The above Condensed Statement of Cash Flows should be read in conjunction with the audited financial statements for the financial year ended 31 December 2017 and the accompanying supplementary notes to these condensed financial statements.

A1 Basis of preparation

The condensed financial statements are unaudited and have been prepared in accordance with the requirements of MFRS 134 "Interim Financial Reporting" and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia ("BMSB"). These condensed financial statements also comply with IAS 34 Interim Financial Reporting issued by the International Accounting Standards Board. This report should be read in conjunction with the Company's audited financial statements for the financial year ended 31 December 2017.

The explanatory notes to this report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Company since the financial year ended 31 December 2017.

The functional currency of the Company is United States Dollar ("USD"). The Company present its condensed financial statements in Ringgit Malaysia, consistent with the requirements of Companies Act, 2016 which requires financial statements and reports to be quoted in Ringgit Malaysia.

The financial information presented herein have been prepared in accordance with the accounting policies used in preparing the audited financial statements for the financial year ended 31 December 2017, and for the following standards and interpretation which became effective on 1 January 2018:

(a) Standards and interpretations that are effective for financial year beginning 1 January 2018

- MFRS 9 "Financial Instruments"
- MFRS 15 "Revenue from Contracts with Customers"
- IC Interpretation 22 "Foreign Currency Transactions and Advance Consideration"

A1 Basis of preparation (continued)

(a) Standards and interpretations that are effective for financial year beginning 1 January 2018 (continued)

The main effects of the adoption of MFRSs and IC Interpretation above is summarised below:

• MFRS 9 "Financial Instruments"

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 and establishes three primary measurement categories for financial assets: amortised cost, fair value through profit or loss and fair value through other comprehensive income ("OCI"). The basis of classification depends on the entity's business model and the cash flow characteristics of the financial asset. Investments in equity instruments are always measured at fair value through profit or loss with an irrevocable option at inception to present changes in fair value in OCI (provided the instrument is not held for trading). A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest.

For liabilities, the standard retains most of the MFRS 139 requirements. These include amortised cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main changes are:

- For financial liabilities classified as fair value through profit or loss ("FVTPL"), the fair value changes due to own credit risk should be recognised directly to other comprehensive income. There is no subsequent recycling to profit or loss.
- When a financial liability measured at amortised cost is modified without this resulting in derecognition, a gain or loss, being the difference between the original contractual cash flows and the modified cash flows discounted at the original effective interest rate, should be recognised immediately in profit or loss.

A1 Basis of preparation (continued)

(a) Standards and interpretations that are effective for financial year beginning 1 January 2018 (continued)

• MFRS 9 "Financial Instruments" (continued)

MFRS 9 introduces an expected credit loss model on impairment that replaces the incurred loss impairment model used in MFRS 139. The expected credit loss model is forward-looking and eliminated the need for a trigger event to have occurred before credit losses are recognised.

The new hedge accounting rules aligns the accounting for hedging instruments more closely with the Company's risk management practices. As a general rule, more hedge relationships might be eligible for hedge accounting, as the standard introduces a more principles-based approach. Hedging relationships established as of 31 December 2017 continue to be treated as cash flow hedges upon adoption of MFRS 9.

The Company does not expect the requirements of the new standard to affect the classification and measurement of both its financial assets and financial liabilities. The expanded disclosure requirements and changes in presentation as required by the standard will be incorporated in the Company's financial statements for the financial year ending 31 December 2018.

A1 Basis of preparation (continued)

(a) Standards and interpretations that are effective for financial year beginning 1 January 2018 (continued)

• MFRS 15 "Revenue from Contracts with Customers"

MFRS 15 "Revenue from Contracts with Customers" effective from 1 January 2018 replaces MFRS 118 "Revenue" and related interpretations. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Revenue is recognised when a customer obtains control of goods or services, i.e. when the customer has the ability to direct the use of and obtain the benefits from the goods or services.

A new five-step process is applied before revenue can be recognised:

- Identify contracts with customers;
- Identify the separate performance obligations;
- Determine the transaction price of the contract;
- Allocate the transaction price to each of the separate performance obligations; and
- Recognise the revenue as each performance obligation is satisfied.

A1 Basis of preparation (continued)

- (a) Standards and interpretations that are effective for financial year beginning 1 January 2018 (continued)
 - MFRS 15 "Revenue from Contracts with Customers" (continued)

Key provisions of the new standard are as follows:

- Any bundled goods or services that are distinct must be separately recognised, and any discounts or rebates on the contract price must generally be allocated to the separate elements.
- If the consideration varies, minimum amounts of revenue must be recognised if they are not at significant risk of reversal.
- The point at which revenue is able to be recognised may shift: some revenue which is currently recognised at a point in time at the end of a contract may have to be recognised over the contract term and vice versa.
- There are new specific rules on licenses, warranties, non-refundable upfront fees and consignment arrangement, to name a few.
- As with any new standard, there are also increased disclosures.

The adoption of MFRS 15 did not result in any material changes to the timing and measurement of revenue recognition as the Company's recognition principles remain consistent with the previous accounting policies.

IC Interpretation 22 "Foreign Currency Transactions and Advance Consideration"

The IC Interpretation clarifies the determination of transaction date, which in turn will determine the exchange rate to be used in reporting foreign currency transactions that involve advance consideration paid or received. The adoption of the IC Interpretation did not have any material impact on the Company as the exchange rates applied are consistent with the clarification in IC Interpretation 22.

A1 Basis of preparation (continued)

(b) Standards, amendments to published standards and interpretations that are applicable to the Company but not yet effective

- MFRS 16 "Leases" (effective from 1 January 2019)
- Amendments to MFRS 112 Income Taxes (Annual Improvements to MFRS Standards 2015-2017 Cycle) (effective from 1 January 2019)
- Amendments to MFRS 123 Borrowing Costs (Annual Improvements to MFRS Standards 2015-2017 Cycle) (effective from 1 January 2019)

The adoption of these standards and amendments to published standards are not expected to have any material impact on the financial statements of the Company.

A2 Audit report of preceding annual financial statements

The audit report of the Company's financial statements for the financial year ended 31 December 2017 was not subjected to any audit qualification.

A3 Comments about seasonal or cyclical factors

The Company's financial performance is affected by market driven refinery margins and hydrocarbon prices, which are influenced by international supply and demand for crude and petroleum products and geopolitical factors.

A4 Significant events and transactions

There were no significant events or transactions affecting assets, liabilities, equity, net income, or cash flows for the financial period that were unusual due to their nature, size, or incidence.

A5 Critical accounting estimates and judgments

There were no changes in estimates of amounts reported in prior periods that had a material effect in the current quarter and period-to-date ended 31 March 2018.

A6 Debt and equity securities

There were no issuances of new debt and equity securities, share buy-backs, share cancellations, shares held as treasury shares and resale of treasury shares during the current quarter and period-to-date ended 31 March 2018.

A7 Segmental reporting

The Company is principally engaged in the business of refining and manufacturing of petroleum products in Malaysia, which is a single business segment. The Company's primary operations are also concentrated within Malaysia, hence operating within a single geographical segment. Accordingly, no segmental information is considered necessary for analysis by business or by geographical segments.

	20		20	

A12 Dividends

On 27 February 2018, the Directors declared a single-tier interim dividend of RM0.02 per share, amounting to RM6,000,000 in respect of the financial year ended 31 December 2017. The dividend was paid on 17 April 2018 to shareholders registered on the Record of Depositors at the close of business on 20 March 2018.

The Company did not declare any dividend for the current period and corresponding preceding quarter.

A13 Changes in the composition of the Company

There were no changes in the composition of the Company during the current quarter and period-to date ended 31 March 2018.

A14 Changes in contingent assets/liabilities

There were no significant changes in contingent liabilities or assets since the last audited annual financial statements as at 31 December 2017.

A15 Corporate proposal

There are no corporate proposals announced and not completed as at 31 March 2018.

A16 Material litigation

There were no material litigations involving the Company since 31 December 2017.

A17 Commodity prices and foreign currency exchange exposures

The Company's margins and financial performance are exposed to the risk of crude and refined product price fluctuations, driven by geopolitical forces and global economic changes. The Company aims to match the average price of its crude oil intake to the planned production of refined oil products, to manage the risks of margin erosion to an acceptable level. The Company may enter into futures, swaps, options and option derivatives to mitigate margin risks, but only whilst achieving an adequate balance between paper and physical positions.

The Company is also exposed to foreign currency exchange risks as a result of transactions entered into currencies other than its functional currency. Following the change of its functional currency from Ringgit Malaysia to the US Dollar, the Company's exposure to foreign currencies is now limited to financial assets and liabilities that are denominated in currencies other than the US Dollar. The USD denominated term loans are no longer exposed to foreign currency fluctuations. The Company may enter into foreign currency hedge transactions to manage this exposure.

The Company's financial risk management objectives and policies remain similar to that disclosed in the audited financial statement for the financial year ended 31 December 2017.

Derivatives outstanding as at 31 March 2018 (31 December 2017: within 12 months) will mature within the next twelve months.

A18 Fair value disclosures

(a) Financial instruments carried at amortised cost:

The carrying amounts of financial assets and liabilities of the Company approximated their fair values as at 31 March 2018.

(b) Financial instruments carried at fair value:

The Company measures fair value using the following fair value hierarchy that reflects the significance of the input used in making the measurements:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 inputs other than quoted prices included within level 1 that are observable for the financial asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 inputs for the financial asset or liability that are not based on observable market data (i.e. unobservable inputs).

A18 Fair value disclosures (continued)

(b) Financial instruments carried at fair value (continued):

Fair value of financial instruments that were outstanding as at the reporting date are detailed below:

	Contract/ Notional amount USD'000	Assets RM'000	(Liabilities) RM'000
Financial assets/(liabilities)			
Level 2			
<u>31.03.2018</u> Forward foreign currency contracts	90,000	_	(2,480)
Forward priced commodity contracts	141,622		(1,316)
Refining margin swap contracts	52,925	8,489	(8,960)
<u>31.12.2017</u>			
Forward foreign currency contracts	55,000	-	(1,462)
Forward priced commodity contracts	51,030	-	(7,731)
Refining margin swap contracts	40,826	3,498	(5,619)

There were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurement during the current quarter and period-to-date ended 31 March 2018. The fair values were obtained from published rates of counterparties.

A19 Borrowings

On 23 January 2018, the Company accepted banking facilities consisting of a mix of term loans and revolving credits of up to USD430,000,000 (approximately RM1,671,200,000). The facilities are utilised towards refinancing the Company's existing borrowings, partial financing of planned capital expenditure and meeting working capital requirements.

During the current quarter, term loans amounting to USD160,000,000 (equivalent to RM621,840,000) and revolving credit facilities amounting to USD110,000,000 (equivalent to RM427,515,000) were drawndown to fully refinance existing term loans. The new term loans are repayable in instalments over a 5-year period whilst the revolving credits are repayable within 12 months.

Details of the Company's borrowings as at the reporting date are as follows:

	As at <u>31.03.2018</u> RM'000	As at <u>31.12.2017</u> RM'000
Term loans (secured)	620,873	1,205,008
Revolving credits (secured)	427,397	-
	1,048,270	1,205,008
Less: Amount repayable within 12 months	(546,385)	(79,103)
	501,885	1,125,905
Currency profile of borrowings: - USD	1,048,270	1,205,008

Terms and conditions of the previous term loans are as disclosed in the audited financial statements for the financial year ended 31 December 2017.

A19 Borrowings (continued)

Detailed below are changes in liabilities arising from financing activities:

	RM'000	RM'000
As at		
- 1 January 2018	1,205,008	-
- 1 January 2017	-	1,416,913
Proceeds from borrowings	1,059,504	-
Repayment of borrowings (including		
accrued interest)	(1,188,818)	(144,978)
Non-cash changes:		
- Interest accrued	14,111	58,905
- Amortisation of term loan and		
commitment fees	14,260	3,870
 Foreign exchange difference upon 		
translation to presentation currency	(55,795)	(129,702)
As at		
- 31 March 2018	1,048,270	-
- 31 December 2017	-	1,205,008

A20 Cash and cash equivalents

	As at <u>31.03.2018</u> RM'000	As at <u>31.12.2017</u> RM'000
Cash and cash equivalents comprise of:		
Deposits with licensed banks	122,117	310,000
Bank balances	193,298	202,907
Less: Restricted cash	(31,783)	(20,021)
	283,632	492,886

Restricted cash comprise of a RM10.0 million (31.12.2017: RM10.0 million) security deposit placed with a local licensed bank for trade facilities and an amount equivalent to RM21.8 million (31.12.2017: RM10.0 million) held in a debt service accrual account associated with a term loan.

A21 Capital commitments

	As at	As at
	<u>31.03.2018</u>	<u>31.12.2017</u>
	RM'000	RM'000
Property, plant and equipment		
Approved and contracted for	330,686	542,382
Approved but not contracted for	338,722	204,579

A22 Company's performance

A review of the Company's financial performance in the reporting period is presented in the accompanying Management Commentary in Part B.

A23 Current year prospects

A commentary on the Company's current year prospects is presented in the accompanying Management Commentary in Part B.

A24 Related party disclosure

There were no trade/non-trade transactions with Malaysia Hengyuan International Limited or with its affiliated companies during the quarter ended 31 March 2018.

Part B: Additional Information Required By Bursa Malaysia Listing Requirements

B1 Financial review for current quarter and financial period ended

	Quarter/Cumulative period-to-date ended			
	<u>31.03.2018</u>	<u>31.03.2017</u>	Variance	
	RM'mil	RM'mil	RM'mil	%
Revenue	3,061	2,932	129	4
Gross profit	174	396	(222)	-56
Profit after taxation	87	279	(192)	-69

The Company recorded revenue of RM3.1 billion for the financial period ended 31 March 2018, approximately 4% higher than the RM2.9 billion recognised for the same period last year. This was primarily due to higher average product prices in the current quarter of USD76 per barrel as compared to USD65 per barrel in the comparative period. Sales volume in the current quarter was recorded at 10.2 million barrels, at par with 10.1 million barrels sold in the same quarter of 2017.

Gross profit for the current quarter reflected a FIFO margin of USD4.73 per barrel (including a stockholding gain of USD1.46 per barrel), compared to FIFO margin of USD8.90 per barrel (including a stockholding gain of USD0.70 per barrel) for the same period last year. The comparatively lower average margin mainly due to lower market mogas cracks amidst increasing crude prices and high inventory in the region. There were also unplanned downtime events related to mogas production units.

Manufacturing expenses for the current quarter were marginally lower, in proportion to production volumes. The Company also recorded a gain in foreign currency exchange as RM continued to appreciate against the USD. Higher finance costs for the current quarter were due to a full amortisation of upfront fees on borrowings, following the refinancing of existing term loans with new banking facilities. The Company also recognised a tax charge of RM22.0 million, as tax credits from prior years were fully utilised in FY2017.

Part B: Additional Information Required By Bursa Malaysia Listing Requirements *(continued)*

B2 Financial review for current quarter compared with immediately preceding quarter

	Quarter ended			
	<u>31.03.2018</u>	<u>31.12.2017</u>	Variance	
	RM'mil	RM'mil	RM'mil	%
Revenue	3,061	3,092	(31)	-1
Gross profit	174	357	(183)	-51
Profit after taxation	87	204	(117)	-57

Revenue for the current quarter was marginally lower when compared against the preceding quarter. Although average market product prices recorded an increase from USD71 per barrel in Q4 2017 to USD76 per barrel in Q1 2018, this was offset by a 5% appreciation of RM against USD in the current quarter and a reduction in production volume by approximately 180,000 barrels.

Gross profit for the current quarter was comparatively lower than the average margin for the immediately preceding quarter, mainly due to lower market mogas cracks and unplanned downtime events related to mogas production units.

Higher operational expenditure in the preceding quarter was a result of higher spend on planned maintenance and non-recurring basic engineering design packages relating to regulation-driven projects. Included within the current quarter's finance costs is an immediate charge of the remaining unamortised upfront fees following the refinancing of existing term loans with new banking facilities.

B3 Current year prospects

Refining margins are expected to remain volatile in the near term based on published forward market prices and refining margins. Operational efficiency, safety performance, product quality, hydrocarbon hedging and financial risk management continue to remain as key areas of focus in optimising the Company's performance.

Part B: Additional Information Required By Bursa Malaysia Listing Requirements (continued)

B4 Status of Project Euro4M Mogas

On 16 of June 2017, the Company had announced the Final Investment Decision on the Euro4M Mogas project with planned completion in the 2nd half of 2018.

We continue to anticipate a delay in the planned completion of the Euro4M Mogas project due to the longer than expected duration to fabricate the main equipment. We are currently evaluating options to minimise the impact and will provide further information in due course.

We do not anticipate any interruptions in meeting our product delivery commitments to our customers as a result of this delay.

B5 Profit forecast

The Company does not issue any profit forecast.

The Company continues to prepare for a planned major statutory turnaround scheduled to be carried out in the third quarter of FY2018. This major turnaround is planned to take approximately 2.5 months. Accordingly, revenues for the current financial year will reflect the anticipated reduction in sales and production activities.
