In the current quarter, the net deferred tax expense RM18.53 million includes reversal of deferred tax liabilities due to re-measurement of EPL temporary differences, offset with reassessment of recognition of deferred tax assets on prior years' tax losses in 30 June 2022.

Current year deferred tax expenses were mainly in relation to enaction of Energy Profit Levy ("EPL"), a temporary levy introduced by UK Government on 14 July 2022. The EPL was set at 25% for profits arising from 26 May 2022 to 31 December 2022 and 35% for profits arising from 1 January 2023 to 31 March 2028.

As of 31 December 2023, the deferred tax expense mainly arising from the EPL regime of RM143.20 million based on the taxable temporary differences expected to be reverse during the window for which the EPL regime applies, i.e. up to 31 March 2028. These temporary differences arose from the expected future amortisation of intangible assets and depreciation of oil and gas assets up to 31 March 2028.

**19 Material litigation (continued)**

The Company and its subsidiaries have no material litigation as at the date of this announcement other than disclosed below: (continued)

c) Material litigation between Dagang NeXchange Berhad, DNeX Semiconductor Sdn. Bhd., Mimastronics Technologies Company Limited and Tethystronics Technologies Company Limited

i. Arbitration proceeding against Mimastronics Technologies Company Limited ("MIMAS")

The Company had on 17 November 2022 announced that DNeX Semiconductor Sdn. Bhd. ("DNeX Semi"), a wholly-owned subsidiary of the Company, had on 17 November 2022 issued and served a Notice of Arbitration to commence arbitration proceedings against Mimastronics Technologies Company Limited ("MIMAS") under rules 5.3 and 22.4 of the Asian International Arbitration Centre Arbitration Rules, 2021. MIMAS is wholly owned by Tethystronics Technologies Company Limited ("TTCL") a special purpose vehicle ultimately owned by Beijing Integrated Circuit Advanced Manufacturing and High-End Equipment Equity Investment Fund Center (Limited Partnership) ("CGP"), which also held 40% equity interest in SilTerra Malaysia Sdn. Bhd. ("SilTerra"). SilTerra is a 60% owned subsidiary of DNeX Semi which in turn is a subsidiary of the Company.

DNeX and CGP had respectively acquired, through DNeX Semi and TTCL, 60% and 40% of the shareholding of SilTerra from Khazanah Nasional Berhad ("Khazanah") pursuant to a Share Sale and Purchase Agreement dated 31 March 2021 between DNeX, CGP and Khazanah ("SilTerra SSPA").

DNeX Semi and TTCL aimed to continue with the operations of SilTerra. This necessitated compliance with the conditions imposed on the manufacturing licence ("the Licence") issued to SilTerra pursuant to the Industrial Co-ordination Act 1975. Amongst other things, it was a condition that at least 55% of the shareholding of SilTerra was to be owned by a Malaysian entity. A breach of this condition would trigger a possible revocation of the Licence.

In order to fulfil commitments made by DNeX Semi and TTCL under the SilTerra SSPA, it was necessary for DNeX Semi to raise a sum of RM120 million in SilTerra for the purposes specified in Schedule 4(I) of the SilTerra SSPA.

Various discussions were held between the parties to deliberate on the option of financial instruments to be used for purpose of raising the aforementioned funds. Of the options discussed, the parties had sought to opt for the possible issuance of Irredeemable Convertible Preference Shares ("ICPS") in DNeX Semi amounting to RM100 million to be issued to and subscribed by MIMAS ("Proposed Investment"). The Proposed Investment forms the subscription exercise that was the subject of the Subscription Agreement dated 21 January 2022 entered between DNeX Semi, MIMAS and DNeX ("SSA") by which MIMAS would become a 33.33% shareholder of DNeX Semi in return for a payment of RM100 million. The rights of the DNeX Semi and MIMAS as shareholders was to be regulated by the Shareholders Agreement dated 21 January 2022 entered between DNeX Semi, MIMAS and DNeX ("SHA").

The execution of the SSA and SHA was done in accordance with a protocol which stipulates that wet-ink versions of the signing pages were only required for the purposes of stamping. Nonetheless upon executing the two agreements, DNeX reached out to MIMAS to delay the stamping as DNeX will need to seek greater clarity on the matter from the relevant authorities in fear that it might potentially breach any regulatory conditions duly imposed by the Government of Malaysia.

Accordingly, DNeX and CGP had sought clarification with the Ministry of International Trade and Industry ("MITI") in relation to the possible breach of any regulatory conditions pursuant to the Proposed Investment.

**19 Material litigation (continued)**

The Company and its subsidiaries have no material litigation as at the date of this announcement other than disclosed below: (continued)

c) Material litigation between Dagang NeXchange Berhad, DNeX Semiconductor Sdn. Bhd., Mimastronics Technologies Company Limited and Tethystronics Technologies Company Limited. (continued)

i. Arbitration proceeding against Mimastronics Technologies Company Limited ("MIMAS"). (continued)

Vide MITI's letter dated 28 February 2022, DNeX and CGP learned that the prior approval of MITI was required in relation to the Proposed Investment. Despite the clarification letter from MITI, MIMAS purported to stamp the SSA and SHA, utilising scanned copies of the signing pages of the said agreements on which DNeX and DNeX Semi signed. This was despite the understanding of the parties that only wet ink copies would be stamped. At all material times, the original wet ink copies of the SSA and SHA are kept in trust by DNeX's solicitors and have not been released to CGP, MIMAS or its solicitors.

MIMAS took, and still takes, the position that such approval was not required and maintains that the SSA and the SHA are valid and enforceable. It is, further, MIMAS's position that these agreements should not be understood as being conditional upon such approval.

DNeX and DNeX Semi, however, consider such approval as necessary, more so in light of the terms and conditions of the SSA and the SHA which provide for MIMAS becoming a shareholder upon the issuance of the ICPS and not their conversion. If so, this puts the Licence, and thus the operations of SilTerra, at risk. This is also after taking into account the MITI's letter dated 28 February 2022 which stipulates that the prior approval of MITI was required in relation to the Proposed Investment.

It is the position of DNeX and DNeX Semi that the SSA and the SHA are void by reason of Section 21, Contracts Act 1950 as the parties were under a mistake as to a matter of fact essential to the said agreements.

In view of the foregoing, DNeX and DNeX Semi demand that the dispute be referred to arbitration pursuant to the Arbitration Agreements in accordance with the Asian International Arbitration Centre Arbitration Rules, 2021.

DNeX and DNeX Semi will seek the necessary relief to have the SSA and SHA declared null and void.

ii. Commencement of Originating Summons by TTCL against DNeX Semi and SilTerra in relation to a shareholders' agreement dated 8 July 2021 entered between TTCL and DNeX Semi.

The Company had on 15 December 2022 announced that the Company's subsidiaries namely, DNeX Semi and SilTerra (collectively referred to as "**the Group**" or "**the Defendants**"), were served with an Originating Summons together with notice of Application (ex-parte) for injunctive relief against the Defendants via its solicitors Messrs Rahmat Lim & Partners. The cause papers were served at the registered office of the Defendants on 12 December 2022. As a result of inadvertent clerical error, the cause papers were not brought to the attention of the management of the Defendants. The notice of application sought among others, injunctive relief and remedies against the Defendants.

The notice of application was heard before the High Court on 14 December 2022. As a result of explanation given by the Defendants' counsel, the court granted an interim injunction pending hearing of the Plaintiff and Defendants on 22 February 2023.

The Company does not expect any material financial impact by reason of the relief and remedy sought by TTCL arising from the originating summon other than legal cost to be incurred. No material operational impact is expected arising from the originating summon.

ii. Commencement of Originating Summons by TTCL against DNeX Semi and SilTerra in relation to a shareholders' agreement dated 8 July 2021 entered between TTCL and DNeX Semi. (continued)

Bhd. ("DNeX Semi") and SilTerra Malaysia Sdn. Bhd. ("SilTerra"). Among others, the Consent Order provides that:-

1) The Ad Interim Order dated 14 December 2022 ("**Interim Injunction**") was discharged;

5) The composition of the Board of SilTerra shall remain as at the composition prior to 21 November 2022; and

6) The Consent Order shall be effective and enforceable until the disposal of the OS. The Consent Order shall be discharged upon the disposal of the OS.

The Consent Order will not have any material financial impact other than legal cost to be incurred and no material operational impact is expected arising from the Consent Order. In contrary, the Consent Order will allow the Board of SilTerra to operate their business as usual with a functional Board.

## 21 Prospects for 2024

**Overall**

We aim to identify and pursue high-growth areas within each of our diverse business segments of technology, energy and information technology. This ensures we maintain a competitive edge and remain at the forefront of innovation in the sectors we operate in.

**Technology**

Our strategic focus on enhancing our product mix with emerging technologies such as microelectromechanical systems ("MEMS") and Silicon Photonics is gaining positive momentum. We are starting to experience a gradual growth in demand for emerging technologies which command higher average selling prices and profit margins.

On-going efforts in product testing and qualifications with global customers and our 20% capacity expansion from 2023 puts us in a strong position to efficiently meet market demand as the industry rebounds.

The global semiconductor industry is expected to recover in the second half 2024 on the back of rising demand for artificial intelligence (AI) and high-performance computing (HPC), coupled with stabilising demand for smartphones, personal computers, infrastructure and resilient growth in automotive sector.

**Energy**

Ping Petroleum Limited has a diversified O&G portfolio encompassing 3 assets in UK (Anasuria, Avalon and Fyne) and 3 assets in Malaysia (Meranti Cluster, A Cluster and Abu Cluster). These assets provide Ping with long-term growth opportunities and diversifies risk with exposure to different geographical and risk profiles.

With production sharing contracts secured with Petronas for all 3 assets in Malaysia, we are currently focused on the development of the Abu Cluster, located offshore Terengganu. This will enable us to unlock near-term production and is targeted to achieve by early 2025.

The Group will leverage on its track record of being a low-cost upstream producer of late-life assets and innovator in marginal field development to maximise the economic potential of these assets.

In the recently published Petronas Activity Outlook 2024-2026 report, Petronas aims to sustain and grow Malaysia's oil and gas production to two million barrels of oil equivalent per day (MMboe/d) by 2025 and beyond. This will create significant opportunities for OGPC as a service provider and distributor of technical products and equipment in the O&G sector.

**Information Technology**

Building upon our track record in delivering nationally critical IT projects, we aim to leverage on our strategic partnerships forged with leading technology companies to deliver innovative solutions that accelerate digital transformation. We are expanding our service offerings by strengthening capabilities and seizing opportunities in new technology areas such as IoT, Big Data and analytics.

Our focus is on securing large-scale IT and digitalisation projects in both public and private sectors, locally and globally, with a target on the Middle East and North Africa region for smart city development, e-government services, and system integration projects.

Reinforcing our position as a leading player in trade facilitation, we are committed to roll-out new digital solutions that simplify trade processes and enhance ease of doing business for the trading community. A notable example is the launch of Tradeswift DAGANGNET, an all-encompassing trade facilitation SuperApp, a mobile platform that empowers users to effortlessly handle, pay for, and manage trade transactions on the go. We are also developing new B2B e-Services for trade facilitation to enhance customers' trading experience.
