INTERIM REPORT FOR THE THREE MONTHS ENDED 31 MARCH 2015

Part B: Additional Information Required By Bursa Malaysia Listing Requirements (continued)

B3 Current Year Prospects

The strong refining margins for Q1 was positively influenced by the lag in product pricing adjusting to crude pricing levels and delays in start up and stabilisation of new refining capacity in the region. Refinery margins remain uncertain and will be influenced by international supply and demand for petroleum products, and seasonal and cyclical factors.

Major maintenance turnaround is planned in the third quarter of 2015 for approximately seven weeks.

Maintaining strong operational performance and maintaining product quality will continue to remain the refinery's key focus area to maximize margin opportunities.

The structured review that was announced on 9th January 2015 is still in progress.

B4 Profit Forecast

We do not issue any profit forecast.
