For the quarter ("4Q2020") under review, the Group's revenue was RM89.0 million, a decrease of RM47.0 million or 34.6% as compared to the preceding year corresponding quarter ("4Q2019") of RM136.1 million. The Group recorded a loss before tax of RM21.8 million in 4Q2020, RM35.7 million lower as compared to 4Q2019's loss before tax of RM57.6 million. Higher loss before tax in 4Q2019 was mainly attributed to an one-off impairment of goodwill related to a timber subsidiary amounted to RM19.6 million.

Performance of respective segments for the financial quarter/period ended 31 December 2020 as compared to the preceding year corresponding financial quarter/period are analysed as follows:

#### **Timber**

For 4Q2020, the lower revenue was mainly attributed to depressed market conditions and prices of timber products. However, a lower loss before tax was recorded in 4Q2020 as compared to 4Q2019, mainly attributed to the cost optimisation and production curtailment measures implemented by the Group. For log business, the volume and revenue has decreased by 31% and 49% respectively as compared to 4Q2019. Meanwhile, the revenue of plywood business during the quarter has decreased by 51% as compared to 4Q2019.

#### **Plantation**

For 4Q2020 under review, the revenue recorded was RM22.2 million, an increase of RM1.7 million or 8%, as compared to RM20.5 million in 4Q2019. The increase in revenue during the quarter was attributed to the improved average selling price of crude palm oil ("CPO") and palm kernel ("PK") as compared to 4Q2019. However, the segment recorded a higher loss before tax of RM11.6 million in 4Q2020, mainly attributed to the lower fresh fruit bunch ("FFB") yield resulted from poor weather and higher rehabilitation expenses incurred for the new estate acquired in 3Q2020.

## **Manufacturing and Trading**

The division recorded a revenue of RM17.2 million in 4Q2020 as compared to RM16.0 million in 4Q2019, representing an increase of RM1.2 million. The higher revenue in 4Q2020 was attributed to increase in export sales for tapes products, particularly to North America.

## 24. Commentary on prospects

#### a) Timber

In view of the depressed market condition for timber products, the outlook of timber segment remains challenging. The Group is cautious on the depressed market condition for timber businesses and is implementing the numerous production curtailment and consolidation programmes to optimise the costs structures and preserve cash.

#### b) Plantation

The outlook of plantation segment is generally vulnerable to the demand and supply of the commodities, weather condition, import policies of major importing countries and labour shortage. With the expectation of stable CPO prices and increase in palms' maturity into prime age production cycle, the Group remains cautiously optimistic on the outlook of plantation segment.

## c) Tapes

The tapes business has recovered from the lockdown measure to contain the COVID-19 pandemic and has received strong orders from its foreign customers. The Group remains cautiously optimistic on the outlook of tapes business and is determined on product innovation and differentiation to remain competitive.

Amidst the uncertainties caused by COVID-19 pandemic, the Group is taking a cautious view over the outlook of the businesses and will continue to ensure a more prudent focus on preserving cash and liquidity of the Group. Nonetheless, the Board will continue to review our business strategies and is confident that the Group is able to leverage on its strong cash reserves and sufficient borrowing facilities where necessary to navigate through the challenges.
