#### (b). Revaluation of land and building (property, plant and equipment)

The Group re-assessed its accounting policy for property, plant and equipment with respect to measurement of certain classes of property, plant and equipment after initial recognition. The Group has previously measured all property, plant and equipment using the cost model whereby, after initial recognition of the asset claisified as property, plant and equipment, the asset was carried at cost less accumulated depreciation and accumulated impairment losses.

During the financial year ended 30 June 2023, the Group elected to change the method of accounting for land and building classified as property, plant and equipment, as the Group believes that the revaluation model more effectively demonstrates the carrying value of the land and building. In addition, the activity in the property markets in which these assets are located provides observable market data on which reliable fair value estimates can be derived.

After initial recognition, the Group uses the revaluation model, whereby land and building will be measured at fair value at the date of the revaluation less any subsequent accumulated impairment losses. The Group applied the revaluation model prospectively.

The impacts due to recognition of land and buildings in property, plant and equipment at revaluation model is as detailed below:

	Property, plant and equipment RM'000
Carrying amount as at 1 July 2022 *	630,459
Revaluation recognised due to change in accounting policy of land and buildings from cost model to revaluation model	902,578
Revalued amount as at 1 July 2022	1,533,037

The Group changed the accounting policy with respect to measurement of land and buildings during the financial year ended 30 June 2023, therefore the fair value of the land and buildings was not measured at 1 July 2021 and 30 June 2022.

#### Q4 FY23 vs Q4 FY22

The Group's revenue decreased by 15.4% to RM97.1 million in Q4 FY23. The decrease was primarily due to the lower contribution by the property and hotel divisions. The Group reported a lower LBT of RM13.7 million for the current quarter, compared with an LBT of RM15.8 million in Q4 FY22. Although the financial results of the Group were affected by the revenue declined and the rise in operational costs, along with increased finance costs, these were offset by a fair value gain on an investment in unquoted preference shares. Consequently, the Group reported a lower LBT in Q4 FY23.

#### <u>Retailing</u>

Metrojaya's revenue for Q4 FY23 decreased to RM6.9 million, reduced by 17.0% from Q4 FY22, mainly due to the temporary closure of the business of the Kota Kinabalu branch from May 2023 onwards. The division reported a lower LBT of RM0.4 million in Q4 FY23 compared to an LBT of RM0.8 million in Q4 FY22, mainly because of the lower operating costs incurred during the current quarter.

#### <u>Hotel</u>

In Q4 FY23, The Group's hotel operations reported a decline in total revenue from RM38.2 million in Q4 FY22 to RM31.0 million. The decrease was mainly due to lower revenue generated by the hotel operations in the UK resulting from the disposal of The Belsfield Hotel and The Regency Hotel in the UK. Due to the change in accounting policy from the cost model to the revaluation model, the division reported a PBT of RM2.7 million in Q4 FY23 compared to an LBT of RM1.6 million in Q4 FY22.

#### Food

The food division faced challenges with lower revenue due to slower market demand in certain export markets.

## MALAYAN UNITED INDUSTRIES BERHAD Registration No: 196001000140 (3809-W) (Incorporated in Malaysia)

#### Fast food chain

The fast food chain recorded higher revenue in Q4 FY23. This increase was primarily driven by the expansion of the fast food chain division, with the number of outlets growing from 74 to 92. Despite the overall revenue growth, the fast food chain division incurred a LBT of RM11.1 million, in contrast to a PBT of RM0.7 million in the same quarter of the previous year. This loss was attributed to higher operational costs resulting from the establishment of new outlets, coupled with increased labour and raw material costs.

#### Property

The revenue in Q4 FY23 saw a reduction of RM11.6 million or 80.7% compared to Q4 FY22, largely stemming from decreased revenue from Phase E6 (Aurora & Nova), which was completed in Q4 FY23. The near completion of Phases E5-B (Nebula) and E5-C (Aurora 2) also contributed significantly to the drop in revenue. The revenue for the current quarter was mainly derived from phase E7-3 (Peony 2).

#### FY23 vs FY22

The Group's revenue increased by 42.2% to RM482.4 million for FY23 from RM339.3 million in FY22, mainly driven by the contribution from fast food chain division. The Group recorded a PBT of RM23.1 million in FY23 compared to an LBT of RM18.7 million for FY22. The PBT for FY23 was mainly due to a one-time gain from the disposal of The Belsfield Hotel in the UK and a fair value gain on an investment in unquoted preference shares.

#### Retailing

In FY23, Metrojaya Berhad achieved a revenue of RM32.0 million, representing a growth of 28.1% compared to the same period in FY22. The revenue growth was mainly attributable to the gradual recovery of foot traffic in shopping malls. The division reported a PBT of RM3.9 million for FY23 compared to an LBT of RM0.5 million in FY22. The PBT in the current financial year was mainly attributed to the higher profits generated by the Group's associates.

#### <u>Hotel</u>

The Group's revenue for hotel operations increased from RM120.5 million in FY22 to RM121.9 million in FY23. The increase in revenue was mainly contributed by the Group's hotel in Malaysia due to the revival of domestic tourism and an increase in inbound international travellers. The Group's PBT for the hotel division was RM32.9 million in FY23, in contrast to an LBT of RM16.5 million in FY22. The improvement in the results was mainly due to a one-time gain from the disposal of The Belsfield Hotel in the UK.

### Food

The food division benefited from the lifting of pandemic restrictions and the opening of international borders, resulting in an additional 14.9% growth in revenue.

#### Fast food chain

The fast food chain division recorded LBT of RM7.7 million as compared to the PBT of RM0.9 million in the previous year. This loss was attributed to increased operating costs resulting from the establishment of new outlets, rising labour expenses, and higher raw material costs.

# Property

The property division's revenue for FY23 amounted to RM82.5 million, exhibiting a decrease of RM5.1 million compared to RM87.6 million in FY22. This decrease was primarily due to lower progress billings from the ongoing development of phases in Bandar Springhill, Negeri Sembilan. Additionally, Phase E6 (Aurora & Nova) was the main revenue contributor for FY22 and was completed in Q4 FY23.

With the opening of the Kota Kinabalu store, the company is undergoing active transformation to improve the sale per square foot. #### <u>Hotel</u>

Prospects for Malaysian hotels is optimistic as travel bodies including airlines and Tourism Malaysia have reported increased inbound traffic. This will augur well for Corus hotel Kuala Lumpur particularly in view of its strategic location in the KLCC vicinity. Meanwhile, Corus hotel Port Dickson continues to take advantage of the local weekend holidaymakers and weekday government and corporate seminar businesses, and tour series.

The UK hotel industry in 2023, particularly in London, is rebounding after COVID, evident in improved June to August occupancy. Average daily rates surged by up to 40%, notably for Corus Hotel Hyde Park. Despite elevated labour costs, our UK hotels reported profits. However, the heightened bank borrowing base rate presents a cost challenge.

#### Food

The overall outlook for the food division is currently presenting some challenges particularly in certain export markets. Notwithstanding the above, the division is in the process of completing the proposed disposal of 85% equity interest in Network Foods International Limited.

#### Fast food chain

Despite a moderate economic growth for the country, our fast food chain division continues to grow both in sales and store counts. The growth in Sabah looks promising with outlets showing strong sales uptake. The division expects to continue at the same pace of expansion in the next 12 months with more focus on developing the 'Drive-Thru' outlets. Against rising costs of raw materials and wages, the division plan to further innovate to improve customer experience by enhancing the menu, introducing 'Self-order Kiosks' and further rolling out the 'A&W Ordering App'.

#### Property

The real estate market, particularly the landed property segment, continues to be positioned for steady growth. West Synergy Sdn Bhd ("WSSB") is confident of increased revenue driven by new launches and unbilled sales. However, management is cautiously mindful of inflationary pressure on construction costs.

WSSB is committed to continuing its strategic planning and development of the remaining 800 acres of landbank for an integrated township in Bandar Springhill. This will comprise mixed developments of residential, commercial and industrial segments, supported by services and amenities including an international school, a full serviced hospital and a planned hotel.

The property division remains confident of WSSB's performance in the development of Bandar Springhill, Negeri Sembilan.
