B NOTES PER BURSA SECURITIES LISTING REQUIREMENTS

B1. Review of Performance

For the nine months ended 30 September 2008, the Group recorded revenue of RM99.4 million, representing a growth of 8.9% over the previous year corresponding period's revenue of RM91.3 million, resulting in better operating profit. The higher revenue was mainly contributed by higher sales from the food and confectionery operations. The pre-tax loss for the nine months ended 30 September 2008 of RM17.2 million, compared to a pre-tax profit of RM0.6 million last year, was mainly due to unrealised losses on foreign exchange and allowance for diminution in value of quoted investments as a result of the current global financial crisis and the bearish stock market condition.

B2. Material Changes in the Quarterly Results Compared to the Results of the Preceding Quarter

The current quarter recorded revenue of RM34.7 million and a pre-tax loss of RM2.2 million compared to the preceding quarter's revenue of RM29.8 million and pre-tax loss of RM12.5 million. The higher revenue for the current quarter was due to better sales during the festive seasons, in line with the seasonal nature of the Group's food and confectionery operations. The higher loss for the preceding quarter was mainly due to unrealised losses on foreign exchange and allowance for diminution in value of quoted investments as explained in Note B1 above.

B3. Prospects for Current Financial Year

The Group expects its tough operating environment to continue due to higher costs of production, tighter consumer spending and the current unfavourable global economic conditions. To mitigate this, the Group has embarked on initiatives to improve productivity and cost efficiency, increasing its product prices and market reach and better product offering. The Group remains cautious of the general trading environment for the remaining period of the current financial year.
