12. Material changes in profit before taxation against the immediate preceding quarter

The Group's revenue for the quarter under review was RM376.3 million against the preceding quarter of RM413.8 million, the lower revenue was arising from seasonal factor and the effect of the coronavirus (COVID-19) pandemic's containment actions and safety protocols taken by the Group's manufacturing facilities. Revenue for the Asia, USA and Europe segments were lower by 7%, 8% and 16% respectively against the preceding quarter.

For the quarter under review, the Group recorded PBT of RM34.2 million as compared with RM65.5 million for the preceding quarter. The lower PBT for the quarter under review was mainly due to lower revenue as mentioned above.

13. Prospects

The adverse impact of the ongoing China and USA trade conflict is now compounded by the COVID-19 pandemic. The trade conflict and pandemic, coupled with the oil price crash, have affected the global economy and led to reduced visibility of customer demand which makes it difficult to assess the full 'impact for the coming quarters. The Malaysia Movement Control Order has also adversely affected the Group's productivity in the last few months and is expected to continue in the foreseeable months ahead. In anticipation of these challenges and backed by a strong balance sheet, the Group is taking cost containment measures and re-assessing its business portfolio to mitigate the adverse impact of events beyond the Group's control. The Board is of the view that the Group's performance for the financial year ending 30 June 2020 will be satisfactory.
