NOTES

A. Financial Reporting Standard (FRS) 134 - Paragraph 16**A1. a) Accounting policies**

The interim financial statements of the Group have been prepared in accordance with the requirements of Financial Reporting Standards ("FRS") FRS 134 - Interim Financial Reporting and Chapter 9, Part K of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("BMSB").

The accounting policies and methods of computation used in the preparation of the interim financial statements are consistent with those used in the preparation of the audited financial statements for the financial year ended 31 December 2010 except for the adoption of the following revised FRSs, IC Interpretations, Amendments to FRSs and Amendments to IC Interpretations that are effective for financial periods beginning on or after 1 July 2010 or 1 January 2011 :-

FRS 3	Business Combinations (<i>revised</i>)
FRS 127	Consolidated and Separate Financial Statements (<i>revised</i>)
IC Interpretation 12	Service Concession Arrangements
IC Interpretation 17	Distributions of Non-cash Assets to Owners
IC Interpretation 4	Determining whether an Arrangement contains a Lease
Amendments to FRS 5	Non-current Assets Held for Sale and Discontinued Operations
Amendments to FRS 7	Improving Disclosures about Financial Instruments
Amendments to FRS 132	Financial Instruments: Presentation - Classification of Rights Issues
Amendments to FRS 138	Intangible Assets
Amendments to IC Interpretation 9	Reassessment of Embedded Derivatives
Amendments to FRSs contained in the document entitled "Improvements to FRSs (2010)"	

The adoption of the above revised FRSs, IC Interpretations, Amendments to FRSs and Amendments to IC Interpretations does not have any significant financial impact on the Group except for the following :-

FRS 3: Business Combinations (*revised*)

The revised FRS 3 introduces the option to measure the non-controlling interests in a business combination either at fair value or at the non-controlling interest's proportionate share of identifiable assets acquired. Goodwill on acquisition will be measured as the difference between the aggregate of fair value of consideration transferred, any non-controlling interest in the acquiree and the fair value at the acquisition date of any previously held equity interest in the acquiree (if acquired via piecemeal acquisition), and the net identifiable assets acquired. Any bargain purchase (ie. negative goodwill) will be recognised directly in the income statement. Any consideration transferred is to be measured at fair value as of the acquisition date. All acquisition-related costs are expensed off in the income statement.

PPB GROUP BERHAD (8167-W)

FRS 127: Consolidated and Separate Financial Statements (revised)

The revised FRS 127 requires that total comprehensive income must be proportionately allocated to the non-controlling interests, even if the non-controlling interests are in deficit position. Change in ownership interest which does not result in a loss of control is accounted for within equity instead of the income statement. Where the change in ownership interest results in loss of control, any remaining interest in the former subsidiary is remeasured at fair value and a gain or loss is recognised in the income statement.

The changes in the revised FRS 3 and FRS 127 will be applied prospectively and only affect future acquisitions or loss of control of subsidiaries and transactions with non-controlling interests.

IC Interpretation 12: Service Concession Arrangements

IC Interpretation 12 applies to service concession operators and prescribes how to account for the obligations undertaken and rights received in concession arrangements. The operator shall recognise a financial asset to the extent that it has an unconditional contractual right to receive cash or an intangible asset to the extent that it receives a right (a licence) to charge users of the public service.

The Group has an indirect investment in a jointly controlled entity that is engaged in service concession arrangements. Upon adoption of IC Interpretation 12, the jointly controlled entity has applied the interpretation retrospectively and the comparative figures as at 31 December 2010 have been restated as follow :-

PPB GROUP BERHAD (8167-W)**Grains trading, flour and feed milling**

Revenue climbed 37% to RM463 million in 4Q2011 compared with 4Q2010 mainly due to the larger scale in grains trading which started in FY2011. The full year revenue for FY2011 was up 30% from RM1.3 billion to RM1.6 billion due to higher grains trading volume and higher flour sales.

Profit before tax was lower by 45% and 13% for 4Q2011 and FY2011 respectively due to lower margins as a result of higher raw material costs as compared with the previous corresponding quarter and financial year. Higher wheat costs coupled with intense local competition had affected the financial performance of the Group's flourmills. The Indonesian flourmill registered lower results despite an increase in flour sales because of a foreign exchange translation loss as opposed to a gain in the previous year.

Marketing, distribution and manufacturing of consumer products

The RM91 million revenue achieved in 4Q2011 was marginally lower but comparable with the RM94 million in 4Q2010. For the full year in FY2011, revenue increased by 2% to RM375 million from FY2010 due to increased sales.

The higher profit before tax recorded of RM3.6 million in 4Q2011 as compared with RM3.2 million in 4Q2010 was due to better profit margins while the improved profits in FY2011 of RM19 million from RM16 million in FY2010 was in line with the growth in revenue and better profit margins.

Film exhibition and distribution

Revenue increased by 17% to RM76 million in 4Q2011 compared with RM65 million in 4Q2010 due to higher cinema collections. For FY2011, revenue rose 12% to RM283 million from RM253 million in FY2010 as a result of improved cinema collections which was attributed to opening of new cinemas, stronger performance of existing cinemas and higher revenue from film distribution.

Profit before tax for 4Q2011 and FY2011 were down by 35% and 15% respectively due to higher film rental rates and staff costs for the cinema operations, film acquisition costs and one-off corporate expenditures incurred in the financial year.

Environmental engineering, waste management and utilities

Revenue reduced by 16% to RM47 million in 4Q2011 as compared with RM56 million in 4Q2010 mainly due to accelerated progress in the stages of completion in several environmental engineering projects during the previous period, where revenue had been progressively recognised. In 4Q2011, such projects have mostly been completed or were near completion. In FY2011, revenue was up by 42% to RM154 million from RM109 million due to the recognition of revenue from major projects secured during the financial year.

Profit before tax decreased to RM2.6 million in 4Q2011 from RM3.6 million in 4Q2010 due to higher profits recognised from several environmental engineering projects in the previous period. For FY2011, the higher profit before tax of RM9.8 million was in line with the higher revenue achieved.

PPB GROUP BERHAD (8167-W)**Property investment and development**

Revenue in 4Q2011 was 12% lower at RM9.1 million as compared with RM10.3 million in 4Q2010 as there were more property sales recognised in the previous corresponding quarter. The revenue for FY2011 was also lower at RM37 million as compared with RM42 million in FY2010 with lower property sales as there were no new projects launched in the financial year.

Profit before tax in 4Q2011 increased marginally to RM2.8 million mainly due to the upwards rental revision for the properties under management. For FY2011, the profit before tax was lower by 59% from RM38 million to RM16 million mainly due to a gain on disposal of investment properties of RM22 million in FY2010.

Chemicals trading and manufacturing, Livestock farming, Investments in equities and Other operations

Revenue was up by 3% in 4Q2011 mainly due to improved sales from the livestock farming division supported by better day-old chicks prices during the period. For FY2011, revenue was marginally down by 2% to RM384 million mainly due to the loss in revenue from an engineering services subsidiary that was disposed in FY2010 despite a higher revenue contribution from livestock farming division.

The loss before tax of RM4.7 million in 4Q2011 and the lower profit before tax of RM12.3 million in FY2011 were mainly due to a fair value adjustments in investments in equities, lower profits from the shipping division as a result of lower charter hire rates and loss of profit contribution from the disposed engineering services subsidiary.

Share of associates and joint venture's profits less losses

Wilmar International Limited ("Wilmar"), an associate of the Group contributed higher profits of RM178 million in 4Q2011 and RM790 million for FY2011 to the Group as compared with RM79 million in 4Q2010 and RM678 million for FY2010.

Total profit before tax	226,053	252,382	(26,329)	-10%

The total Group profit before tax for 4Q2011 of RM226 million was 10% lower than the RM252 million in 3Q2011. The reduction was mainly due to lower profit margins achieved in grains trading, flour and feed milling division; lower consumer products sales after the Hari-Raya festive season; lower distribution profits as a result of higher film acquisition costs and one-off corporate expenditures incurred in the film exhibition and distribution division; lower profits in the property division. Other operations registered a loss mainly due to the advertising and promotional expenses incurred in the frozen food and bakery operations.

The environmental engineering division however registered better results due to higher profits recognised from newly launched engineering projects in the quarter.

Wilmar contributed RM178 million in 4Q2011 which was marginally lower than RM179 million in 3Q2011.

B3. Prospects for the next financial year

The global economy in 2012 started off on an uncertain footing, carrying over the slowing consumer demand and the unresolved Eurozone problems of 2011. The weakened global market coupled with rising fuel costs, volatile commodity markets and foreign exchange rates will present challenges to the Group.

The Group's management are actively monitoring such challenges in order to implement appropriate measures to facilitate growth and continuation of the Group's businesses.

The Group's operations are mainly located in the ASEAN countries and in China, and it is anticipated that the domestic consumption in these countries would remain robust in 2012. The Group is optimistic that PPB Group would be able to generate a satisfactory set of results in 2012.
