months of FY2023, Sunsuria's sales were recorded at RM88.8 million.

The Group's residential development project Bangsar Hill Park project, integrated residential and commercial development Sunsuria Forum 2 at Setia Alam, as well as the multi-facility serviced apartment Tangerine Suites at Sunsuria City township have also bode well with the market appetite for quality housings that are suitably priced.

As at 31 December 2022, Sunsuria's unbilled sales stood at RM957.1 million. As construction progresses on schedule, the gradual progress billing throughout the construction period will support the Group's earnings visibility in the near future.

The Group will continue to focus on its core business by constantly identifying new strategic land banks with good commercial value for future development. In addition, the Group is also diversifying into education and healthcare sectors which will strengthen the value proposition of our townships and developments. The inclusion of healthcare and education components will also serve as catalysts that support the continued growth of our townships while also providing recurring income streams for Sunsuria.

Leveraging on Sunsuria's unbilled sales with future earnings visibility, robustness and resiliency of our business model, and strategic business diversifications, the Group is cautiously optimistic and remains confident to weather the potential negative implications over the medium to longer term while maintaining a healthy financial performance under the current challenging business landscape.
