A. NOTES TO THE INTERIM FINANCIAL REPORT

A1. First-time adoption of Malaysian Financial Reporting Standards ("MFRS")

These condensed consolidated interim financial statements, for the period ended 30 September 2012, have been prepared in accordance with MFRS 134 *Interim Financial Reporting* and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. These condensed consolidated interim financial statements also comply with IAS 34 Interim Financial Reporting issued by the International Accounting Standards Board. For the periods up to and includings the year ended 31 December 2011, the Group prepared its financial statements in accordance with Financial Reporting Standard ("FRS").

These condensed consolidated interim financial statements are the Group's first MFRS condensed consolidated interim financial statements for part of the period covered by the Group's first MFRS annual financial statements for the year ending 31 December 2012. MFRS 1 First-Time Adoption of Malaysian Financial Reporting Standards ("MFRS") has been applied.

The explanatory notes attached to these condensed consolidated interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2011.

In preparing its opening MFRS Statement of Financial Position as at 1 January 2011 (which is also the date of transition), the Group has adjusted the amount previously reported in financial statements prepared in accordance with FRS. An explanation of how the transition from FRS to MFRS has affected the Group's financial position, is set out in Note A2 below. These notes include reconciliations of equity for comparative periods at the date of transition reported under FRS to those reported for those periods and at the date of transition under MFRS. The transition from FRS to MFRS has no material impact on the condensed consolidated income statement, statement of comprehensive income and statement of cash flows.

A2. Significant Accounting Policies And Application of MFRS 1

The audited financial statements of the Group for the year ended 31 December 2011 were prepared in accordance with FRS. Except for certain differences, the requirements under FRS and MFRS are similar. The significant accounting policies adopted in preparing these condensed consolidated interim financial statements are consistent with those of the audited financial statements for the year ended 31 December 2011 except as discussed below:

(a) Business combination

MFRS 1 provides the option to apply MFRS 3 *Business Combinations, prospectively* from the date of transition or from a specific date prior to the date of transition. This provides relief from full retrospective application of MFRS 3 which would require restatement of all business combinations prior to the date of transition.

Acquisition before date of transition

The Group has elected to apply MFRS prospectively from the date of transition. In respect of acquisitions prior to the date of transition,

- (i) The classification of former business combinations under FRS is maintained;
- (ii) There is no re-measurement of original fair values determined at the time of business combination (date of acquisition); and
- (iii) The carrying amount of goodwill recognised under FRS is not adjusted.

(b) Foreign currency translation reserve

Under FRS, the Group recognised translation differences on foreign operations in a separate component of equity. Cumulative foreign currency translation differences for all foreign operations are deemed to be zero as at the date of transition to MFRS. Accordingly, at date of transition to MFRS, the cumulative foreign currency translation differences of RM29,635,000 (30 September 2011:RM29,635,000; 31 December 2011: RM29,635,000) were adjusted to retained earnings.

B NOTES PER BURSA SECURITIES MAIN MARKET LISTING REQUIREMENTS

B1. Review of Performance

For the financial period ended 30 September 2012, the Group recorded revenue of RM58.4 million compared with revenue of RM54.3 million for the previous year corresponding period. This was mainly due to higher sales of products in the domestic and export market despite global uncertainties. Higher domestic demand was recorded for Crispy and Tango products as a result of more aggressive promotional activities during the current financial period.

Gross profit margin has improved from 30.6% in the previous period to 36.2% for the current period. The higher gross profit margin for the current period was mainly due to lower cost of certain raw materials as well as lower write down of inventories.

The Group recorded a pre-tax profit of RM3.1 million for the current period as compared with pre-tax profit of RM0.8 million in the previous year corresponding period. The pre-tax profit for the current period was mainly due to higher sales and gross profit margin from the food and confectionery segment as mentioned above.

B2. Material Changes in the Quarterly Results Compared to the Results of the Preceding Quarter

In the current quarter, the Group recorded a revenue of RM21.8 million and a pre-tax profit of RM1.9 million as compared with the preceding quarter's revenue of RM17.8 million and pre-tax profit of RM0.5 million.

The higher revenue for the current quarter was mainly due to higher sales during the Hari Raya festive season, in line with the seasonal nature of the Group's food and confectionery operations. This has resulted in the higher pre-tax profit for the current quarter.

B3. Prospects for Year 2012

The economic uncertainties in the Euro area will continue to cast a shadow on the global economy in 2012. The Malaysian economy, however, is expected to remain resilient and is forecast to grow between 4.0% and 5.0% this year.
