INTERIM FINANCIAL REPORT FOR THE THIRD QUARTER AND FINANCIAL PERIOD ENDED 30 SEPTEMBER 2020

NOTES TO THE INTERIM FINANCIAL REPORT

A10 Valuation of Property, Plant & Equipment

The valuation of property, plant and equipment have been brought forward, without amendments from the previous audited financial statements.

A11 Material Events Subsequent to the End of the Interim Period

The Covid-19 outbreak and Movement Control Order ("MCO") implemented by the Government has disrupted the Group's operations from 18 March 2020 to 3 May 2020. The Group resumed operation on 4 May 2020 except for construction work which resumed on 27 May 2020. Measures taken to contain the Covid-19 virus have significantly affected the economic activity in general. This is expected to impact, though not significant the Group's financial results in 2020.

A12 Changes in the Composition of the Group

On 26 July 2019, the Company entered into a Share Sale Agreement for a 60% equity investment representing 1,800,000 ordinary shares in Forward Energy Sdn Bhd ("FESB") for a cash consideration of RM6.0 million ("SSA"). FESB's nature of business is in the renewable energy related busines specifically in the area of consulting and as an independent power producer in a smaller scale. The SSA is conditional upon fulfillment of certain conditions including, inter alia, the execution of the relevant agreements with government authorities and third parties.

However, the onslaught of Covid-19 which led to the MCO coupled with the change in the ruling state government had caused further delays to the finalisation of the agreement. The vendors are required to resolve all the outstanding obligations under the SSA by 25 July 2020. As the deadline has lapsed and due to the protracted time line for the completion of the SSA, exacerbated by the MCO which had adversely affected the operations of the Group and consequently its cash flow, the Group may have to re-consider the acquisition of the 60% equity interest and may instead opt for a smaller stake thus giving leeway for other parties to co-invest into FESB. The Group has continuously been engaging with the vendors as well as parties who are in the market to invest in renewable energy business which is in line with the business sustainability.

A13 Changes in Contingent Liabilities and Contingent Assets

There were no changes in contingent liabilities and contingent assets since 30 June 2020.

A14 Outstanding Commitments

There were no outstanding commitments for the financial period under review except as mentioned in A12 above.

B3 Commentary on Prospects

Covid-19 is an unfavourable factor affecting the 2020 world economy in general. In Malaysia, Bank Negara Malaysia has revised the GDP downwards to project a contraction of growth at between -2.0% to 0.5% in 2020 accounting for the after effect of the pandemic. GDP growth was 4.3% in 2019. Unemployment rate remained high at 4.5% in August 2020 as a result of the Covid-19 pandemic. As further job losses are expected when businesses consolidate, cut losses on not profitable units, downsize or wind down, consumer spending will be impacted. The uncertainty will have a significant impact on the manufacturing and property sectors. The property glut situation is not expected to improve by end of 2020. The Group will remain cautious and focus on selling the unsold units of the Pinnacle Kelana Jaya project and the continuation of its existing projects in lpoh in 2020.

As for the manufacturing division, demand for galvanized wires is expected to remain sluggish by the end of 2020. The manufacturing division will strive to minimise losses in 2020.

The investment holding division's rental income was impacted by MCO with tenants faced with curtailment of operations and rental discounts granted. As such, results for this division is not expected to improve by the end of 2020.

Faced with the current uncertainties and unfavourable market conditions, the Group's result in 2020 is not expected to improve.
