For the first six months of the financial year under review, the Group posted 7% higher revenue of RM1,392 million compared to RM1,298 million recorded last year. This was mainly due to the higher revenue registered by our steel and building materials divisions. The Group reported a significant lower operating loss of RM22.9 million compared with RM147.8 million a year ago mainly due to the lower loss from the steel division. The Group recorded an RM191.9 million gain on settlement of secured debts pursuant to the debts settlement arrangement as disclosed in Note 9. The shared of losses from associated companies and a joint venture was lower at RM12.7 million compared with RM33.7 million in the previous year. Overall, the Group posted a profit before tax of RM141.7 million against a loss of RM206.0 million in the last financial period. The Group's net assets per share as at 31 December 2020 was RM1.99, an increase of 15 sen from that of the last financial year.

Steel

Steel division recorded a higher revenue of RM1,206 million compared to RM1,146 million in the same period last year. The higher revenue was mainly due to the higher sales volume and selling prices. Accordingly, the division reported a significantly lower loss from operations of RM1.5 million compared with RM147.0 million last year.

Building materials

Revenue increased by 24% to RM251.8 million as compared to RM202.3 million a year ago, mainly from the higher sales of non-steel building materials. The Division accordingly posted a higher profit of RM2.4 million as compared to RM1.4 million a year ago.

Others

Revenue of RM60.1 million was mainly from the sales of lubricants, automotive and petroleum products, as well as the provision of management services and property development projects. The lower revenue was mainly due to the lower management fee charged. The division recorded a higher loss of RM23.9 million for the period under review mainly due to the expenses incurred for corporate exercises and administrative expenses.

Associated companies and joint venture

The share in the loss of associated companies and a joint venture was largely attributable to the loss from the retail business.

Exceptional item

During the previous financial period, the exceptional item comprised a write down of inventories to their net realisable value of RM17.6 million.

12. Comment on material change in profit

	Current Year Quarter 31.12.2020 RM'000	Immediate Preceding Quarter 30.9.2020 RM'000	Changes %
