NOTES

A1. Accounting policies

The interim financial statements of the Group have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") MFRS 134 - Interim Financial Reporting and Chapter 9, Part K of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The Group adopted the MFRS on 1 January 2018 and will prepare the first set of financial statements in accordance with MFRS for the financial year ending 31 December 2018. The interim financial statements of the Group have been prepared in accordance with the accounting policies to be applied in preparing the annual financial statements of the Group for the financial year ending 31 December 2018.

The accounting policies and methods of computation used in the preparation of the interim financial statements are consistent with those used in the preparation of the audited financial statements for the financial year ended 31 December 2017 except for the adoption of the following MFRS, Amendments to MFRS and Issues Committee Interpretation ("IC Interpretation") that are effective for the financial periods beginning on or after 1 January 2018 :

MFRS 9	Financial Instruments
MFRS 15	Revenue from Contracts with Customers
Amendments to MFRS 1	Annual Improvements to MFRS Standards 2014 - 2016 Cycle
Amendments to MFRS 15	Clarifications to MFRS 15
Amendments to MFRS 140	Transfers of Investment Property
IC Intrepretation 22	Foreign Currency Transactions and Advance Consideration

A2. Adoption of MFRS

a) *MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards*

In general, on the date of transition, the Group recognised, measured and reclassified its assets, liabilities and components of equity in accordance with MFRS. The Group adopted MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards on 1 January 2018 and has elected to apply the following transitional exemptions:

Business combinations

The Group has elected not to apply MFRS 3 Business Combinations retrospectively to business combinations that occurred before the date of transition.

Deemed cost of assets

The Group has elected to use the previous revaluation of property, plant and equipment and investment properties as their deemed cost under the MFRS on the date of transition.

b) MFRS 141 Agriculture

Upon adoption of MFRS 141 and the amendments to MFRS 141 Agriculture: Bearer Plants, the Group measures bearer plants at cost less accumulated depreciation and impairment losses, whereas agricultural produce is measured at fair value less costs at the point of harvest. Other biological assets are measured at fair value less costs to sell.

c) MFRS 9 Financial Instruments

MFRS 9 introduced expected credit losses model on impairment of financial assets, that replaces the incurred loss model applied previously. Upon adoption of MFRS 9, the Group applied the simplified approach where the loss allowance shall be measured at an amount equal to lifetime expected credit losses for trade receivable and contract assets.

d) MFRS 15 Revenue from Contracts with Customers

MFRS 15 Revenue from Contracts with Customers introduced a new model for revenue recognition arising from contracts with customers. In general, the Group recognises revenue to depict the transfer of a promised good or service to a customer in an amount that reflects the consideration to which the Group expects to be entitled in exchange for that good or service. Depending on the terms of the contract, the Group recognises revenue when the performance obligation is satisfied, which may be at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

The effects on adoption of the MFRS are as follows:

Investments and Other operations
