INTERIM REPORT FOR THE THREE MONTHS ENDED 30 JUNE 2012

Part B: Additional Information Required By Bursa Malaysia Listing Requirements

B1 Review of Performance – YTD/Q2 2012 vs YTD/Q2 2011

The Company's revenue was RM3.6 billion, 55% higher than the same period last year. This is mainly attributed by lower production from May to June 2011 as a result of the major statutory Turnaround (MTA) which was completed in July 2011.

The Company posted after-tax losses of RM235 million in Q2 2012, compared to after-tax losses of RM27 million in Q2 2011 mainly due to stockholding losses after tax in Q2 2012 of RM203mil and weak refining margins compared to stockholding gains of RM16mil in Q2 2011. Refining margins continue to be weaken due to narrower crude-product spread as demand for sweet crude increased due to Japan energy crisis whilst demand for Mogas decreases.

In the second quarter of 2012, the refinery processed 9.2 million barrels of crude oil and sold 9.7 million barrels of product. The Company buys 55% of its crude from the Far East and Africa, with the remaining 45% coming from Malaysia.

The Company's unplanned downtime performance for Q2 2012 was 0.22% compared to the year's allowance of 1.7%.

B2 Variation of results against previous quarter – Q2 2012 vs Q1 2012

Against the previous quarter, the Company recorded revenue of RM3.6 billion, 4% lower due to decreased sales volume of 0.1 million barrels driven by weak margins and lower product prices in Q2 2012.

The Company posted an after-tax loss of RM235 million this quarter as compared to an after-tax profit of RM29 million in Q1 2012, largely contributed by stockholding losses.

(Incorporated in Malaysia)

Part B: Additional Information Required By Bursa Malaysia Listing Requirements (continued)

B3 Current Year Prospects

Refining margins are expected to be continuously under pressure for the rest of the year. The refinery's key focus areas are to improve its financial and operational performance including ensuring processing flexibility, cost competitiveness and high plant reliability. The refinery is also focusing on the expected completion and commissioning of the diesel processing unit in Q4 2012 to improve crude flexibility and upgrade products.

B4 Profit Forecast

We do not issue any profit forecast.

B5 Declaration of Dividend

The Board of Director has decided to declare an interim dividend of 5 sen (2011: 20 sens) per unit of share of RM1.00 each, less 25% Malaysian income tax in respect of the first half of the financial year ending 31 Dec 2012, payable on 31 Oct 2012 to the shareholders registered in the Record of Depositors at the close of business on 5 Oct 2012.
