For the current quarter ("2Q2024") under review, the Group reported a revenue of RM174.4 million, an increase of 30% as compared to the preceding year corresponding quarter ("2Q2023") of RM134.5 million. The increase in revenue was mainly attributed by the higher revenue recorded by plantations segment. The Group registered a lower profit before tax of RM4.7 million in 2Q2024 as compared to RM11.5 million in 2Q2023. The lower profit before tax was mainly attributed to the absence of a one-off gain on bargain purchase as compared to preceding year corresponding financial quarter.

Performance of respective segments for the financial quarter/period ended 30 June 2024 as compared to the preceding year corresponding financial quarter/period are analysed as follow:

Timber

The revenue for 2Q2024 was RM56.6 million, an increase of RM9.2 million as compared to RM47.4 million in 2Q2023. Meanwhile, the loss before tax for 2Q2024 was RM1.4 million, a decrease of RM1.2 million as compared to RM2.6 million in 2Q2023. The increase in revenue and lower loss before tax was mainly attributed to the higher sales volume of timber products recorded during the financial quarter.

Plantation

The revenue for 2Q2024 was RM75.1 million, an increase of RM24.2 million as compared to RM50.9 million in 2Q2023. The increase in revenue and profit before tax was mainly attributed to the increase in fresh fruit bunches ("FFB") production and contribution from the newly acquired estates and palm oil mill.

Tapes

The revenue for 2Q2024 was RM15.2 million, a decrease of RM1.1 million as compared to RM16.3 million in 2Q2023. The decrease in revenue was mainly attributed to lower demand for tape and related products.

Food

The revenue for 2Q2024 was RM27.2 million, an increase of RM6.6 million as compared to RM20.6 million in 2Q2023. The revenue and profit before tax increased during the financial quarter attributed to a greater variety of products and increased consumer demand.

Others

The revenue for others segments is mainly generated by rental, interest income from the investment holding companies, amusement and recreation activity. The Group recorded a loss before tax of RM2.4 million in 2Q2024, mainly attributed to the reclassification of certain companies that are no longer engaged in timber-related activities from the Timber segment.

For 2Q2024 under review, the Group reported a revenue of RM174.4 million, an increase of RM15.4 million or 10% as compared to the preceding quarter ("1Q2024") of RM159.0 million. The Group recorded a profit before tax of RM4.7 million in 2Q2024, a decrease of RM0.6 million as compared to 1Q2024 of RM5.3 million. There was a one-off gain on bargain purchase of RM7.7 million related to the acquisition of 70% shares in Durafarm recognised in 1Q2024 by plantation segment.

Performance of respective segments for the respective financial quarter as compared to the preceding quarter are analysed as follow:

Timber

As compared to the preceding quarter, higher revenue and lower loss before tax registered for 2Q2024 was mainly attributed to higher sales volume of log products.

Plantation

Tapes

As compared to the preceding quarter, the revenue and profit before tax decreased was mainly attributed to lower demand for tape and related products.

Food

As compared to the preceding quarter, the increase in revenue was mainly attributed to the increase in consumer demand during the festive seasons.

Others

The revenue for others segments is mainly generated by rental, interest income from the investment holding companies, amusement and recreation activity.

24. Commentary on prospects

a) Timber

The timber business of the Group continues to face challenges with logs supply and plywood production is anticipated to slow down due to stricter operational requirements related to timber certifications and softer demand from importing countries. Whilst the losses from the timber business in first half of 2024 were narrowed through improved production efficiency and costs control, the Group remains cautious about the outlook for the timber businesses for the financial year ending 31 December 2024.

b) Plantation

CPO price fluctations are affected by various market sentiments such as supply and demand of palm oil, biodiesel demand and global production and demand of substitute crops. Despite the uncertainty in external factors, the Group continues to focus on optimising its operational efficiency via mechanisation, improving production yield and prioriting on effective cost control measures. With anticipation of steady demand for CPO and increasing production from the newly acquired BHB plantation and Durafarm plantation, the plantation business is expected to achieve an improved performance and serve as the growth catalyst for the financial year ending 31 December 2024.

c) Tapes

The tapes business is highly competitive due to the market uncertainties, rising raw material costs and dumping of Chinese tapes products. The Group is focusing on enhancing brand awareness as well as to strengthening the domestic and export markets through improved product quality. Additionally, the new cellulose tape coating machine and solvent recovery system upgraded in 2023, also enables the Group to improve operational efficiency and cost competitive advantage. Whilst the first half performance of the tapes business was encouraging, we remain cautious about the outlook for the financial year ending 31 December 2024, in view of the competitive nature of the business.

d) Food

The demand for frozen food with higher shelf life has significant increased since the outbreak of COVID-19 pandemic. In anticipation of increasing demand of frozen food, the Group has expanded the capacity of the cold room and the range of frozen products being distributed. The food business is expected to perform satisfactorily for the financial year ending 31 December 2024.

Barring any unforeseen circumstances, the Group anticipates a satisfactory financial performance for the financial year ending 31 December 2024.
