PART A - EXPLANATORY NOTES PURSUANT TO FRS 134, PARAGRAPH 16

1. ACCOUNTING POLICIES

The quarterly condensed financial report has been prepared in accordance with:

(i) The requirement of the Financial Reporting Standards ("FRS") Standard 134: Interim Financial Reporting; and

(ii) Paragraph 9.22 of the Listing Requirements of the Bursa Malaysia Securities Berhad

and should be read in conjunction with the audited annual financial statements for the year ended 31 December 2009 and the accompanying explanatory notes attached to the quarterly condensed financial report. These explanatory notes attached to the quarterly condensed financial report provide an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2009.

The significant accounting policies adopted for the quarterly condensed financial report are consistent with those of the audited annual financial statements for the financial year ended 31 December 2009 except as mentioned in Note 2 below.

2. CHANGES IN ACCOUNTING POLICIES

The significant accounting policies adopted for the quarterly condensed financial report are consistent with those of the audited financial statements for the financial year ended 31 December 2009 except for the adoption of IC Interpretation 13: Customer Loyalty Programmes, FRS 8: Operating Segments, FRS 101 (Revised): Presentation of Financial Statements, FRS 7: Financial Instruments: Disclosures and FRS 123: Borrowing Costs with effect from 1 January 2010.

The principal changes in accounting policies and effects resulting from the adoption of IC Interpretation 13, FRS 7, FRS 8, FRS 101 (Revised) and FRS 123 (Revised) are discussed below.

i) Effects of Adoption of FRS 7: Financial Instruments : Disclosures

FRS 7 requires extensive disclosure of qualitative and quantitative information about exposure to risks from financial instruments. Such disclosures will be made in the audited annual financial statements of the Group.

ii) Effects of Adoption of FRS 8: Operating Segments

FRS 8 replaces FRS 114_{2004}:Segment Reporting and requires a 'management approach', under which segment information is presented on a similar basis to that used for internal reporting purposes. As a result, the Group's external segmental reporting will be based on the internal reporting to the "chief operating decision maker", who makes decisions on the allocation of resources and assess the performance of the reportable segments. Additional disclosures about each of these segments are shown in Note 10, including revised comparative information.

This is a disclosure standard with no impact on the financial position or financial performance of the Group.

iii) Effects of Adoption of FRS 101 (Revised): Presentation of Financial Statements

The revised FRS 101 requires owner and non-owner changes in equity to be presented separately. The statement of changes in equity will include only details of transactions with owners, with all non-owner changes in equity presented as a single line labelled as total comprehensive income. In addition, the revised standard introduces the statement of comprehensive income: its presents all items of income and expense recognised in profit or loss, together with all other items of recognised income and expense, either in one single statement, or in two linked statements. The Group has elected to present in two linked statements.

This is a disclosure standard with no impact on the financial position or financial performance of the Group.

iv) Effects of Adoption of FRS 123 (Revised): Borrowing Costs

FRS 123 has been revised to require capitalisation of borrowing costs on qualifying assets and the Group has amended its accounting policy accordingly. The Group has designated 2 July 2007 as the effective date of adoption. Therefore, borrowing costs have been capitalised on qualifying assets with a commencement date on or after 2 July 2007. No changes have been made for borrowing costs incurred and expensed off prior to this date. This change in accounting policy has been applied retrospectively.

v) Effects of Adoption of IC Interpretation 13: Customer Loyalty Programmes ('IC 13')

This interpretation requires customer loyalty credits to be accounted for as a separate component of the sales transaction in which they are granted. A portion of the fair value of the consideration received is allocated to the award credits and deferred. This is then recognised as revenue over the period when the award credits are redeemed. The Group maintains a loyalty points programme, Enrich which awards members based on accumulated mileage travelled. The Group has historically accrued for the liability under the programme and recognised in the income statement the amount equal to the point earned multiplied by the applicable rates. Upon redemption by members or expiration of the mileage awards, the accrual is reduced accordingly. This interpretation has no specific provisions on transition. Therefore, the Group has followed FRS 108: Accounting Policies, Changes in Accounting Estimates and Errors, applying the changes retrospectively. The prior period financial information has thus been restated.

Under the new policy, consideration received is allocated between the products sold and the points issued, with the consideration allocated to the points equal to the fair value. Fair value of the points is determined by applying statistical analysis. The fair value of the points issued is deferred and recognised as revenue when the points are redeemed.

2. CHANGES IN ACCOUNTING POLICIES (CONTINUED)

The effects of adoption of IC 13 and FRS 123 (Revised) and the comparatives have been restated as follows:

(f) On 31 October 2007, the Company issued 417,747,955 RCPS of RM0.10 each at an issue of RM1.00 per share in conjunction with the issuance of Rights shares. The total proceeds received from the issuance of the RCPS is split between liability component and equity component. At the date of issue the fair value of the liability component is estimated by discounting the future contractual cash flows at the prevailing market interest rate available to the Group. The difference between the total issue price of the RCPS and the fair value assigned to the liability component, representing the conversion option is accounted in shareholder equity.

Any RCPS, which has not been converted during the Conversion Period, which is four years commencing from the first anniversary after the date of issuance, will be automatically redeemed by the Company at the issue price of RM1.00 each within thirty (30) days after the Conversion Period ends.

Except for the above, there were no other issuance, cancellation, repurchases, resales and repayment of debt and equity securities during the financial period ended 30 September 2010.

PART C - ADDITIONAL INFORMATION

1. ECONOMIC PROFIT

(a) As prescribed by the GLC Transformation Programme, the reporting of economic profit ("EP") is made every quarter. EP is an indicative measure of value creation by the business in a specific period. It is a reflection of how much return a business has generated after operating expenses and capital costs.

(b) The Economic Loss of the Group for the quarter and period ended 30 September 2010 is RM70 million (2009: RM96 million loss) and RM150 million (2009: RM794 million loss) respectively. The Group recorded Economic Loss for the quarter and period ended 30 September 2010 after excluding certain items such as derivative gain/(loss), interest income and foreign exchange differences respectively.

Although the EP may have some usefulness in terms of providing an indication of the return after deducting the cost of the resources it employs, it should not be used in isolation as an indicator of a company's performance nor is it a predictor of future performance. The EP results purely on their own may often give misleading results or trends.
