11. Contingent Liabilities and Contingent Assets

The Group had on 8 January 2014 received a letter from the Royal Malaysian Customs disputing the method of calculation of sales tax following the change in transfer price valuation base imposed on 18 October 2012.

On 16 April 2014, the Group received a bill of demand from Royal Malaysian Customs for RM12.9 million in respect of sales tax and penalties (sales tax RM8.8 million and penalties RM4.1 million) for the period from October 2012 through December 2013. The Group stood firm in its position that there is a challengeable case which is supported by external legal opinion on the matter. Accordingly, the Group pursued this matter through a judicial review filed on the 12 August 2014 in the Kuala Lumpur High Court. The High Court had granted a full stay pending the ultimate decision of the case.

On 12 August 2016, the High Court, in rending its decision ruled in favor of the Group and held that the uplift and calculation of sales tax by the Royal Malaysian Customs was without legal basis. 	As at 31.3.2017 RM'000	As at 31.3.2016 RM'000

The unrealised portion within unappropriated profits (retained earnings) as at 31 March 2017 predominantly relates to net deferred tax asset of RM25.4 million and unrealised foreign exchange loss of RM2.2 million.

The consolidation adjustments recognised for the Group mainly relate to accumulated goodwill amortisation recognised from years 2000 to 2005 and hence realised.

14. Material Litigation

There was no material litigation as at 14 April 2017 (the latest practicable date which shall not be earlier than 7 days from the date of issue of this quarterly report).

15. Segment Reporting

No segmental analysis is prepared as the Group is primarily engaged in the manufacture and sale of cigarettes and other tobacco products. The Group's management team review the financial information as a whole for decision making.

16. Material Changes in the Quarterly Results as Compared with the Preceding Quarter

In the first quarter of 2017, the Group's Domestic and Duty Free volumes declined by 11.6% versus fourth quarter of 2016. This decline was driven by the growth in illegal cigarettes incidence from 54.3% in October 2016 to 57.1% in December 2016 (Source: Illicit Cigarette Study). The continued impact of the November 2015 excise led price increase coupled with the challenging macro-economic factors further restrained consumer spending and resulted in the acceleration of illegal cigarettes incidence.

The Group has ceased contract manufacturing for exports as of 31st December 2016, however, in the first quarter of 2017, there were volumes recorded for the sale of residual leaf raw materials to related companies outside of Malaysia, in line with the winding down of the manufacturing operations.

The weak volume performance described above, coupled with timing differences in expenditures, translated into first quarter of 2017 revenue and gross profit decline of 8.3%, and 4.3% respectively, compared to the preceding quarter.

As of year to date February 2017, the Group registered 53.5% share of market within legal industry, a decline of 0.8% versus fourth quarter of 2016. Dunhill, the biggest Premium brand in legal market, registered 37.3% market share for year to date February 2017 (-1.3ppt versus previous quarter). The decline was mainly driven by consumer down trading due to constraint in spending power. Despite the challenging environment, Dunhill demonstrated share recovery in the past 2 months.

Within Aspiration Premium brands, Peter Stuyvesant and Pall Mall recorded a total market share of 12.1% as of year to date February 2017, and for the first time, took leadership in that segment.. This achievement was largely attributed to Peter Stuyvesant's solid growth trajectory with a 7.7% share of market for year to date February 2017, gaining 0.7ppt when compared to fourth quarter of 2016.

During the first quarter of 2017, the Group has also recorded restructuring expenses of RM1.6 million which consists of the on-going cost of the project, outplacement programs and one-off expenses associated with the storage and transfer of unprocessed leaf and raw materials.

Profit from Operations, excluding the impact of one-off restructuring expenses in the current and previous quarter, declined 13.8% (RM26 million).

17. Review of Performance

The Group's Domestic and Duty Free volumes in the first quarter of 2017 declined 23% when compared to the same period of last year. Illegal cigarettes incidence for the same period has increased by +25% from 45.6% in December 2015 to 57.1% in December 2016 (Source: Illicit Cigarette Study), driven by the price gap between legal and illegal cigarettes post the steep excise hike in November 2015, plus current macroeconomic factors that are impacting consumer spending power.

Since December 2016, the Group's volumes have remained stable. However, illegal cigarette incidence has also maintained its level at 57%.

Revenue for the first quarter of 2017 declined 24.5% (RM 250 milion) when compared to the same period of last year in line with volume decline, leading to a Gross Profit deterioration of 27.5% (RM97 million) versus the same period of last year.

Operating Expenses for the first quarter of 2017 were 18.1% lower than the same period last year (RM22 million), attributed to timing of spends, lower recharges from related entities as well as overhead savings from cost efficiency initiatives the Group has undertaken.

In relation to the winding down of the factory operations announced on 17th March 2016, the Group has further recorded a one-off restructuring expenses of RM1.6 million in the first quarter of 2017 which consists of the on-going cost of the project, outplacement programs and one off expenses associated with the storage and transfer of unprocessed leaf and raw materials.

As a result of the above, for March 2017 year to date, the Group registered a decline of 32.8% (RM77 million) and 32.3% (RM75 million) in Profit from Operations and Profit before Tax respectively, when compared to the same period of last year.

18. Events Subsequent to the End of the Period

There are no other material events subsequent to the end of the financial period under review that have not been reflected in the quarterly financial statements.

19. Seasonal or Cyclical Factors

The results of the Group are generally impacted by changes in excise typically announced annually during National Budget.

20. Future Year's Prospects

The Group remains concerned with legal volumes continuing to be impacted by the current high incidence of illegal cigarette trade as a consequence of the unprecedented hike in November 2015, as well as the challenging economic environment and poor consumer sentiments. The high incidence of illegal cigarette trade forms the main challenge in the short and medium term for the legal tobacco industry after its sharp increase from 36.9% in 2015 to a record high of 57.1% in the month of December 2016 (Source: Illicit Cigarette Study). Illegal cigarette trade has surpassed the legal market volumes with more than one out of two packs of cigarettes sold being illegal. The outlook of 2017 will be very much dependant on the recovery of the legal market.
