For the current quarter ("3Q2024") under review, the Group reported a revenue of RM167.6 million, an increase of 6% as compared to the preceding year corresponding quarter ("3Q2023") of RM157.9 million. The increase in revenue was mainly attributed by the higher revenue recorded by plantation segment. The Group registered a lower profit before tax of RM2.6 million in 3Q2024 as compared to RM7.1 million in 3Q2023.

Performance of respective segments for the financial quarter/period ended 30 September 2024 as compared to the preceding year corresponding financial quarter/period are analysed as follow:

Timber

The revenue for 3Q2024 was RM47.2 million, an increase of RM0.4 million as compared to RM46.8 million in 3Q2023. Meanwhile, the loss before tax for 3Q2024 was RM2.5 million, a decrease of RM2.7 million as compared to RM5.2 million in 3Q2023. The increase in revenue and lower loss before tax was mainly attributed to higher sales volume and improved production efficiency.

Plantation

The revenue for 3Q2024 was RM78.9 million, an increase of RM4.2 million as compared to RM74.7 million in 3Q2023. The increase in revenue was primarily due to higher production of fresh fruit bunches (FFB), contributions from newly acquired estates and favorable FFB selling prices. Lower profit before tax in 3Q2024 was mainly attributed to higher replanting and cultivation costs incurred for the period.

Tapes

The revenue for 3Q2024 was RM16.3 million, a decrease of RM0.2 million as compared to RM16.5 million in 3Q2023. Lower profit before tax was mainly attributed to unrealised foreign exchange loss resulted from the appreciation of MYR against USD as of 30 September 2024.

Food

The revenue for 3Q2024 was RM25.6 million, an increase of RM5.1 million as compared to RM20.5 million in 3Q2023 and the profit before tax increased in tandem with the higher revenue.

Others

The revenue for others segments is mainly generated by rental, interest income from the investment holding companies, amusement and recreation activity. In 2024, the Group reclassified certain companies that are no longer engaged in timberrelated activities from the Timber segment to the Others segment.

For 3Q2024 under review, the Group reported a revenue of RM167.6 million, a decrease of RM6.8 million or 4% as compared to the preceding quarter ("2Q2024") of RM174.4 million. The Group recorded a profit before tax of RM2.6 million in 3Q2024, a decrease of RM2.1 million as compared to 2Q2024 of RM4.7 million.

Performance of respective segments for the respective financial quarter as compared to the preceding quarter are analysed as follow:

Timber

As compared to the preceding quarter, the lower revenue and higher loss before tax registered for 3Q2024 were mainly attributed to decrease in the sales volume of timber products resulting from soft market demand especially for plywood products.

Plantation

As compared to the preceding quarter, the higher revenue and profit before tax registered for 3Q2024 were mainly driven by increased of FFB and CPO sales volumes during the peak crop production months.

Tapes

As compared to the preceding quarter, the decrease in profit before tax was mainly due to unrealised foreign exchange losses resulted from the appreciation of MYR against USD as of 30 September 2024.

Food

As compared to the preceding quarter, the decrease in revenue was mainly due to slowing in consumer demand after the festive seasons (i.e. Gawai and Hari Raya).

Others

The revenue for others segments is mainly generated by rental, interest income from the investment holding companies, amusement and recreation activity.

24. Commentary on prospects

a) Timber

The timber business of the Group continues to face challenges of soft demand and stricter sustainability requirements. Whilst the losses from the timber business in first half of 2024 were narrowed through improved production efficiency and costs control, the Group remains cautious about the outlook for the timber businesses for the financial year ending 31 December 2024.

b) Plantation

CPO prices may be influenced by various market sentiments, including the supply and demand of palm oil, biodiesel demand and global production and demand of substitute crops. Despite the uncertainty in external factors, the Group remains focused on optimising its operational efficiency through mechanisation, improving production yield and prioritizing effective cost control measures. With the anticipated steady demand for CPO and increased production from the newly acquired BHB and Durafarm plantations, the plantation business is expected to achieve satisfactory performance and serve as the growth catalyst for the financial year ending 31 December 2024.

c) Tapes

The Group continues to strengthen its presence in both domestic and export markets through superior product quality. Additionally, the new cellulose tape coating machine and solvent recovery system, upgraded in 2023, enable the Group to improve operational efficiency and maintain a cost competitive advantage. However, given the competitive nature of the business and foreign exhange rate volatility, we remain cautious about the outlook for the financial year ending 31 December 2024.

d) Food

The demand for frozen food with a longer shelf life has significant increased since the outbreak of COVID-19 pandemic. With expansion in cold room capacity and a diversified range of frozen products, the Group is well-positioned to meet the rising demand of frozen food. The food business is expected to perform satisfactorily for the financial year ending 31 December 2024.

Barring any unforeseen circumstances, the Group anticipates a satisfactory financial performance for the financial year ending 31 December 2024.
