Management Commentary

COMPANY PERFORMANCE

- Third quarter loss of RM19 million
- Over 12 million man-hours without "Lost-Time-Injury" (LTI) since May 2001
- New 6000 tonnes per day diesel processing unit on schedule

The Company posted a lower after tax loss of RM19 million in Q3 2010, as compared to RM35 million in the same quarter of 2009. The loss is mainly due to low refining margins and stockholding losses. Stockholding losses after tax were recorded at RM13 million compared to stockholding gains of RM12 million in the corresponding period in 2009.

In the third quarter of 2010, the refinery processed 9.4 million barrels of crude oil and sold 10.0 million barrels of product.

The Company's continued strong focus on safety has allowed it to achieve 12 million hours worked without Lost Time Injury (LTI) since 21 May 2001 on 3 August 2010.

The Company received the Grand Award from Malaysian Society for Occupational Safety and Health (MSOSH) in July 2010 in recognising its superior occupational, safety and health performance for the fourth consecutive time.

The Company is on schedule to build a new 6,000 tonnes per day diesel processing unit, which will allow it to vary its feedstock options, increase diesel production and improve refining margins.

CURRENT YEAR PROSPECTS

Refining margins are expected to remain poor in Q4 2010 due to continued low global demand.
