#### **EXPLANATORY NOTES**

This interim financial report is prepared in accordance with the requirements of paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and complies with the requirements of the Financial Reporting Standard (FRS) 134 – Interim Financial Reporting and other FRS issued by the Malaysian Accounting Standards Board (MASB). The interim financial report is unaudited and should be read in conjunction with the Group's audited annual financial statements for the financial year ended 30 June 2014.

#### A. EXPLANATORY NOTES PURSUANT TO FRS 134

#### A1. Basis of Preparation

In November 2011, the MASB issued the Malaysian Financial Reporting Standards Framework (MFRS Framework). MFRS Framework is a fully IFRS-compliant framework which is applicable for all non-private entities for annual periods beginning on or after 1 January 2012, other than Transitioning Entities (TEs), which may defer adoption in view of imminent changes which may change current accounting treatments. TEs are non-private entities within the scope of MFRS 141 – Agriculture and IC Interpretation 15 – Agreements for the Construction of Real Estate, including their parent, significant investor and venturer.

On 2 September 2014, the MASB issued MFRS Agriculture: Bearer Plants (Amendments to MFRS 116 – Property, Plant and Equipment and Amendments to MFRS 141 – Agriculture) and MFRS 15 – Revenue from Contracts with Customers, which shall apply to financial statements of annual periods beginning on or after 1 January 2016 and 1 January 2017 respectively. The MASB further notifies that TEs are required to comply with MFRS Framework for annual period beginning on or after 1 January 2017.

The Group and the Company, being a TE, will continue to comply with FRS until the MFRS Framework is adopted, no later than from the financial period beginning on 1 July 2017.

- a) The accounting policies and presentation adopted for this interim financial report are consistent with those adopted for the audited annual financial statements for the financial year ended 30 June 2014, other than the adoption of the following standards:

Revenue of the Group at RM43.7 billion for the financial year ended 30 June 2015, was marginally lower than that of the previous year. Group profit before tax declined by 24.3% to RM3,002.7 million due to lower profits in all business segments, except Property and Energy & Utilities.

Profit attributable to shareholders of the Company at RM2,312.8 million was lower than that of the previous year by 31.0%.

Analysis of the results of each segment is as follows:

#### a) Plantation

Plantation division's earnings dropped by 38.8% compared to a year ago largely due to lower average crude palm oil (CPO) price realised at RM2,193 per tonne against RM2,451 per tonne previously and lower fresh fruit bunch (FFB) production largely in Indonesia by 11%. The lower production was mainly caused by the prolonged oil palm biological stress due to the severe drought experienced in early 2014. Oil extraction rate was marginally lower at 21.7% from 21.9%, mainly due to forced ripening as a result of heavy rainfall.

New Britain Palm Oil Limited (NBPOL) which was acquired in March 2015 contributed 650,000 MT, representing 6.7% of the Group's FFB production for the current year, and a profit of RM102.6 million.

Contribution from midstream and downstream operations declined by 63.5% to RM55.7 million for the current year compared to RM152.4 million previously. The previous year's results include a gain arising from adjustment to pension provision and reversal of impairment totaling RM54.0 million. Excluding these two items, the results for the current year declined by 43.4% as compared to the previous year. The lower profit was attributable to the lower sales volume to Asia Pacific, Middle East and Africa as well as lower off-take from petroleum companies due to lower crude oil prices.

#### B1. Review of Group Performance (continued)

#### b) Industrial

Industrial division registered a sharp decline in profit by 48.5%, principally due to the weak results in the Australasia region which declined by 62.3%. This was largely due to lower equipment delivery and product support sales with lower margin realisation to the mining sector. The mining sector remained subdued due to the slump in coal prices and major mining companies slashing back on capital expenditure and deferring scheduled maintenance.

The operations in Malaysia and Singapore were affected by lower equipment delivery to the mining, construction and plantation sector owing to the weak market conditions, whilst the China/Hong Kong operations faced the slowdown in the construction and mining sectors as well as deferment of infrastructure works.

#### c) Motors

Contribution from Motors division declined by 25.4% compared to the previous year due to lower profit from all regions except for Australia, Vietnam and New Zealand.

The tighter lending rules on hire purchase and the Goods and Services Tax (GST) have dampened the demand in the Malaysia market. In addition, the weaker Ringgit Malaysia against US Dollar has narrowed the margins and affected the competitiveness of the marques carried by the Malaysia operations resulting in lower sales volume and contribution. Elsewhere, the slowdown in the China economy and the higher cost of Certificate of Entitlement in Singapore have resulted in lower contributions from both regions.

The lower results were cushioned by the higher profits and full year contributions from the Vietnam and Australia BMW operations acquired in November 2013 and April 2014, respectively. The truck operations in New Zealand reported improved earnings of RM63.7 million attributable to the increased activities.

#### d) Property

Property division's contribution jumped by 48.3% or RM289.7 million compared to previous year. This was mainly attributable to the gains on the disposal of 50% equity interest in Sime Darby Sunsuria Development Sdn Bhd and the 9.9% equity interest in Eastern & Oriental Berhad of RM157.2 million and RM55.5 million respectively. On the property development operations, the division registered higher contributions from Bandar Bukit Raja, Ampar Tenang and Elmina but lower contributions from Denai Alam and Taman Pasir Putih and higher share of loss from the Battersea development project due to the higher marketing cost incurred.

#### e) Energy & Utilities

Profit from Energy & Utilities increased by RM105.2 million from RM20.6 million to RM125.8 million largely due to the write back of provisions amounting to RM77.1 million. Excluding the write back of provisions, the profit increased by RM28.1 million, due to higher port throughput and higher water consumption coupled with higher average tariffs.

#### f) Others

Other businesses recorded a loss of RM35.8 million compared to a profit of RM52.7 million in the previous year. The decline was mainly attributable to the share of losses in Tesco Stores (Malaysia) Sdn Bhd and lower contribution from insurance brokerage business.

The results of Tesco Malaysia was affected by a one-off charge of RM352.2 million being non-cash adjustment to balance sheet carrying values of property, plant and equipment and stocks. An impairment charge of RM229.7 million was made against the trading stores and, a one-off adjustment of RM122.5 million in stock-related charges following from the adoption of a forward-looking provisioning methodology which is adopted group-wide in Tesco Plc. The Group's share of the one-off charge amounted to RM89.2 million, net of tax.

Group revenue at RM12.9 billion for the quarter ended 30 June 2015 was an increase of 28.7% compared to the preceding quarter. Group profit before tax for the quarter jumped 91.5% to RM1,139.9 million largely due to higher contribution from all business segments. Net earnings of the Group improved significantly by 156.1% to RM988.7 million against RM386.0 million in the preceding quarter.

#### a) Plantation

Profit from Plantation surged by 391.4% in the current quarter compared to the preceding quarter. The steep increase was mainly due to the contribution from NBPOL of RM95.1 million (preceding quarter: RM7.5 million), higher average CPO price realised of RM2,242 per tonne against RM2,209 per tonne in the preceding quarter, and the sharp increase in the FFB production in Malaysia and Indonesia of 35.5% and 14.3% respectively.

Profit from midstream and downstream operations dropped to RM25.4 million from RM39.6 million in the preceding quarter mainly due to poor performance from oil and fats segments.

## b) Industrial

Contribution from Industrial division rose by 58.8% to RM125.8 million largely due to improved results registered in Australia, Singapore and China/Hong Kong. Australia and Singapore reported higher sales from product support businesses to the mining and construction sectors respectively, whilst China/Hong Kong registered higher equipment and engines deliveries post the festive season in February 2015.

# B2. Material Changes in Profit for the Current Quarter as Compared to the Results of the Preceding Quarter (continued)

#### c) Motors

Motors division's profit jumped by 71.6% to RM142.4 million in the current quarter due to higher profit from all regions except Singapore and Vietnam operations.

The results for Malaysia included a dividend income of RM53.4 million whilst the gradual recovery in sales post GST was subdued due to the effect of appreciation of US Dollar against Ringgit Malaysia. Australia and New Zealand recorded higher profit due to the improved performances from BMW and Trucks operations. China/Hong Kong operations was flattish due to lower contribution from BMW operations despite the improvement in super luxury segments. Singapore and Vietnam registered higher revenue but margins narrowed due to intense competition.

#### d) Property

The higher profit from Property was primarily due to the gain on disposal of 50% equity interest in Sime Darby Sunsuria Development Sdn Bhd of RM157.2 million and higher contribution from Bukit Raja and Denai Alam.

#### e) Energy & Utilities

Energy & Utilities contributed a profit of RM37.3 million in this quarter compared to RM19.0 million in the preceding quarter. The higher profit was largely due to the adjustment for litigation and other provisions and higher contribution from water operations despite the loss on disposal of dredgers amounting to RM24.1 million.

#### f) Others

Other businesses comprising of Healthcare and insurance brokerage, recorded a profit of RM12.7 million for the quarter against the loss in the preceding quarter, which includes the Group's share of the one-off impairment charge by Tesco Stores (Malaysia) Sdn Bhd of RM89.2 million, net of tax.

#### **B3.** Prospects

The global economy remains challenging and is compounded by the escalating effects of the economic slowdown in China and its currency devaluation. However, economic conditions in the United States and Europe are increasingly more positive. The weak crude oil and commodity prices, coupled with the uncertainty of interest rate hikes and the volatile foreign exchange rates have resulted in continued tough operating conditions in the respective markets where the Group operates.

Crude palm oil (CPO) prices are expected to continue to remain depressed due to the anticipation of higher output of fresh fruit bunches (FFB) in the upcoming months and good production of other competing vegetable oils. The demand for biodiesel has been affected by the lower crude oil prices. The Plantation division's strategic thrust to expand its planted hectarage has borne fruit with the completion of the acquisition of New Britain Palm Oil Limited (NBPOL) in March 2015. Contribution from NBPOL is expected to increase in the coming years as the division continues to drive its synergy values and leverage for growth in Papua New Guinea. As a long-term measure, the division will continue to drive for greater cost efficiency and productivity improvements including, replanting programmes to increase yield and oil extraction rate.

The Industrial division continues to be plagued by the prolonged slump in coal prices and further exacerbated by the slowdown in economic growth, particularly in China. The effect of the slowdown has resulted in low equipment deliveries for the mining, construction, agriculture and power generation sectors. To mitigate the impact, the division had taken aggressive measures to proactively drive cost savings and re-balance manpower requirements to match demand. Going into the new financial year, the division expects demand for product support and services to increase and the benefits of the cost reductions from its earlier initiatives to contribute positively to its operations.

In Malaysia, the Motors operations, which were gradually improving post the Goods and Services Tax (GST), will be adversely impacted by continued soft market sentiment, tighter lending policies and the weakening of Ringgit Malaysia against the US Dollar and other major currencies. The stock market correction and continued government austerity policy in China will continue to affect demand for luxury brands of motor vehicles. However, the expansion of the division's footprint in Australia and into Vietnam in the previous year, has improved its contribution pool and growth prospects. To improve margins and its competiveness, the division will continue to drive for operational consolidation and cost efficiency.

The Malaysian residential property market is expected to remain subdued due to cautious consumer spending and tighter lending policies. Nevertheless, demand for the Property division's landed properties in the Greater Kuala Lumpur Region, such as the City of Elmina, Nilai and Bandar Bukit Raja townships continue to remain strong. The strategic location of the Division's landbank within proximity to transportation hubs and new growth areas, particularly the large landbank within the Vision Valley under the 11<sup>th</sup> Malaysia Plan augurs well for future growth and sustainability of the Division. On the international front, the development work on Phase 1 of the Battersea Development Project is progressing well and completion is expected towards end of 2016, which would enable the Division to recognise the contribution from this investment.

In the Energy & Utilities division, Weifang Port continues to face stiff competition from neighbouring ports following the slowdown in economic activities and also stringent government legislations. The division's ongoing expansion programme to handle larger capacity vessels, increase its berthing capacity and expand its cargo range through strategic partnerships would continue to support throughput growth in the future. In addition, the Jining Ports have increased their capacities and have become a strategic centre for land transit facility for coal handling in the region.

Against the backdrop of economic uncertainty and difficult market conditions, barring any unforeseen circumstances, the Board expects the Group's performance for the financial year ending 30 June 2016 to be satisfactory.

#### B4. Statement by Board of Directors on Internal Targets

The Group's key performance indicators (KPI) as approved by the Board of Directors on 27 November 2014 and the results achieved by the Group for the financial year ended 30 June 2015 are as follows:

	Actual Year ended 30 June 2015	Target Year ended 30 June 2015
Profit attributable to owners of the Company (RM million)	2,312.8	2,500
Return on average shareholders' equity (%)	7.8	8.5

The results of the Group were adversely affected by the lower than forecasted CPO prices, low commodity prices and weak market sentiment. Consequently, the profit attributable to owners of the Company and the return on average shareholders' equity were lower than the targets announced by 7.5% and 8.2% respectively.

In addition, the low effective tax rate for the financial year is due to recognition of deferred tax assets amounting to RM105.0 million on temporary differences between tax base and accounting base of certain assets.

The effective tax rates for the corresponding periods in the previous year were also lower compared to Malaysian income tax rate of 25% due to adjustment to the deferred tax arising from changes in real property gains tax rate, and the recognition of deferred tax assets amounting to RM167.4 million on temporary differences between tax base and accounting base of certain assets.

#### B11. Material Litigation

Changes in material litigation since the date of the last audited annual statement of financial position up to 18 August 2015 are as follows:

a. <u>Qatar Petroleum Project (QP Project)</u>, Maersk Oil Qatar Project (MOQ Project) and the Marine Project Civil Suits (O&G Suit)

On 23 December 2010, Sime Darby Berhad (SDB), Sime Darby Engineering Sdn Bhd, Sime Darby Energy Sdn Bhd, Sime Darby Marine Sdn Bhd and Sime Darby Marine (Hong Kong) Pte Ltd (collectively, the Plaintiffs) filed a civil suit in the High Court against Dato' Seri Ahmad Zubair @ Ahmad Zubir Hj Murshid (DSAZ), Dato' Mohamad Shukri Baharom (DMS), Abdul Rahim Ismail, Abdul Kadir Alias and Mohd Zaki Othman (collectively, the Defendants) claiming, inter alia, damages arising from the Defendants' negligence and breaches of duty in relation to the Qatar Petroleum Project (QP Project), the Maersk Oil Qatar Project (MOQ Project) and the project relating to the construction of marine vessels known as the Marine Project. The aggregate amount claimed was RM329,744,755 together with general and aggravated damages to be assessed and other relief.

On 13 June 2014, all the Defendants consented to judgment being recorded on the following terms (Consent Judgment):

- i. Judgment be entered for the Plaintiffs in respect of the claims as set out in Prayers (1), (2), (3), (4), (5), (6),(7), (8) and (9) of the Statement of Claim dated 23 December 2010;
- ii. The amount of damages in respect of these claims is to be assessed by the Court except for the matters pleaded with respect to Incobliss Consulting Sdn Bhd, and thereupon final judgment be entered against the Defendants for the assessed amount with costs; and
- iii. The Plaintiffs shall be permitted to levy execution upon any such final judgment or otherwise enforce the same against any of the Defendants only upon the Plaintiffs recovering all claims from the respective employers for the QP Project and the MOQ Project and the proceeds of sale of the derrick lay barge in regards to the Marine Project or after the expiry of 3 years from the date when final judgment for the assessed amount is entered, whichever is the earlier.

With the filing of the Consent Judgment, the issue of the Defendants' liability has now come to an end.

The amount of damages will be assessed by the Court. The Plaintiffs filed a Notice of Appointment for assessment of damages (Notice of Appointment). At the hearing of the Notice of Appointment on 9 September 2014, the Plaintiffs' counsel informed the Court that assessment of damages at this juncture was premature and requested that assessment be deferred until the Plaintiffs are in a position to assess damages. The Court directed that the Plaintiffs be at liberty to file the Notice of Appointment within 1 year of the date of the Consent Judgment or such further time as may be granted by the Court upon application by the Plaintiffs.

On 5 June 2015, the Plaintiffs filed a Notice of Application for extension of time to file the Notice of Appointment (Application for Extension). The Application for Extension was made on the basis that the legal action commenced by Sime Darby Engineering Sdn. Bhd. in Doha against Qatar Petroleum in relation to outstanding invoices and costs overruns is still ongoing, and the outcome of this action will have a direct effect on the quantum of damages that will be assessed in respect of the QP Project. At the hearing of the Application for Extension on 6 July 2015, the Court granted an extension of 1 year (from 13 June 2015) for the Plaintiffs to file the Notice of Appointment.

b. Bakun Hydroelectric Project (Bakun Project) and the Indemnity Agreement Civil Suits (Bakun Suit)

On 24 December 2010, Sime Darby Berhad (SDB), Sime Engineering Sdn Bhd, Sime Darby Holdings Berhad (SDHB) and Sime Darby Energy Sdn Bhd (collectively, the Plaintiffs) filed a civil suit in the High Court against Dato' Seri Ahmad Zubair @ Ahmad Zubir Hj Murshid (DSAZ), Dato' Mohamad Shukri Baharom (DMS) and Abdul Rahim Ismail (collectively, the Defendants) claiming, inter alia, damages in connection with the Defendants' negligence and breaches of duty in relation to the Package CW2-Main Civil Works for the Bakun Hydroelectric Project (Bakun Project) and in respect of the Receipt, Discharge and Indemnity Agreement dated 12 January 2010 (Indemnity Agreement) given to DMS. The aggregate amount claimed was RM91,351,313.49 together with general and aggravated damages to be assessed and other relief.

On 13 June 2014, all the Defendants consented to judgment being recorded on the following terms (Consent Judgment):

- i. Judgment be entered for the Plaintiffs in respect of the claims as set out in Prayers (1), (2), (3), (4), (7), (8) and (9) of the Statement of Claim dated 24 December 2010;
- ii. The amount of damages in respect of these claims are to be assessed by the Court and thereupon final judgment be entered against the Defendants for the assessed amount with costs; and
- iii. The Plaintiffs shall be permitted to levy execution upon any such final judgment or otherwise enforce the same against any of the Defendants only upon the Malaysia-China Hydro Joint Venture receiving all that is due and payable as full settlement from Sarawak Hidro Sdn Bhd or the Ministry of Finance and/or an assignee or successor in title thereof in relation to the Bakun Project or after the expiry of 3 years from the date when final judgment for the assessed amount is entered, whichever is the earlier.

With the filing of the Consent Judgment, the issue of the Defendants' liability has now come to an end.

The amount of damages will be assessed by the Court. The Plaintiffs filed a Notice of Appointment for assessment of damages (Notice of Appointment). At the hearing of the Notice of Appointment on 9 September 2014, the Plaintiffs' counsel informed the Court that assessment of damages at this juncture was premature as the final accounts with Sarawak Hidro Sdn Bhd have not been closed and requested that assessment be deferred until the Plaintiffs are in a position to assess damages. The Court directed that the Plaintiffs be at liberty to file the Notice of Appointment within 1 year of the date of the Consent Judgment or such further time as may be granted by the Court upon application by the Plaintiffs.

On 5 June 2015, the Plaintiffs filed a Notice of Application for extension of time to file the Notice of Appointment (Application for Extension). The Application for Extension was made on the basis that the final accounts with Sarawak Hidro Sdn Bhd have yet to be finalized and therefore the Plaintiffs are not in a position to ascertain the full extent of the Plaintiffs' overall losses arising from the Bakun Project. At the hearing of the Application for Extension on 6 July 2015, the Court granted an extension of 1 year (from 13 June 2015) for the Plaintiffs to file the Notice of Appointment.

#### c. <u>Emirates International Energy Services (EMAS)</u>

Emirates International Energy Services (EMAS) had on 13 January 2011, filed a civil suit in the Plenary Commercial Court in Abu Dhabi against Sime Darby Engineering Sdn Bhd (SDE) (First Suit) claiming payment of USD178.2 million comprising (a) a payment of USD128.2 million for commissions; and (b) a payment of USD50.0 million as "morale compensation".

SDE filed its Statement of Defence and Counter Claim for the sum of AED100 million on 14 August 2011. SDE's Statement of Defence contained a request for the matter to be referred to arbitration and on 22 August 2011, the Court dismissed the First Suit. EMAS did not appeal against the Court's decision.

#### B11. Material Litigation (continued)

Changes in material litigation since the date of the last audited annual statement of financial position up to 18 August 2015 are as follows: (continued)

- c. Emirates International Energy Services (EMAS) (continued)
  - i. Proceedings at ADCCAC

On 11 December 2011, EMAS submitted a request for arbitration to the Abu Dhabi Commercial Conciliation & Arbitration Centre (ADCCAC). On 14 February 2012, SDE's counsel filed and submitted the response to EMAS's notice of arbitration to ADCCAC.

The arbitration has been stayed pending the disposal of a second suit filed by EMAS at the Judicial Department of Abu Dhabi (Second Suit).

Following the dismissal of the Second Suit by the Supreme Court on 25 December 2014, on 24 May 2015 EMAS submitted an application to proceed with the arbitration proceedings before the ADCCAC.

On 7 June 2015, SDE filed its response and challenged the ADCCAC's jurisdiction on the ground that the Agency Agreement entered into between EMAS and SDE stipulated that any dispute shall be settled by reference to the Rules of Commercial Conciliation and Arbitration of the Dubai Chamber of Commerce and Industry (DIAC). ADCCAC has instructed EMAS to file its response to SDE's challenge by 24 June 2015. The matter is now pending the ADCCAC's further instructions.

ii. Proceedings at the Judicial Department of Abu Dhabi

On 31 March 2012, EMAS filed the Second Suit against SDE. The claim of USD178.2 million by EMAS was based on the same facts and grounds as the First Suit.

After several Court hearings on procedural matters, the Court on 11 June 2013 appointed a court expert specialising in commercial agencies. On 30 July 2013, the court expert released his report recommending SDE to pay EMAS compensation of approximately USD11,240,000.

On 5 March 2014, the court expert submitted his supplemental report (which maintained the earlier findings). On 18 May 2014, despite the objection of both SDE and EMAS to the court expert's supplemental report, the Court issued judgment for the sum of AED41,046,086 (approximately USD11,174,864) against SDE.

Both SDE and EMAS appealed to the Court of Appeal against the Court's decision.

On 2 July 2014, the Court of Appeal reversed the finding of the Court. The Court of Appeal, in its judgment, held that the Court is barred from making its ruling on the case due to res judicata (i.e a party cannot bring the same issue before the court once it has been decided) ("Court of Appeal's Decision").

On 1 September 2014, EMAS filed an appeal to the Supreme Court against the Court of Appeal's Decision. On 25 December 2014, the Supreme Court dismissed EMAS's appeal against the Court of Appeal's Decision. SDE's counsel has advised that by virtue of the Supreme Court's decision, EMAS has effectively exhausted all its avenues in the Abu Dhabi courts in pursuing its claim against SDE.

On 24 May 2015, EMAS submitted an application to proceed with arbitration proceedings before the ADCCAC (refer (i) above).

#### d. Qatar Petroleum (QP) Statement of Claim

On 15 August 2012, Sime Darby Engineering Sdn Bhd (SDE) filed a Statement of Claim at the Qatar Court against Qatar Petroleum (QP) for the sum of QAR1,005,359,061. The claim seeks the repayment of a liquidated performance bond, payment of outstanding invoices, compensation and additional costs incurred in relation to an offshore engineering project in Qatar undertaken by SDE pursuant to a contract dated 27 September 2006. However, the contract came into effect much earlier on 15 April 2006 and SDE had commenced work since then.

On 28 November 2012, QP filed its Statement of Defence. On 28 February 2013, in its reply to QP's Statement of Defence, SDE made an upward revision to the amount claimed in respect of the performance bond. The total claim currently stands at QAR1,008,115,825 (approximately USD277,053,378).

On 30 April 2013, the Court ordered the case to be transferred to the Administrative Court and on 18 June 2013, a panel of 3 experts (comprising an accountant and two engineering technicians) were appointed to assist the Court.

Between October 2013 and April 2014, there were several court hearings to resolve the appointment of the court experts and finally on 15 May 2014, a new panel of experts were appointed. The Court adjourned the matter to 1 April 2015 for the new experts to meet with the parties and to prepare their report.

The meetings between the experts and representatives from SDE and QP were held on 23 June 2014 and 23 October 2014, respectively. On 1 April 2015, the experts submitted their report and recommended that SDE be compensated the sum of QAR13,518,819.00 (equivalent USD3,712,294) (Expert Report). On 14 April 2015, SDE and QP submitted their respective statements objecting to the Expert Report. On 5 May 2015, SDE submitted its closing submissions. The Court fixed the matter for decision on 28 May 2015 which was subsequently adjourned to 16 June 2015.

At the hearing on 16 June 2015, the Court directed the parties to submit additional documents in respect of the issues raised by the Court. On 1 July 2015, the parties submitted their closing submissions. On 29 July 2015, the Court directed the experts to review their report and instructed them to submit the same on or before 6 October 2015.

#### e. Swiber Offshore Construction Pte Ltd (SOC) Notice of Arbitration

Swiber Offshore Construction Pte Ltd (SOC) and Sime Darby Engineering Sdn Bhd (SDE) entered into Consortium Agreement dated 3 July 2010 (CA) to govern their relationship as a consortium for the Process Platform for B-193 Project (Project) awarded by Oil and Natural Gas Corporation Ltd (ONGC) via a Notification of Award dated 19 May 2010 for a total contract price of USD618,376,022.

Disputes and differences relating to the Project have since arisen between SOC and SDE.

On 29 August 2013, SDE received a Notice of Arbitration dated 28 August 2013 (Notice) from SOC to refer, pursuant to the provisions of the CA, the disputes and differences in relation to its claim against SDE to arbitration before the Singapore International Arbitration Centre (SIAC) in accordance with the UNCITRAL Rules. The claim from SOC as stated in the Notice is USD47,217,857.

On 30 September 2014, the parties executed a Settlement Agreement and on 20 November 2014, SDE paid the sum of USD12 million to SOC being full and final settlement of the claim. SOC has withdrawn the Notice of Arbitration on 21 November 2014.

On 5 December 2014, the tribunal declared the termination of the arbitration with immediate effect. Consequently, the arbitration proceedings have now come to an end.

On 20 March 2015, the Consortium informed ONGC of its objection to the OEC's recommendation and sought a higher amount of compensation. On 19 April 2015, ONGC rejected the Consortium's request.

The Consortium is now preparing its case for arbitration in India and has appointed Indian counsels to represent the Consortium.
