B3 Prospects for the Financial Year Ending 30 June 2022

Retailing

The footfall of shopping malls has increased considerably since the reopening of borders and festive seasons in the transition to the endemic phase beginning 1 April 2022.

The management will continue collaborating with vendors and brand partners to launch new and more exciting product categories, revamping and realigning Metrojaya's on-line and off-line stores to strengthen its various brands and reach.

MALAYAN UNITED INDUSTRIES BERHAD Registration No: 196001000140 (3809-W) (Incorporated in Malaysia)

Hotel

With the international borders of Malaysia reopening on 1 April 2022, the Group's hotel operations in Malaysia expect their revenue to gradually improve. However, the results are expected to be weighed down by the higher cost of sales including the new minimum wages implemented by the Government from 1 May 2022.

For the hotel operations in the UK, the fourth quarter of the financial year is expected to be strong especially when more international travellers start returning to London. This trend is already showing in May 2022.

Food

With the gradual reopening of international borders, the supply to overseas has picked up since the current quarter and would continue to improve due to a revived confidence in international travel and tourism. However, the management of the food division expects the financial results to be weighed down by the higher cost of services attributed by the new minimum wages implemented by the Government from 1 May 2022, and the major price increase of raw materials. Rising freight costs caused by supply chain issues would partly increase the costs of export sales. Continuous efforts to improve the factory efficiency, more trade activities and a gradual price increase have been put in place to cushion these impacts.

Fast food chain

The implementation of minimum wages and the major price increase in raw materials have also affected our newly acquired fast food chain division. The management is looking into making improvements by offering more varieties of food products to attract new and existing consumers. More outlets will be opened in strategic and high footfall locations, especially in East Malaysia.

Property

The property division is well-positioned to accelerate its product launches following the good demand for its landed homes and industrial properties. As at 31 March 2022, unbilled sales amounted to RM129.1 million in Bandar Springhill.

The increase in building material costs, labour shortages and supply chain disruption will pose challenges to the division's results. The Group will mitigate these through strict cost control measures and intensive project management.
