INTERIM FINANCIAL REPORT FOR THE FOURTH QUARTER AND FINANCIAL PERIOD ENDED 31 DECEMBER 2018

NOTES TO THE INTERIM FINANCIAL REPORT

A1 Accounting Policies

The interim financial report is prepared in accordance with Malaysian Financial Reporting Standards 134 - Interim Financial Reporting and paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad. The figures have not been audited. The interim financial report should be read in conjunction with the Group's audited financial statements for the financial year ended 31 December 2017.

This interim financial report is the Group's first Malaysian Financial Reporting Standards ("MFRS Framework") compliant condensed report and hence MFRS 1 : First-Time Adoption of MFRS 1 has been applied. The date of transition to the MFRS Framework is 1 January 2017. At the date of transition, the Group reviewed its accounting policies and considered the transitional opportunities under MFRS 1. The impact of the transition from Financial Reporting Standards ("FRS") to MFRS is described below:

Property, plant and equipment - Deemed cost exemption

The Group elected to apply the optional exemption to measure certain property, plant and equipment at fair value at the date of transition to MFRSs and use that fair value as deemed cost under MFRSs.

The aggregate fair value of these property, plant and equipment at 1 January 2017 was determined to be RM41,958,724 as compared to the carrying amount of RM37,625,606 under FRSs.

The financial information presented herein has been prepared in accordance with the accounting policies to be used in preparing the annual consolidated financial statements for 31 December 2018 under the MFRS Framework. These policies do not differ significantly from those used in the audited consolidated financial statements for 31 December 2017 except for the adoption of the following MFRSs, amendments to MFRSs and IC Interpretation which are effective for the financial period beginning on or after 1 January 2018:

| | |
|--|---|
| Amendments to MFRS 2 | Classification and Measurement of Share-based Payment Transactions |
| Amendments to MFRS 4 | Applying MFRS 9 <i>Financial Instruments</i> with MFRS 4 <i>Insurance Contracts</i> |
| MFRS 9 | Financial Instruments (IFRS 9 issued by IASB in July 2014) |
| MFRS 15 | Revenue from Contracts with Customers |
| MFRS 15 | Clarifications to MFRS 15 |
| Amendments to MFRS 140 | Transfers of Investment Property |
| IC Interpretation 22 | Foreign Currency Transactions and Advance Consideration |
| Annual Improvements to MFRSs 2014 - 2016 Cycle | |

NOTES TO THE INTERIM FINANCIAL REPORT

The adoption of the above MFRSs, Amendments to MFRSs and IC Interpretation did not result in any significant changes in the accounting policies and presentations of the financial statement of the Group other than as set out below:

(i) MFRS 9 Financial Instruments

The Group adopted MFRS 9 Financial Instruments on 1 January 2018. MFRS 9 replaces the guidance in MFRS 139 Financial Instruments: Recognition and Measurement on the classification and measurement of financial assets and financial liabilities, impairment of financial assets and on hedge accounting.

MFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics.

MFRS 9 contains three principal classifications categories for financial assets: measured at amortised cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The standard eliminates the existing MFRS 139 categories of held to maturity, loans and receivables and available for sale. The Group has elected to classify the equity investments as FVOCI and present subsequent changes of the fair value to other comprehensive income.

On 1 January 2018, other investments were classified as financial assets at FVOCI under the requirement of paragraph 7.2.15 of MFRS 9 *Financial Instruments*. Prior to 1 January 2018, other investments were classified as Available-For-Sale financial assets under the requirements of FRS 139 *Financial Instruments: Recognition and Measurement*.

MFRS 9 also replaces the incurred loss model in MFRS 139 with a forward-looking expected credit loss ("ECL") model. Under MFRS 9, loss allowances will be measured on either 12 month ECL or Lifetime ECLs.

As allowed by the transitional provision of MFRS 9, the Group elected not to restate the comparatives.

The effect of the adoption of MFRS 9 on the financial statements of the Group is stated below:

| Consolidated Statement of Financial Position | Restated under MFRSs RM'000 | Effect of MFRS 9 RM'000 | Restated RM'000 |
|---|--------------------------------------|-------------------------------|--------------------|
| <u>At 1 January 2018</u> | | | |
| Retained earnings | (91,041) | (238) | (91,279) |
| Trade and other receivables | 27,707 | (238) | 27,469 |

(ii) MFRS 15 Revenue from Contracts with Customers

MFRS 15 replaces MFRS 118 Revenue, MFRS 111 Construction Contracts and related IC Interpretations. The Standard deal with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers.

Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

The adoption of MFRS 15 does not have a material effect on the financial statements of the Group.

The Group's revenue of RM70.49 million for the financial year ended 31 December 2018 represents a 10% or RM6.41 million increase from RM64.08 million in the corresponding year ended 31 December 2017. The property division recorded an increase of RM2.8 million due to higher contribution from the Pinnacle Kelana Jaya project. The manufacturing and trading division recorded an increase in revenue of 8% or RM3.56 million as compared to the corresponding period ended 31 December 2017 mainly due to increase in selling prices.

Gross profit margin of the Group decreased from 26.9% in the financial year ended 31 December 2017 to 16.6% in the financial year ended 31 December 2018 mainly due to lower contribution from the projects in Ipoh, lower margin of the manufacturing and trading division and the absence of write-back of property development expenditure of a completed project.

The Group recorded a profit before tax of RM4.1 million for the financial year ended 31 December 2018 as compared to a profit of RM30.57 million in the corresponding year ended 31 December 2017. The manufacturing and trading division recorded a higher loss before tax of RM3.89 million as compared to RM1.73 million in the corresponding year ended 31 December 2017 due to lower gross profit margin as a result of higher production costs. Selling prices increased by 9% in response to a 15% increase in raw materials costs. Gross profit margin decreased by 4.2% for the financial year ended 31 December 2018 as compared to the preceding financial period ended 31 December 2017. Lower profit was also recorded by the property division at RM3.53 million as compared to RM6.15 million for the financial year ended 31 December 2017. This was mainly due to lower contribution from the Group's projects in Ipoh and Pinnacle Kelana Jaya and the absence of a write back of property development expenditure of a completed project.

In the financial year ended 31 December 2018, the Group's property and investment holding division recorded a profit of RM4.45 million mainly due to the gain on government compulsory land acquisition of RM10.18 million while the higher profit in the financial year ended 31 December 2017 was the result of a fair value gain of RM29.6 million in respect of the carpark premises at Kelana Jaya which were reclassified from property, plant and equipment to investment properties at their fair values based on valuations by an independent firm of professional valuers on 1 January 2017. The valuations were based on the comparison and cost method of valuation where reference were made to comparable properties in the neighbourhood and making adjustments for differences.

INTERIM FINANCIAL REPORT FOR THE FOURTH QUARTER AND FINANCIAL PERIOD ENDED 31 DECEMBER 2018

NOTES TO THE INTERIM FINANCIAL REPORT

B3 Commentary on Prospects

The property market was soft with low transaction volumes and property prices declined gradually in the financial year 2018. The downward trend is expected to continue for the first half of the current financial year 2019. The Group will focus on selling the unsold units of the Pinnacle Kelana Jaya project and the continuation of its existing projects in Ipoh.

As for the manufacturing division, demand for galvanized wires was low in 2018 and is expected to remain subdued in 2019. With the imposition of safeguards duty on wire rods imports coupled with the increase in gas prices and labour costs, the Group's average production cost has increased. The manufacturing division will strive to minimise losses in 2019. Thus 2019 will continue to remain challenging for the Group.
