Improvements to FRSs issued in 2009 in respect of various FRSs including Amendments to FRS 117: Leases

Other than for the adoption of FRS 8, FRS 101, FRS 139 and IC Interpretation 13, the adoption of the above FRSs,

Amendments to FRSs and IC Interpretation did not result in any significant changes in the accounting policies and the presentation of the financial results of the Group.

(a) FRS 8: Operating Segments

FRS 8 requires segment information to be presented on a similar basis to that used for internal reporting purposes. As a results, the Group's segmental reporting had been presented based on the internal reporting to the senior management who makes decisions on the allocation of resources and assess the performance of the reportable segments. This standard does not have any impact on the financial position and results of the Group.

(b) FRS 101: Presentation of Financial Statements

This Standard introduces the titles "statement of financial position" and "statement of cash flows" to replace the current titles "balance sheet" and "cash flow statement" respectively. A new statement known as the "statement of comprehensive income" is also introduced in this Standard whereby all non-owner changes in equity are required to be presented in either one statement of comprehensive income or in two statements (i.e. a separate income statement and a statement of comprehensive income). Components of comprehensive income are not permitted to be presented in the statement of changes in equity.

Company No: 5138-W (Incorporated in Malaysia)

A1. Basis of Preparation (cont'd)

(b) FRS 101: Presentation of Financial Statements (cont'd)

This Standard also introduces a new requirement to present a statement of financial position as at the beginning of the earliest comparative period if there are applications of retrospective restatements that are defined in FRS 108, or when there are reclassifications of items in the financial statements.

Additionally, FRS 101 requires the disclosure of reclassification adjustments and income tax relating to each component of other comprehensive income, and the presentation of dividends recognised as distributions to owners together with the related amounts per share in the statement of changes in equity or in the notes to the financial statements.

This Standard introduces a new requirement to disclose information on the objective, policies and processes for managing capital based on information provided internally to key management personnel as defined in FRS 124: Related Party Disclosures. Additional disclosures are also required for puttable financial instruments classified as equity instruments.

(c) FRS 139: Financial Instruments: Recognition and Measurement

FRS 139 establishes principles for recognising and measuring financial assets, financial liabilities and commercial contracts to buy and sell non-financial items. In accordance with the transitional provisions, the Group has adopted FRS 139 prospectively on 1 April 2010 and the comparatives as at 31 March 2010 are not restated. The adoption of FRS 139 did not result in any significant changes in accounting policies and the presentation of the financial results of the Group except for its associate where the Group share the effects arising from adoption of this Standard.

Impact on opening balances

In accordance with the transitional provisions of FRS 139, the changes are applied prospectively by the associate and the Group but the comparative figures of the Group as at 31 March 2010 are not restated. Instead, the changes have been accounted for by restating the following balances in the consolidated statement of financial position as at 1 April 2010.

(d) IC Interpretation 13: Customer Loyalty Programmes

IC Interpretation 13 'Customer Loyalty Programmes', addresses accounting by entities that grant customer loyalty awards credit to customers as part of the sales transaction, and requires such transaction to be accounted for as a separate component of the sales transaction in which they are granted. Part of the fair value of the consideration received relating to the customer loyalty awards is deferred and subsequently recognised over the period in which the awards are redeemed. The changes in accounting policy have been applied retrospectively.
