Review on Performance – Current Quarter compared to Corresponding Quarter

a) Overall Review of Group performance

The Group's revenue grew substantially by 257% to register at RM101.3 million vis-à-vis the preceding year corresponding quarter due to the lower revenue in the preceding year corresponding quarter with the implementation of the movement control order to contain the outbreak of COVID-19 pandemic from 18 March 2020. Revenue was contributed substantially by the Property business segment with the Group's newly acquired development project named Residensi Majestic Maxim in November 2020, located in Alam Damai, Cheras contributed RM47.2 million. This was followed by RM36.8 million revenue from the affordable homes project, Residensi Metro Kepong located at Taman Metropolitan, Kepong whilst Mizumi Residences condominium project, also located at Taman Metropolitan, Kepong reported a lower revenue at RM16.9 million (as project physically completed and awaiting for the issuance of certificate of completion and compliance) vis-à-vis RM24.1 million in the preceding year corresponding quarter. The remainder development project, Ganggarak Permai located in Labuan FT which is also physically completed and awaiting for the issuance of certificate of completion and compliance, have reported a lower revenue at RM0.4 million vis-à-vis RM2.4 million in the preceding year corresponding quarter. Meanwhile, no contribution from industrial supplies due to the closure of the Group's ready-mixed concrete plant

located in Labuan FT since November 2019 and the trading of building materials was affected by the competitiveness of the business and the reduced economic activities during the COVID-19 outbreak.

Meanwhile, profitability of the Property Business segment was contributed substantially by both, Residensi Majestic Maxim and Mizumi Residences and further aided by the recognition of net real property gain tax refund of RM12.3 million, to enable the Group to register profit before tax at RM17.4 million, an increase of 557% vis-à-vis RM2.7 million in the preceding year corresponding quarter.

b) **Segmental Review**

• Property

This business segment presently comprised four property development projects, namely, Ganggarak Permai in Ganggarak, Labuan FT, Mizumi Residences with Residensi Metro Kepong, both in Taman Metropolitan, Kepong, Kuala Lumpur and Residensi Majestic Maxim, in Alam Damai, Cheras, Kuala Lumpur. The summary of performance and progress are as below:-

	Ganggarak Labuan	Taman Metro	Alam Damai, Cheras		
Name of projects	Ganggarak Permai	Mizumi Residences	Residensi Metro Kepong	Residensi Majestic Maxim	
Net property sales ('000)	RM73,575	RM684,187	RM294,600	RM790,756

Percentage completion (cumulative)	Phase 3 – 92.2% (June 2020: 62.5%)	98.1% (June 2020: 74.8%)	51.3% (June 2020: 6.9%)	79.5% (June 2020: Not applicable as project	
	Phase 4 – 94.5% (June 2020: 79.1%)			company acquired in November 2020)

the quarter ('000)	2020: (RM22)	2020: 1	2020: RM4,292		

Ganggarak Permai's phases 3 and 4, both recorded a loss of RM0.54 million for the quarter under review (vis-à-vis operating loss of RM22,000 in the preceding year corresponding quarter) due to lower percentage completion achieved in the current quarter under review as the project is physically completed coupled with additional unbudgeted costs incurred to fulfill requirements imposed by local authorities. The Group is presently awaiting for the issuance of certificate of completion and compliance earlier envisaged in the quarter under review but has been delayed with the re-implementation of total nationwide lockdown since 1 June 2021.

Mizumi Residences is also awaiting for the issuance of certificate of completion and compliance to enable the delivering vacant possession to end purchasers, now envisaged sometime in the 3rd quarter of the current financial year, well within the delivery period to end purchasers. During the quarter under review, Mizumi Residences despite recorded a lower percentage completion of 2.2% with 100% take up rate vis-à-vis the preceding year corresponding quarter at 2.8% with 96.8% take up rate, contributed a higher operating profit at RM6.2 million vis-à-vis RM4.3 million registered in the preceding year corresponding quarter (with minimal contribution from Residensi Metro Kepong), due to some savings in budgeted cost.

Notes to the Condensed Consolidated Interim Financial Statements for the quarter ended 30 June 2021

Meanwhile, Residensi Metro Kepong, an affordable housing project, registered a satisfactory takeup rate where the total sold and booked units totals approximately 99.7% out of total available 1,520 units. Further, the project has achieved percentage of completion at 51.3% as at the end of the quarter under review whilst current quarter attained 12.1% (2020: 0.05%). The delivery of vacant possession is envisaged sometime in fourth quarter of financial year 2022.

Meanwhile, Residensi Majestic Maxim, a high-rise mixed development comprising an 8-storey commercial podium with retail/office units, commercial space and car park and 4 blocks of 37-storey service apartments in Alam Damai, Cheras, Kuala Lumpur has also progress satisfactorily on the back of movement restrictions. As at the end of the quarter under review, the project has achieved percentage completion of 79.5% with almost all the available 2,136 units of service apartment and 53 units of shop lot having been sold and/or booked. The quarter under review saw the percentage completion registering at 5.9% and after the adjustment made for the amortisation of property development cost at Group level amounting to RM8.9 million, the project reported an operating profit of RM3.3 million. The delivery of vacant possession is envisaged sometime in first half of financial year 2022.

Review on Performance - Current Quarter compared to Preceding Quarter

The re-implementation of total nationwide lockdown since 1 June 2021 has led to the Group's revenue for the current quarter registered at RM101.3 million or 24% lower than the preceding quarter. Residensi Majestic Maxim saw its revenue lower at RM47.2 million (vis-à-vis RM61.0 million in the preceding quarter) whilst Mizumi Residences and Residensi Metro Kepong, both registering lower revenue at RM16.9 million and RM36.8 million respectively (vis-à-vis RM24.1 million and RM42.6 million respectively in the preceding quarter). Consequently, the Group's profit before interest and tax was lower from the Property Business segment but aided by the recognition of net real property gain tax refund of RM12.3 million, the overall profit before interest and tax was higher at RM17.4 million (vis-à-vis RM12.3 million in the preceding quarter), an increase of 42%.

16. Prospects

On 28 May 2021, the Government of Malaysia declared a total nationwide lockdown commencing 1 June 2021 and was subsequently extended. From 24 July 2021, the construction sector was allowed to operate under strict compliance to standard operating procedures. Further, with effect from 16 August 2021, more economic sectors and all non-essential industries (including property development and construction) are allowed to resume operation in all phases of the National Recovery Plan. Such relaxation applies to those individuals who are fully vaccinated. The total lockdown has invariably delayed the progress of the Group's existing property development projects and also delayed the launching of new property development projects by the Group. At this stage, the Group has no visibility as to when the economy will be fully re-open and the full impact the lockdown on the demand and progress of the Group's existing and new development projects.

Against the above backdrop and the challenging residential property market, the Group's Property Development & Construction business segment is moving forward cautiously but yet optimistic. The well-received and advanced stages of all its existing launched projects, namely, Mizumi Residences in Taman Metropolitan, Kepong, Residensi Majestic Maxim in Alam Damai, Cheras, Kuala Lumpur and Ganggarak Permai in Ganggarak, Labuan FT will provide good earning visibility of the Group's performance for the current financial year except for Mizumi Residences and Ganggarak Permai, both of which are scheduled for delivery of vacant possession before the end of the current financial year, leaving behind small percentage completion to be recognised for Mizumi Residences and for Phases 3 and 4 of Ganggarak Permai.

(formerly known as Tadmax Resources Berhad)

(Incorporated in Malaysia)

Notes to the Condensed Consolidated Interim Financial Statements for the quarter ended 30 June 2021

However, the Group's affordable housing project namely, Residensi Metro Kepong in Taman Metropolitan, Kepong will contribute revenue to the Group at least until second half of financial year 2022 but profit contribution will not be significant in view of the nature of the development.

Likewise, Residensi Majestic Maxim will contribute to the profitability of the Group for the current financial year untildelivery of vacant possession envisaged sometime in the first half of 2022.

In replenishing its land bank, the Group has progressed much by inking a few acquisitions of land in the last three years at strategic locations with potential growth to further strengthen the Group's foothold in the Property Development & Construction activities, with a view to generate long-term sustainable income. The Group targets to launch the development of at least one of these newly acquired development land in the current financial year, albeit delayed due to the total nationwide lockdown.

Meanwhile, the Group remains in a good position to overcome the crisis posed by the COVID-19 pandemic with the backing of a respectable and healthy financial position cum liquidity. The health and safety of the Group's employees are always a priority and the Group has had made arrangements to have all its employees vaccinated whilst committed to continue in complying with strict standard operating procedures to mitigate the spread of COVID-19.

On the back of challenging business conditions in the property sector, the Group endeavours to partly address this by undertaking the development of mid-range and affordable homes within strategic locations in the Klang Valley and the Group believes this will remain the favourite in the medium-term. Further, driven by fundamental market dynamics, supported by low interest rate regime, the abundant market liquidity, Government's measures through the penulih aid package under the National Recovery Plan and coupled with the nationwide COVID-19 vaccine roll out since March 2021, will pave the way for the recovery in the economic activities and consumer confidence, both expected to spur the demand for properties for the current financial year and thereafter.

17. Disclosure of COVID-19 Outbreak Related Impacts

Unavoidably, the Group's business operations will be affected by various phases of movement control orders ("MCOs") which implemented since March 2020. The direct impact was the continuous disruption to the progress of the Group's property development activities. The MCOs are expected to have minimal effect on the overall Group earnings (on the basis that almost all the available units having been sold and/or booked coupled with the advance stage of completion) as any deferred recognition of earning will be recognised in the subsequent quarters.

Further, the Group does not expect any material variation to its property development expenditures on the on-going development contracts. Meanwhile, the Group has met and is envisaged to meet all its short-term debt obligations and operating expenditures during this unprecedented period supported by the advanced stages of completion and high take-up rates of all its existing property development projects and respectable net cash position of the Group. On this premise, the Group is expected to have sufficient working capital and is confident to sustain its business operation despite the effects of COVID-19 outbreak.

The Management periodically assess the overall impact of the situation on the Group's operations and financial performance, and maintained its earlier conclusion that no material effects were envisaged on the unaudited consolidated statement of comprehensive income for the quarter under review. Likewise, the Group has also assessed on its unaudited consolidated statement of financial position and concluded that no material impairment to its assets, inventories or receivables are expected.

Notes to the Condensed Consolidated Interim Financial Statements for the guarter ended 30 June 2021

For the current financial year, the Management is unable to reliably estimate the financial impact of COVID-19 outbreak on the Group's financial results as there are still uncertainties as to how far the pandemic would continue and the severity of it, hence the current situation is still fluid. Nevertheless, the Management shall cautiously and continuously assess the impact of COVID-19 outbreak to the Group's operations as well as the financial position from time to time on the back of the unpredictable operating environment.

The above loans bear interest rates ranged from 3.65% - 5.82% per annum.
