## **Management Commentary**

#### **COMPANY PERFORMANCE**

- Quarterly net profit after tax of RM 357 million
- Over 8.6 million man-hours without "Lost-Time-Injury" since May 2001

The Company posted an after-tax net profit of RM 357 million for the second quarter of 2008 as compared to RM168 million recorded in the same quarter last year. The stockholding gains net of tax for Q2 2008 was RM 281 million as compared to RM 40 million for Q2 2007. The high stockholding gain has also resulted in a higher net profit compared to first quarter 2008 (increase of RM 235 mil or 191%).

The refinery processed 8.7 million barrels of crude oil and sold 9.1 million barrels of products during the quarter. The Company's continued strong focus on safety has allowed it to sustain zero Lost Time Injury (LTI) up to 30 June 2008, resulting in 8.6 million hours worked without any LTI since 21 May 2001.

The Company successfully completed its statutory 2008 Major Plant shutdown within cost and on schedule.

## **CURRENT YEAR PROSPECTS**

Refining margins are expected to be under pressure in the third quarter of 2008 due to reducing product demand. Any changes in oil prices will have an impact on the Company's financial results, given the stock accounting practice adopted by the Company.

The Company will continue to pursue operational excellence, proactive margin improvement and cost reduction, whilst maintaining strong Health, Safety and Environment performance.
