Notes:

1. Basis of Preparation

The interim financial report is unaudited and has been prepared in accordance with the requirements of Financial Reporting Standard (FRS) 134 Interim Financial Reporting issued by the Malaysian Accounting Standards Board and paragraph 9.22 and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad. It should be read in conjunction with the Group's annual audited financial statements for the year ended 31 December 2011.

2. Audit Report of Preceding Annual Financial Statements

The audit report of the Group's most recent annual audited financial statements for the year ended 31 December 2011 was not qualified.

3. Unusual Items

There were no unusual items affecting assets, liabilities, equity, net income or cash flows during the financial period under review.

4. Changes in Estimates

During the year, the Group reviewed its Forest Development Expenditure prepayment and has revalued this asset to the lower of cost amortised over its useful life and net present value of expected future market price of carbon credits as traded in the European market. As a result, an impairment of RM7.8 million was recognised in the financial period under review.

There were no other changes in estimates of amounts reported in prior financial years that have a material effect in the current quarter.

5. <u>Taxation</u>

Taxation comprises:

	3 months /

- Malaysian income tax	65,384	62,699	
Deferred tax charge/ (credit)	1,669	(929)

The average effective tax rate of the Group for the financial period ended 31 March 2012 is 25.6%, which is higher than the statutory tax rate of 25% mainly due to the non-deductibility of interest expense following the Group's move to the single tier tax system. This is in line with the average effective tax rate of the Group for the financial period ended 31 March 2011 of 25.7%.

13. Breakdown of realised and unrealised profit / (loss)

The following analysis of realised and unrealised retained profits / (accumulated losses) is prepared in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants whilst the disclosure is based on the prescribed format by the Bursa Malaysia Securities Berhad.

	Financial period ended 31.3.2012 RM'000	Financial year ended 31.12.2011 RM'000
Total retained profits of British American Tobacco		
(Malaysia) Berhad and its subsidiaries		
- Realised profit	499,535	494,238
- Unrealised loss	(34,806)	(36,321)
Less: Consolidation Adjustments	(169,458)	(168,705)
Total retained profits	295,271	289,212

The unrealised portion within unappropriated profits (retained earnings) as at 31 March 2012 predominantly relates to net deferred tax liability of RM24,019,000 and provisions for non-material litigation of RM12,727,000.

The consolidation adjustments recognised for the Group mainly relate to accumulated goodwill amortisation recognised from years 2000 to 2005 and hence realised.

14. Material Litigation

There was no material litigation as at 16 April 2012 (the latest practicable date which shall not be earlier than 7 days from the date of issue of this quarterly report).

15. Segment Reporting

No segmental analysis is prepared as the Group is primarily engaged in the manufacture and sale of cigarettes and other tobacco products in Malaysia.

16. Material Changes in the Quarterly Results as Compared with the Preceding Quarter

While the Group's volume grew by 6.9% as compared to the previous quarter, profit before tax increased by 14.3% mainly due to absence of the one-off impact on merchandising assets from change in accounting policy in Q4' 2011 (RM15 million), as well as lower marketing expenses due to timing of brand activities.

Profit after tax improved by 7.7% only as a result of high utilisation of reinvestment allowance in the previous quarter, bringing down the effective tax rate of 21% as compared to 26% in the current quarter. The Group's reinvestment allowance expired in 2011.

17. Review of Performance

Quarter 1 last year was a period which saw the Group's volume and market share adversely impacted by the activities of certain local sub-value for money brands selling below the Government mandated minimum price. With the Government's decision not to increase excise tax in 2011, increased effort by relevant Government agencies in curbing illegal cigarette trade and illegal pricing activities, as well as strong performance by Dunhill, the Group's volume grew by 4.5% as compared to same period last year. The Group's market share year to date of 62.5% was stable, up 0.2 percentage point as compared to preceding quarter. Dunhill continues to uphold its strong performance momentum last year, maintaining its highest ever market share of 46.6% in March 2012, whilst the rest of the brands continue to remain resilient.

Revenue grew by 5.1% compared to same period last year in line with higher domestic volume as well as higher sub-contract manufacturing revenue. Gross profit however only increased by 3.1% mainly due to reversal of 14s machine impairment in Q1' 2011 (RM11.6 million) and higher variable costs in 2012 coupled with higher distributor margin quantum this quarter following the change in the Group's distribution model in Q3' 2011. With the change from Company-owned to exclusive third party distributorship, the Group incurs a higher distributor margin to third party (hence lower gross profit) but this is mostly offset in lower own distribution costs (classified under operating expenses).

Profit before tax increased by 8.8%, higher than the increase in gross profit, mainly due to lower spend in marketing and distribution costs as explained above, as well as timing of brand related activities. Profit after tax increased by 8.9%, in line with profit before tax.

18. Events Subsequent to the End of the Period

There are no material events subsequent to the end of the financial period under review that have not been reflected in the quarterly financial statements.

19. Seasonal or Cyclical Factors

The business operations of the Group are generally impacted by increase in excise typically announced during Malaysia Budget. Notably there was no excise increase in 2011.

20. Current Financial Year's Prospects

The Group continues to show growth momentum behind its portfolio of brands, increasing market share by 1.4 percentage point year to date as compared to 2011 full year. Dunhill in particular continues with its commendable performance as displayed last year, and with the recent new product launch in April 2012, the Group is confident that it will take Dunhill into greater heights.

Nevertheless, the threat of illicit trade is still prevalent with illicit incidence of 36.1% recorded for full year 2011 Illegal Cigarettes Study commissioned by CMTM. However, the Government's decision not to increase cigarette excise in the 2012 budget and its continuous efforts to combat illicit trade is welcomed as it is a positive move to address the issue.

Supported by a strong portfolio of products the Group is relatively optimistic on its outlook for 2012.

21. Earnings Per Share

	3 months / Financial period ended	
Basic earnings per share	31.3.2012	31.3.2011
Profit for the financial period (RM'000)	194,509	178,557
Weighted average number of ordinary shares in issue ('000)	285,530	285,530
Basic earnings per share (sen)	68.1	62.5

The Group does not have in issue any financial instrument or other contract that may entitle its holder to ordinary shares and therefore, dilutive to its basic earnings per share.

22. Dividends

The Board of Directors has declared first interim dividend of 65.00 sen per share, tax exempt under the single-tier tax system amounting to RM185,594,500 in respect of the financial year ending 31 December 2012 (for the financial year ended 31 December 2011, first interim dividend of 60.00 sen per share, tax exempt under the single-tier tax system, amounting to RM171,318,000), payable on 25 May 2012, to all shareholders whose names appear on the Register of Members and Record of Depositors on 14 May 2012.

NOTICE IS HEREBY GIVEN that the Register of Members will be closed from 14 May 2012 to 15 May 2012 (both dates inclusive) for the purpose of determining members' entitlement to the dividend.
