A13. SHIPS, OFFSHORE FLOATING ASSET AND OTHER PROPERTY, PLANT AND EQUIPMENT

Included in ships, offshore floating asset and other property, plant and equipment are construction work-in-progress, mainly for the construction of ships totalling RM1,234.0 million (31 December 2023: RM894.5 million) and right-of-use assets amounting to RM243.1 million (31 December 2023: RM282.8 million).

The volatility of charter hire rates, expired charter contracts or contracts that are approaching their expiry dates were identified as indications that the carrying amount of certain ships may be impaired. The Group has performed a review of the recoverable amount of the ships at the end of the quarter. The recoverable amount was based on the higher of fair value less costs of disposal or value-in-use, and determined at the cash generating unit ("CGU") level of each asset.

Goodwill is tested for impairment annually, or when circumstances indicate that the carrying value may be impaired. The Group's goodwill impairment test is a comparison of the goodwill's carrying value against its recoverable amount. The recoverable amounts are based on value-in-use for cash generating units ("CGU"), calculated using cash flow projections. The key assumptions used to determine the value-in-use of CGUs were disclosed in the annual consolidated financial statements for the year ended 31 December 2023.

The other intangible assets relate to the fair value of long-term customer contracts from acquisition of a subsidiary at the date of acquisition, which is amortised over the remaining contract periods and digital products, measured at cost which comprises the development costs and all costs that can be directly attributed to preparing the asset for its intended use. The intangible assets on digital products are amortised on a straight-line basis over its estimated useful life. The other intangible assets are assessed for impairment whenever there is indication that the intangible assets may be impaired.

QUARTERLY REPORT FOR SECOND QUARTER ENDED 30 JUNE 2024

PART B – OTHER EXPLANATORY NOTES (Continued)

Current quarter's performance against the quarter ended 30 June 2023

Group revenue of RM3,329.4 million was RM220.2 million or 6.2% lower than the quarter ended 30 June 2023 ("corresponding quarter") of RM3,549.6 million, while Group operating profit of RM792.2 million was RM260.9 million or 49.1% higher than the corresponding quarter's profit of RM531.3 million. The variances in Group performance by segments are further explained below.

Gas Assets & Solutions

Revenue of RM688.4 million was RM83.4 million or 10.8% lower than the corresponding quarter's revenue of RM771.8 million due to lower earning days from contract expiries and lower charter rates in the current quarter.

Operating profit of RM249.2 million was RM169.4 million or 40.5% lower than the corresponding quarter's profit of RM418.6 million due to lower revenue as explained above and higher vessel operating costs.

Petroleum & Product Shipping

Revenue of RM1,312.7 million was RM94.6 million or 7.8% higher than the corresponding quarter's revenue of RM1,218.1 million following higher freight rates and earning days achieved in the current quarter.

Operating profit of RM402.2 million was RM77.0 million or 23.7% higher than the corresponding quarter's profit of RM325.2 million from higher margin in the current quarter.

Offshore Business

Revenue of RM431.4 million was RM35.3 million or 7.6% lower than the corresponding quarter's revenue of RM466.7 million due to lower recognition of revenue from the conversion of a Floating, Production, Storage and Offloading unit ("FPSO") following lower project progress in this quarter.

Operating profit of RM73.2 million was RM166.5 million or 69.5% lower than the corresponding quarter's profit of RM239.7 million due to lower revenue as mentioned above and adjustment on cost provisions relating to an asset in the corresponding quarter.

Marine & Heavy Engineering

Revenue of RM900.0 million was RM156.3 million or 14.8% lower than the corresponding quarter's revenue of RM1,056.3 million due to lower revenue from on-going Heavy Engineering projects offset with higher revenue from the Marine sub-segment.

Operating profit of RM79.1 million was RM464.4 million higher than the corresponding quarter's loss of RM385.3 million due to the recognition of cost recovery claims in the current quarter while the operating loss suffered in the corresponding quarter was mainly attributed to additional cost provisions resulting from the revised schedule for ongoing projects.

Others, Eliminations and Adjustments

Others segment's operating loss was RM55.4 million lower than the corresponding quarter's loss due to lower corporate expenses and lower forex loss.

QUARTERLY REPORT FOR SECOND QUARTER ENDED 30 JUNE 2024

PART B – OTHER EXPLANATORY NOTES (Continued)

Current 6 months period performance against the 6 months period ended 30 June 2023

Group revenue of RM6,967.7 million was RM339.4 million or 5.1% higher than the revenue for the 6-month period ended 30 June 2023 (“corresponding period”) of RM6,628.3 million mainly contributed by higher revenue from on-going Heavy Engineering projects as well as higher freight rates and earning days in the Petroleum & Product Shipping segment. The increase in Group’s revenue was, however, offset by lower revenue recognition from the conversion of an FPSO following lower project progress in the current period.

Group operating profit of RM1,674.2 million was RM317.4 million or 23.4% higher than the corresponding period’s profit of RM1,356.8 million contributed by the recognition of cost recovery claims in the current period, offset with the additional cost provisions recorded in the corresponding period due to revised schedule for on-going projects in the Marine & Heavy Engineering segment. In addition, the higher operating profit was also contributed by higher margin in the Petroleum & Product Shipping segment.

Total liabilities recorded marginal movements since the end of the last financial year.

B4. REVIEW OF CONSOLIDATED STATEMENT OF CASH FLOWS

	Cumulative 6 Month Ended 30 June 2024 RM million	30 June 2023 RM million

QUARTERLY REPORT FOR SECOND QUARTER ENDED 30 JUNE 2024

PART B – OTHER EXPLANATORY NOTES (Continued)

B5. GROUP CURRENT YEAR PROSPECTS

In the LNG shipping market, spot rates remained subdued in the second quarter of 2024 with slight improvements in June, driven by heatwaves in Asia that uplifted LNG demand, increased competition for Europe-bound cargoes for inventory restocking and the restart of key LNG terminals post-maintenance. The outlook for the LNG shipping market remains favourable with spot rates expected to increase due to seasonal demand and potential winter restocking. The Gas Assets & Solutions segment is well positioned to sustain its stable operating income, supported by its resilient portfolio of long-term charters.

The petroleum shipping market rates for mid-sized tankers in the second quarter of 2024 remained resilient while VLCC rates had softened amid weaker imports from China. Nevertheless, the overall tanker market outlook remains positive with increasing long-haul exports from the US, Brazil and Guyana and low fleet growth. The operating income from the Petroleum & Product Shipping segment is expected to remain stable, backed by its fleet of long-term chartered vessels and potential opportunities to be capitalized in the spot trading market.

The global upstream capex spending remains steady amidst stable oil prices, which bodes well for the offshore business segment. The demand for newbuild Floating Production Storage and Offloading units (FPSOs) is expected to remain robust in the coming years, driven by projects in South America, West Africa and the Asia-Pacific region, along with the anticipated steady growth in global oil demand. This segment's financial performance will continue to benefit from a reliable revenue stream generated by its existing portfolio of long-term contracts. The Offshore Business segment will continue to explore new opportunities in the market while successfully completing its current projects.

For the Marine & Heavy Engineering segment, upstream capex spending remains attractive to energy majors due to stable oil prices anticipated for the remainder of the year and the focus on ensuring energy security amidst persistent geopolitical risks. Furthermore, in view of increasing demand for low-carbon solutions, the Heavy Engineering sub-segment also aims to capitalise on these new opportunities from both conventional and clean energy sectors. The Marine & Heavy Engineering segment will continue its efforts to mitigate risks arising from the supply chain disruptions and price volatility, which are anticipated to persist given the unpredictable geopolitical landscape.

(i) Setting Aside OS

GKL's Setting Aside OS was heard on 20 and 25 October 2021, 13 January 2022, 16 and 17 February 2022, 4 April 2022, 10 August 2022 and 23 September 2022. As announced on 30 December 2022, the High Court had dismissed GKL's Originating Summons to set aside parts of the Arbitral Award on 29 December 2022 with costs. Upon review of the written grounds of the High Court, GKL has been advised that it has legal grounds to appeal against the High Court's decision and has filed notices of appeal to the Court of Appeal on 19 January 2023. The appeal was originally fixed for hearing on 29 March 2024. On 27 March 2024, we were informed that the hearing has been rescheduled to 3 September 2024. On 25 July 2024 we were informed that the hearing has been rescheduled to 10 February 2025.

(ii) Injunction NOA

On 6 October 2020, GKL withdrew the Injunction NOA on the basis that a statutory stay of enforcement is automatically imposed on SSPC upon GKL's application to set aside SSPC's Award enforcement.

Additionally, GKL had filed an interim application preventing SSPC from enforcing the Award prior to the determination of the Setting Aside OS. This application was heard on 16 August 2021 and 1 October 2021. On 25 October 2021, the High Court dismissed GKL's interim application and decided that SSPC has the right to set off the award against the charter hire without full grounds of judgment. On 22 November 2021 GKL filed an appeal to the Court of Appeal against the High Court's decision which was heard on 6 July 2022. On 7 November 2022, the Court of Appeal dismissed GKL's appeal in respect of the interim application. General grounds were delivered orally and no written grounds were provided by the Court of Appeal.

ii) **Malaysia Offshore Mobile Production (Labuan) Ltd ("MOMPL") and PCPP Operating Company Sdn Bhd ("PCPP")**

Malaysia Offshore Mobile Production (Labuan) Ltd ("MOMPL"), MISC Berhad's wholly owned subsidiary, and PCPP Operating Company Sdn Bhd ("PCPP") are parties to an Agreement for the Leasing, Operation and Maintenance of Two (2) Plain Mobile Offshore Production Unit Facilities for D30 and Dana Fields Development Project dated 28 November 2008 ("the Contract").

PCPP is a joint operating company with shareholders comprising PETRONAS Carigali Sdn Bhd (40%) ("PCSB"), PT Pertamina Hulu Energi (30%) ("PPHE") and PetroVietnam Exploration Production Corporation Ltd (30%) ("PVEP").

A dispute has arisen between the parties in relation to the Contract and there are substantial sums due and owing to MOMPL. Attempts to resolve the matter by means of a commercial settlement agreement failed to materialise and MOMPL was constrained to proceed with legal proceedings against PCPP to seek to recover the sums outstanding to MOMPL for the lease rates, payment for completed variation works, early termination fees, reimbursement of demobilisation costs and associated costs under the Contract totalling to approximately USD99.8 million and service rates totalling approximately RM22.6 million. In this respect, the following actions have been filed:

PART B – OTHER EXPLANATORY NOTES (Continued)

Adjudication

1. Adjudication proceedings under the Construction Industry Payment and Adjudication Act 2012 (“CIPAA”) was first commenced to recover MOMPL’s claim for the completed variation works amounting to approximately USD9.9 million. On 9 January 2019, MOMPL was awarded its entire claim of USD9.9 million plus interest and costs.
2. The second adjudication proceedings under CIPAA was commenced to recover the disputed demobilisation costs amounting to approximately USD4.8 million. On 7 October 2019, MOMPL received the second Adjudication decision dated 26 July 2019 where MOMPL was awarded its entire claim of USD4.8 million plus interest and costs.
3. The Federal Court (“FC”) had on 16 October 2019 made a ruling that the CIPAA, which provides the basis upon which the Adjudication Proceedings were commenced, only applies prospectively to construction contracts entered into after the date CIPAA became effective i.e. 15 April 2014. The MOMPL lease agreement is dated 28 November 2008 and as such, falls outside the purview of CIPAA.
4. In view of the FC decision, MOMPL has stayed its hand on moving for the enforcement of the Adjudication decisions and will focus on the Arbitration Proceedings in order to recover the monies owing by PCPP.
5. As far as MOMPL is aware, there is no pending application to set aside the said Adjudication decisions.

Arbitration

6. The first arbitration proceedings seek to claim for part of the outstanding sums amounting to approximately USD18.8 million and RM17.9 million. MOMPL’s Statement of Claim was filed on 21 December 2016.
7. MOMPL has re-filed the Notice of Arbitration for the second arbitration proceedings for part of the outstanding sums amounting to approximately USD81.0 million and RM4.7 million. PCPP has responded to the Notice of Arbitration on 15 July 2020.
8. The arbitral tribunal for both arbitration proceedings have now been constituted respectively and parties are in the midst of negotiating and finalising the terms of appointment. However, given the development in the filing of the Winding-up Proceedings, MOMPL has written to the arbitral tribunal for both the first and second arbitrations to request for the proceedings to be kept in abeyance until the Winding-up Proceedings is disposed of by the High Court.

Proceedings in Court

Originating Summons against PCPP for Early Termination Fees and Demobilisation Costs

9. On 7 August 2018 an Originating Summons was filed in the High Court to recover the undisputed portion of the early termination fees and demobilisation costs amounting to approximately USD42.3 million.
 - a. On 30 May 2019, the High Court, allowed PCPP’s application to stay the Originating Summons pending the disposal of the arbitration proceedings. MOMPL filed an appeal to the Court of Appeal (“CA”) against this decision which was heard on 12 April 2021. The CA set aside the stay application granted by the High Court and instead imposed a conditional stay on PCPP wherein PCPP is required to deposit a sum of USD7.8 million into a joint account held by both parties’ solicitors within 30 days, failing which MOMPL will be able to proceed with the full hearing in the High Court action against PCPP. PCPP failed to make any such deposit and therefore the Originating Summons was reinstated in the High Court at MOMPL’s request.

PART B – OTHER EXPLANATORY NOTES (Continued)

- b. The matter was heard on both 7 October 2021 and 26 October 2021, the High Court decided the matter in favour of MOMPL. MOMPL has now been awarded the full sum claimed amounting to USD42.3 million together with interest and costs which is to be paid by PCPP. PCPP did not file any appeal against the High Court's decision however PCPP failed to pay the sum awarded to MOMPL. Due to PCPP's failure to pay the sum awarded, MOMPL proceeded to issue a Statutory Notice pursuant to Sections 465 and 466 of the Companies Act 2016 against PCPP on 14 December 2021.

Writ Action for Declaration against the Shareholders of PCPP

10. A writ action in the High Court was also filed on 13 August 2018 against PCSB, PPHE and PVEP (being the shareholders of PCPP) seeking for a declaration that the shareholders be liable for the amounts due and owing by PCPP to MOMPL under the Contract. PCSB and PCPP filed applications in the High Court to strike out ("PCSB's Striking Out Application") and stay the proceedings pending the disposal of the arbitration proceedings ("PCPP's Stay Application") which were allowed on 26 October 2018 and 11 December 2018 respectively. MOMPL appealed against both decisions to the Court of Appeal.
 - a. MOMPL's appeal against PCSB's Striking Out Application by the High Court was dismissed by the Court of Appeal on 26 September 2019. MOMPL has filed leave to appeal against the Court of Appeal's decision to uphold the High Court's decision to strike out the proceedings against PCSB to the Federal Court. On 18 August 2020, the Federal Court dismissed MOMPL's appeal.
 - b. MOMPL's appeal against PCPP's Stay Application by the High Court was heard by the Court of Appeal on 19 June 2020. The Court of Appeal has set aside the stay against the shareholders i.e. PCSB, PPHE and PVEP, whilst the stay against PCPP is affirmed. Pursuant to this decision, MOMPL has proceeded to serve the cause papers out of jurisdiction on PPHE and PVEP. PVEP failed to respond to MOMPL's claim and therefore MOMPL applied for a summary judgment against PVEP. PPHE filed an application in the High Court of Malaysia to challenge the service of the cause papers in Indonesia which was heard on 11 August 2021. On 24 September 2021, the High Court allowed PPHE's application. MOMPL has elected to await the outcome of the Winding-up Proceedings against PCPP and will consider whether to file a fresh claim against PCPP's shareholders thereafter.

Winding Up of PCPP

11. MOMPL issued a Statutory Notice pursuant to Sections 465 and 466 of the Companies Act 2016 against PCPP on 14 December 2021 ("Statutory Notice"). PCPP failed to comply with the Statutory Notice and therefore on 25 March 2022, MOMPL proceeded to file a winding-up petition against PCPP in the High Court ("Winding-up Petition"). The Winding-up Petition was heard on 6 September 2022 and a Winding-Up Order against PCPP was granted in the terms prayed for together with costs. This means that PCPP has been wound up and a liquidator has been appointed.

Proceedings Post Winding Up of PCPP

12. On 24 October 2022, MOMPL filed its Proof of Debt against PCPP together with the supporting documents to substantiate its entire claim.

PART B – OTHER EXPLANATORY NOTES (Continued)

- a. During the first creditor's meeting which was held on 11 April 2023, MOMPL was informed by PCPP's liquidator that it was PCPP's only creditor and that the liquidator has admitted the full amount of MOMPL's claim against PCPP amounting to USD121.9 million as stated in the Proof of Debt. The liquidator has since requested a cash call from PCPP's shareholders pursuant to the terms of the Joint Operating Agreement executed in respect of PCPP. PCSB responded to dispute the cash call. Following this, the liquidator requested for further information to support PCSB's position. Since there was no response, the liquidator instructed their solicitors to file an application for directions in the Winding Up Court for the cash call to be effectively ordered against PCSB, PPHE and PVEP.
- b. On 15 August 2023 a Forms of Summons was filed by the liquidator to seek directions from the High Court for the cash call ("**Application for Directions**"). On 2 November 2023, the High Court allowed the liquidator's application to serve the court papers out of the jurisdiction, to allow the liquidator to serve the cause papers on PPHE and PVEP in Vietnam and Indonesia.
- c. PCSB appointed solicitors and filed an application to intervene (for PCSB to be added as the party to the proceedings) and the Court allowed PCSB's application to intervene as a party to the liquidator's application on 8 January 2024. A further case management was fixed for 24 January 2024 for the Court to give directions on filing of affidavits, written submissions and to fix a hearing date for the liquidator's Application for Directions.
- d. MOMPL also filed an application to intervene as a party to the liquidator's Application for Directions to enable MOMPL to actively participate in the proceedings. MOMPL's application to intervene was heard and allowed by the High Court on 23 January 2024.
- e. On 29 July 2024, the liquidator withdrew the Application for Directions, with no liberty to file afresh and with costs of RM5,000 to be paid to MOMPL.
- f. On 2 August 2024, MOMPL's solicitors wrote to the liquidator to inquire what further active steps are being taken to explore recovery. On 6 August 2024, the liquidator responded to confirm that upon the advice of PCPP's solicitors, the liquidator intends to commence arbitration proceedings against the shareholders of PCPP.

(collectively referred to as the "**Legal Proceedings**")

If successful, the Legal Proceedings are expected to contribute positively to the earnings per share, gearing and net assets per share of MISC in the future.

B12. DERIVATIVES

As part of the Group's efforts to hedge its interest rate risks, the Group entered into interest rate swap ("IRS") arrangements, a form of derivative to convert its interest exposure from floating rate into fixed rate. The maturity of the IRS arrangements coincides with the maturity of the original floating rate loans.

The Group had also entered into forward currency contracts to manage its foreign currency risk.

Details of the Group's derivative financial instruments outstanding as at 30 June 2024 are as follows:

Contract/Tenure	Notional Value RM million	Fair Value as at 30 June 2024 RM million
<u>Foreign currency contracts</u>

During the current period ended 30 June 2024, the Group had entered into IRS arrangements to hedge against adverse movements in interest rates in compliance with the facility agreement as well as forward currency contracts designated as hedges of expected future payments denominated mainly in United States Dollars.

There is no significant change for the financial derivatives in respect of the following since the last financial year ended 31 December 2023:

- the credit risk, market risk and liquidity risk associated with these financial derivatives;
- the cash requirements of the financial derivatives; and
- the policy in place for mitigating or controlling the risks associated with these financial derivatives.

B13. FAIR VALUE CHANGES OF FINANCIAL LIABILITIES

The Group's derivative financial instruments such as interest rate swaps and foreign currency contracts are measured at fair value. The fair value of the derivative financial instruments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business at the end of reporting date. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include:

- using recent arm's length market transactions;
- reference to the current fair value of another instrument that is substantially the same; and
- discounted cash flow analysis or other valuation models.

Any gains or losses arising from changes in fair value on derivative financial instruments during the period that do not qualify for hedge accounting and the ineffective portion of an effective hedge are recognised in the income statement.
