- Corporate, net of elimination	1,068	1,733	-38.4

Revenue

The Group reported lower revenue of RM63.6 million in current quarter as compared to immediate preceding quarter.

The performance of Group's trade facilitation & e-Commerce recorded a lower revenue of RM22.1 million in current quarter (Q4, 2019: RM24.7 million), a 10.5% reduction resulted from lesser trade transactions, the effect from the Covid-19 Pandemic; and imposition of Movement Control Order ("MCO") by the Malaysian Government.

The Group's system Integration & Consultancy business reported RM27.3 million in current reporting period (Q4, 2019: RM44.2 million). The 38.2% deceased in revenue was mainly contributed by:

- Lower progress billing for work done in Integrated Government Finance & Management System ("iGFMAS"); and related maintenance work (Q1,2020:RM16.8 million; Q4, 2019: RM26.4 million);
- Slowdown in project implementation in current reporting period for the following contracts (Q1,2020: RM3.8 million; Q4, 2019: RM7.2 million).
 - o Statistics Data Warehouse Project for Jabatan Perangkaan Malaysia; and
 - o big data analytics project for Kementerian Air Tanah dan Sumber Air.
- Completion of one-off submarine cable installation and repair project in Indonesia with a final billing of RM2.6 million in the immediate preceding quarter.

The Group's Energy also affected with delays in projects arising from MCO as well as significant competitive pressure in oil & gas activities.

Profit Before Tax ("PBT")

Despite of reduction in revenue, the Group reported a PBT of RM7.4 million in current reporting period, 4.3% higher as compared to the immediate preceding quarter. The higher PBT in current quarter was mainly contributed by the share of results in associates of RM4.1 million (Q4, 2019: Loss of RM2.6 million).

Included in current PBT was a one-off loss on disposal of investment in a subsidiary of RM833,000.

20 Detailed analysis of the performance for the current quarter

(a) Quarter ended 31 March 2020 compared with quarter ended 31 March 2019

	Current year quarter 31/3/2020 RM'000	Preceding year corresponding quarter 31/3/2019 RM'000	Variance %
Revenue	63,650	68,949	-7.7
- Information Technology ("IT")	49,368	57,324	-13.9
- Energy	14,282	11,625	+22.8

The Group recorded lower quarter-to-quarter revenue of 13.9% or RM8.0 million in IT segment, mainly due to completion of one-off submarine cable installation and repair contract in Indonesia (Q1,2020: RM Nil; Q1, 2019: RM7.7 million). Currently, the Group is actively exploring opportunities to secure long-term contract opportunities in Indonesia.

The Group's Energy division shows 22.8% or RM2.7 million increase in its revenue, mainly contributed by Trading & Services due to the improved orderbook. DNeX's major energy related contracts fall under downstream segment and could therefore able to generate a steady revenue stream.

However, the hit to the oil price, and the potential cut in capital expenditure spending by the oil majors are having a negative impact on the Oil & Gas industry.

The Group reported a PBT of RM7.4 million in current quarter, a reduction of RM9.0 million (or 54.9%) as compared to the Q1, 2019 was mainly attributable to:

- Lower share of the results of an associate (RM3.7 million);
- Lower recognition of other income (RM3.2 million); and
- Completion of submarine cable installation and repair contract in Indonesia in 2019 (RM0.6 million).

The above-mentioned PBT reduction was partly mitigated by the cost savings of RM1.5 million in current reporting quarter. The Management will continue to pursue cost optimisation activities within the Group to drive operational efficiency and ensure earnings sustainability.

21 Prospects for 2020

Global economies are faced with an unprecedented situation with headwinds from multiple fronts and businesses in Malaysia are not spared. Countries all around the world are working relentlessly and have taken various measures to combat the Covid-19 pandemic such as implementing MCO and closing their borders. Such developments have limited physical movement and impacted a lot of business and trade activities globally. Governments and corporate leaders are changing how they work amid such unprecedented situation.

The Covid-19 pandemic will undeniably has an adverse impact to businesses in the country and globally including us. But the Management believes the impact by the pandemic to the Group is manageable as most of our projects are ongoing especially the Government projects and these expected to carry us through 2020. Selected Government projects continue to operate as usual during the MCO as part of essential services albeit with extra precautions for workers and travel. The Energy business continues to face challenges in an environment of declining oil price amidst lower energy demand and crude supply glut.

Barring any unforeseen circumstances, the Group expects to deliver positive results for the year 2020.
